Motif

Tebhaga Movement

Paschim Dinajpur - after bifurcation - Dakshin Dinajpur is the august land for initiating Tebhaga Movement of 1946-1948 organised by the poor cultivators and share croppers against the Zaminders, feudal lords and money lenders for establishing the rights for their 'right-share' of production of crop in the State. The sacrifice of lives to the Police bullets of British Govt. of the poor cultivators and share croppers for establishing their right place them as Martyrs to the people of the country.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Deepak Ghosh, IAS., Director of Census Operation, West Bengal. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)

PREFACE

The District Census Hand Book or DCHB is the most popular and widely used publication which is compiled and prepared by the Census Organization. The first ever DCHB was published in the year 1951. Thereafter Census Directorate is coming up with the publication of DCHB in every decadal Census and the present volume of DCHB of 2011 is seventh in the series.

Over the time, the contents of DCHB have been changing keeping in track with the requirement of the data user on different amenities. Since DCHB is a compilation of Census and non-Census data, the presentation is being done in two parts, viz. the Part-A and Part-B separately for each district. Part-A contains Village & Town Directory data with some important tables depicting availability of basic civic amenities such as drinking water facilities, educational facilities, post & telegraph facilities, banking facilities etc. at the C.D. Block/Village and Town level. Part-B on the other hand contains District Primary Census Abstract of Total Population including Scheduled Castes and Scheduled Tribes at the C.D. Block/Village level and for urban units like for Statutory Towns and Census Towns, it is ward level. Part-B contains data for sex wise distribution of population, age group of 0-6 years, literate and illiterate, Scheduled Castes and Scheduled Tribes, worker and non-worker data, economic category i.e. cultivator, agricultural labour, household industry worker and other worker.

Apart from the above, DCHB also furnishes a variety of essential information pertaining to the district like brief history, the information about administrative set-up, location, climate, economic resources, land use, transport, industry, trade and commerce, place of historical, archaeological and tourists importance etc. It also provides brief analysis of Census data, presentation of the data through various tables, graphs and maps has made the publication much more attractive and valuable.

Most sincere and deepest gratitude is expressed to Dr. C. Chandramouli, IAS, Registrar General and Census Commissioner, India for his constant inspiration, support and valuable suggestions. The support and assistance of Dr. R.C. Sethi, former Additional Registrar General and Shri Deepak Rastogi, present Additional Registrar General, worth special mentioning. Our earnest gratitude to them. We are also grateful to Dr. A.P. Singh, former Deputy Registrar General (Map) for providing the technical guidance in the preparation of maps and to Dr. Pratibha Kumari, Assistant Registrar General (SS) for her overall supervision. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Additional Director

(EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). Heartfelt thanks to all the Officers of the Office of the Registrar General, India who contributed their share in befitting manner.

The sincere contributions made by the District Magistrates of all districts, Municipal Commissioners of Kolkata and Haora Municipal Corporations, District Census Officers, Additional District Census Officers (Officer In-charge, Census) and innumerable Village, C.D. Block and Town level officials of all the districts of West Bengal for arranging collection of village and town directory data by the local officials from the villages/towns under their respective jurisdiction are hereby acknowledged with thankfulness.

At this Directorate level, sincere thanks are due to all those who put utmost sincerity and zeal towards the successful completion of this publication within the stipulated time. As it is not feasible to express recognitions individually, a separate page of acknowledgement is included in this publication.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

India became independent from the British rule on 15th of August 1947. India was bifurcated given birth to Pakistan as a new country. A part of erstwhile Dinajpur district became a part of this bifurcation and approximately two third of the Dinajpur district was included in East Pakistan (present Bangladesh) and one third was within India and was renamed West Dinajpur. For the sake of proper administrative expediency, West Dinajpur was further subdivided into Uttar (North) Dinajpur and Dakshin (South) Dinajpur on 1st of April 1992.

We can see the existence of Dinajpur district in history some 2000 years back. The district is rich in mythological, historical, archaeological, religious, cultural and natural heritages. The district witnessed the reign of the Maurya, the Gupta, the Pala and the Sena Empires. The Muslim invaders also attacked the district and side by side the district also observed the glory of Buddhism and Jainism. Active participations of the local people in the national movement and the struggle for freedom made the history of the district very prosperous.

We first get the mention of undivided Dinajpur in ancient times when the district was a part of the Pundra Kingdom. The community of the Pundra Kingdom were known as the Pundras and it is believed that the origin of the state of Pundras was derived from Aitareya Brahmana. There is also a belief that the Pundras are from the first chapter of Mahabharata and Haribangsha. Pundrabardhan is known as present Mahasthangar now and was the capital of the Pundra kingdom. The archaeological ruins of Pundrabardhan can still be seen in the western bank of Korotoariver in Bagura district, Bangladesh. Gourpur and Kotibarsha were two other important towns of the Pundradynasty. Presently Bangar is situated beside Punarbhabariver in Gangarampur which was once known as Kotibarsha. The mention of Kotibarsha is also found in Hindu mythology where it is described that Kotibarsha came under the rule of the King Birat after the defeat and assassination of King Bana by Lord Krishna. The capital of Birat is presently known as Bairhatta in Harirampur.

Jainism was spread in Dinajpur district with the establishment of Mauryan Empire in 4th century B.C. Bhadrabahu was the Jain guru of Chandra Gupta Maurya, the founder of the Mauryan Empire and it is said that Bhadrabahu was born in Kotikpur i.e. in Gangarampur. The entire district along with the whole of Pundrabardhana was part of the great Mauryan Empire and this fact is proved through archaeological excavations at Bangas and the inspections found in different parts of the district. During the Gupta reign, which continued till the middle of the 6th century, the district was crowned with the glory of the Gupta dynasty. Numerous discoveries of various inscriptions provide evidence of influence of the Guptas over Pundrabardhana. These inscriptions also reveal the efficient and methodical administration of the Gupta Empire and the discovery of gold and silver coins bear witness the prosperity of the country. Gopala, the founder of the Pala dynasty ruled for about 20 years (750-770 AD) after the end of the Gupta reign. During this period the many places, ponds etc. were constructed and they still bear the name of those great Pala rulers. Mahipal II dug a tank in Kushmandi C.D. Block which is still known as Mahipal pool. The Palas were the

believers of Mahayana Buddhism but never deprived the common people to profess their own religions. After the defeat of Mada Pala (1143-1162 AD) by Vijay Sen, the Pala dynasty came to an end and Sen Dynasty began its ruling for the next four hundred years though they ruled over North Bengal for a short span of time.

In the year 1204, Turkish General Ikhtiyar Uddin Muhammad Bin BakhtiyarKhilji, attacked Nabadwip, Nadia in Bengal with only eighteen soldiers who were initially mistaken with horse traders and defeated Lakshman Sen. Even after conquering Nadia, the centre of power was in Devakot, present Gangarampur, as he established his capital there and from here in 1206 the famous Tibet March with ten thousand soldiers were conducted. The expedition failed and he was assassinated by Ali MardanKhilji while he was lying ill at Devakot on his return journey. Afterwards, Ali Mardan was defeated and imprisoned by Muhammad ShiranKhilji, one of the officers of BakhtiyarKhilji, and was empowered as the ruler of Lakhnawati. At a later date, the capital was transferred from Devakot to Pandua and then after to Gour. From 1227-87 AD no less than fifteen chiefs were in authority at Lakhnawati and of them ten were Mamluks of the Imperial Court of Delhi. The history of this period is a shocking record of internal dissensions, usurpations and murders. In the year 1585, the great Mughal Emperor Akbar conquered Bengal when the district of Dinajpur was probably ruled by *Sarkars* of Tajpur and Panjara. During Akbar's reign, the first authentic traces of *zamindari* family of Dinajpur are found. Sadly during the next two hundred years of Mughal reign Bengal have nothing noteworthy to mention.

In the year 1765 when Diwani of Bengal was obtained by the East India Company, the district came under control of the British. Muhammad Reza Khan was appointed as their *Naib* or Deputy at Murshidabad and in order to acquire control over the administration they forced Najm-ud-daulah, Mir Jafar's son, to consent to the appointment of the same Muhammad Reza Khan as his deputy as well.

At the beginning of the British rule, an indigo factory was established at Madnawati which presently falls under Bamongola C.D. Block of Maldah district. Famous English Baptist missionary William Carey joined the factory as manager. William Carey is acknowledged in the history as a social reformer who worked for the development of education. In 1798 he brought a printing machine in Kolkata with a goal to print Bengali books. But the indigo factory was closed down in 1799.

The district witnessed ransacks and raids of the *Sanyasis* and *Fakirs* during the later half of the 18th century. Many of them acquired properties and settled down in many places of the district. At the beginning, the Muslim colonisers patronised these *Fakirs* and the advantage of these were utilised in full by them. They entered the district from places of Western India as pilgrims but soon started to acquire treasures by plundering the people.

The activities of these *Sanyasis* were curbed by Lord Warren Hastings though the *Fakirs* continued to subjugate the people of the district even as late as 1799. Their activities were completely stopped by The East India Company by the beginning of the 19th century.

The district was undisturbed during the *SipahiBidrohaor* the Revolution of 1857. But later the people of the district played a significant role during India's independence

movement. In the year 1905 Bengal was divided into two parts for administrative convenience as described by the then British rulers. The people of the district reacted sharply. Famous freedom fighter Lal Mohan Ghosh appealed to all honorary magistrates and all members of district boards, municipal commissioners and panchayats to resign and urged for a national mourning for twelve months during which the people should not participate in any public rejoicing. Maharaja Girija Nath Roy also took a leading part. The Brati Samity, Anushilan Samity established their branches at various places of the district in order to combat the British to achieve independence. Under the platform of Indian National Congress a parallel administration was set by 1919. In 1924, the police arrested the famous revolutionary Shri Purna Chandra Das. The Swaraja Party succeeded in capturing seats in Balurghat and Dinajpur Local Boards. The district went on an all out strike in 1928 in protest to the Simon Commissioner. The district saw an all out *hartals* (strike) and picketing in the year 1930 in protest of Gandhiji's arrest. During the months of June and July, 1932, under the leadership of Swarajya Party, the Santhals at Akchha in Gangarampur stopped paying rents, *chowkidari* taxes etc. As a result they came into direct clash with the police. Dinajpur continued to figure in the reports of the Government as a troubled district.

On 28th October 1933 a sudden raid was conducted by a group of young men (originally members of the Anushilan Samiti) in the Hilli railway station who was dressed in military uniform. Initial resistance of the station staff failed and those young men hoisted the national flag on the station building and ran away with a huge amount of money. Finally these revolutionaries were arrested and sentenced to rigorous imprisonment including lifelong transportation to Cellular Jail at Andaman and Nicobar Islands. Purna Chandra Das was arrested in 1942. The reaction of the people of Balurghat was noteworthy in support of the Quit India movement of 1942. On 14th September, under the leadership of local Congress leader Shri Saroj Ranjan Chatterjee, about eight thousand people marched towards Balurghat town and damaged, raided and set fire to important Government offices and buildings. The British suppressed the movement by strong hands and many people were arrested.

Administrative set up

(i) Region of the state where district is located :

DakshinDinajpur is situated on the north-eastern part of the state of West Bengal and is included in the Jalpaiguri division. Formerly it was part of West Dinajpur District and got the status of a separate district only in the year 1993.

(ii) Total number of CD Blocks or the next Administrative units after district and changes therein including jurisdictional changes during 1991-2001 :

The district has two Sub-Divisions, viz. 1) Balurghat, 2) Gangarampur. There are a total of 8 Community Development (C.D.) Blocks in the district of which Kumarganj, Tapan, Balurghat and Hili C.D. Blocks belong to Balurghat Sub-Division while Kushmandi, Banshihari, Harirampur and Gangarampur C.D. Blocks belong to Gangarampur Sub-Division.

Each C.D. Block has got one Police Station. Gangarampur (M) and Balurghat(M) is under Gangarampur and Balurghat Police Station respectively.

(iii) Total number of Towns/Villages etc. :

Total number of urban units in DakshinDinajpur is two. One is Balurghat Municipality and the other is Gangarampur Municipality. There is no Census Town in this district.

Total number of villages in the district is 1,638.

(iv) If the district is newly created, the area from which it has been carved out :

It is not a newly created district.

(v) Urban Local Bodies :

India has seen the formation of urban local bodies since the time of Indus Valley Civilization. The first Municipal Corporation was set up at erstwhile Madras (now Chennai) under a charter granted by James-II during the British rule in 1687. There are different types of urban local bodies, namely, Municipal Corporations, Municipal Councils, Municipalities, Notified Area Committees, Cantonment Boards etc. Except the Cantonment Boards all other types of municipal bodies are governed by the state municipal laws. Cantonment Boards are controlled by the Central Act called Cantonment Acts, 1924. A municipality is constituted with elected members of the inhabitants of a city or town and municipal corporations, and is created by the enactment of State Legislatures or of Parliament in case of Union Territories. The area which does not fulfil all the conditions laid down as necessary for the constitution of a municipality or it may also be created for newly developing towns or areas are known as Notified Area Committee. Except Notified Area, the councils of all these corporate bodies comprise of elected members of the public through adult franchise (citizen of 18 years and above) based on secret ballot. The notified area is governed by the state governments through a body nominated by it. Apart from overall planning, creation and maintenance of Civil Administration, the primary object of every urban local body is to provide certain civic amenities to the people. DakshinDinajpur district has 2 Municipalities as per 2011 Census.

As already stated, there are two municipalities in DakshinDinajpur district i.e. Balurghat and Gangarampur. The municipality of Balurghat was constituted by

Notifiacation No. M.1M-40/50(1) dated the 24th May, 1951 and the municipality of Gangarampur has been constituted after the DakshinDinajpur came into existence as a new district as per Notification No. 442/C-4/M.1M-5/90 dated 8th September, 1993.

Civil Administration :

The Civil Administration of the district consists of the District Magistrate as the Principal Executive with 2 Sub-divisional Officers being the sub-divisional heads and under them one Block Development Officer for each C.D. Block. Balurghat is the district head quarters. The Superintendent of Police is the head of the district police force and under him there are 2 Sub-divisional Police Officers with Inspector-in-charge/Officer-in-charge in each Police Station. At the district Head Quarter, District Judge is the head of the Judiciary. The Sub-Divisional Judicial Magistrate sits in the Courts at the sub-divisional level.

District Highlights - 2011 Census

- DakshinDinajpurDistrict comprises of 8 C.D. Blocks and 2 Statutory Towns.
- There are total 1631 villages and 5 Census Towns in the district.
- DakshinDinajpur is the least populated district in terms of total population and 0-6 years population in the state.
- - DakshinDinajpur district occupies 17th position in terms of Scheduled Caste population in the state.
- - DakshinDinajpur district occupies 8th position in terms of Scheduled Tribe population in the state.
- The percentage of urban share of population of Dakshin Dinajpur district has increased from 13.1% (2001 Census) to 14.1% (2011 Census) of total population of the respective Census.
- DakshinDinajpur district ranks 16th in decadal population growth rate among the districts with 11.5%.
- The density of population (population per square km) of the district is 755 per square km which makes its rank 14th in the State.
- The sex ratio of the district is 956 (No. of females per 1000 males) which is above the state's sex ratio (950) and it ranks 6th jointly with Birbhum and South 24 Parganas in the state but it finds its position at 10th when only rural sex ratio (952) is concerned. In case of Scheduled Caste & Scheduled Tribe population it ranks 10th (944) & 7th (995) respectively.
- In case of proportion of child population (0-6 years), Dakshin Dinajpur district ranks 11th in the state (11.2%).
- DakshinDinajpur district has experienced sharp decline in child sex ratio (CSR) from 966 in 2001 Census to 957 in 2011 Census by 9 points vis-à-vis state decline from 960 in 2001 Census to 956 in 2011 Census has been noticed.
- Literacy rate of the district is 72.8 (lower than the State average of 76.3) thereby making its rank 13th in the state.
- The Work Participation Rate has improved from 40.8 (in 2001 Census) to 41.9 (in 2011 Census) and in this case it ranks 3rd in the state.
- DakshinDinajpur district is following a decreasing trend in percentage of main workers to total workers from 76.9 in 2001 Census to 74.9 in 2011 Census similar to trend in the State where the percentage 78.1 in 2001 Census dips into 73.9 in 2011 Census. On other hand in Dakshin Dinajpur District an increasing trend is observed in percentage of marginal workers to total workers from 23.1 in 2001 Census to 25.1 in 2011 Census.
- There is only 1 (one) village having population 10,000 and above.
- Batrispara (Kumarganj C.D. Block) is the least populated village in the district with population 2.
- Patiram (Balurghat C.D. Block) is the highest populated (population 12,462) village in the district.
- Balurghat C.D. Block has the highest number of villages (307) and Hilli C.D. Block has the lowest number of villages (82) in the district.
- Dakshin Dinajpur district stands 16th in terms of area (2219.00 sq km) in the State.
- Cultivators and Agricultural labourers constitute the main work force of the district. They are 27.5% and 39.8% of the total workers respectively.
- There are 49 uninhabited villages in the district.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
