MOTIF

Vidyasagar Setu

Haora, situated at the west bank of river Hooghly is called the twin to Kolkata. High density of population, habitation of people with a wide variety of culture, language and ethnicity has given the district a clad of cosmopolitan city on municipal corporation, two municipalities, 14 blocks, 734 mouzas constitute the administrative atlas of the district. Geographically, it is located between 22.12 degree and 22.48 degree north altitude and 88.23 degree and 87.50 degree east longitude. The district is connected with Kolkata by two bridges on the river Hooghly - Rabindra Setu built in 1943 and other – Vidyasagar Setu, finest contribution to architecture and technology. Belur Math founded by Swami Vivekananda and Botanical Garden are the main places of tourist attraction. The district is connected with other parts of the country through South Eastern Railways, Eastern Railways, National Highway 11, National Highway 2 and National Highway 6. The age-old 'Mongla Hat' – the weekly rural market has nowadays become one of the most important trading centres of south-eastern region of ready-made garments. About 75.60 per cent of the total population is economically dependent on non-agricultural activities, whereas only 24.40 per cent have agro-based livelihood. Due to its positional advantage, the district had got a commendable infrastructure for industrial development and had attained a commanding height of industrial performance during the boom. But due to recessionary trend of late a bulk of capital flight caused a good deal of concern.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Deepak Ghosh, IAS., Director of Census Operation, West Bengal. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

PREFACE

The District Census Hand Book or DCHB is the most popular and widely used publication which is compiled and prepared by the Census Organization. The first ever DCHB was published in the year 1951. Thereafter Census Directorate is coming up with the publication of DCHB in every decadal Census and the present volume of DCHB of 2011 is seventh in the series.

Over the time, the contents of DCHB have been changing keeping in track with the requirement of the data user on different amenities. Since DCHB is a compilation of Census and non-Census data, the presentation is being done in two parts, viz. the Part-A and Part-B separately for each district. Part-A contains Village & Town Directory data with some important tables depicting availability of basic civic amenities such as drinking water facilities, educational facilities, post & telegraph facilities, banking facilities etc. at the C.D. Block/Village and Town level. Part-B on the other hand contains District Primary Census Abstract of Total Population including Scheduled Castes and Scheduled Tribes at the C.D. Block/Village level and for urban units like for Statutory Towns and Census Towns, it is ward level. Part-B contains data for sex wise distribution of population, age group of 0-6 years, literate and illiterate, Scheduled Castes and Scheduled Tribes, worker and non-worker data, economic category i.e. cultivator, agricultural labour, household industry worker and other worker.

Apart from the above, DCHB also furnishes a variety of essential information pertaining to the district like brief history, the information about administrative set-up, location, climate, economic resources, land use, transport, industry, trade and commerce, place of historical, archaeological and tourists importance etc. It also provides brief analysis of Census data, presentation of the data through various tables, graphs and maps has made the publication much more attractive and valuable.

Most sincere and deepest gratitude is expressed to Dr. C. Chandramouli, IAS, Registrar General and Census Commissioner, India for his constant inspiration, support and valuable suggestions. The support and assistance of Dr. R.C. Sethi, former Additional Registrar General and Shri Deepak Rastogi, present Additional Registrar General, worth special mentioning. Our earnest gratitude to them. We are also grateful to Dr. A.P. Singh, former Deputy Registrar General (Map) for providing the technical guidance in the preparation of maps and to Dr. Pratibha Kumari, Assistant Registrar General (SS) for her overall supervision. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Additional Director

(EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). Heartfelt thanks to all the Officers of the Office of the Registrar General, India who contributed their share in befitting manner.

The sincere contributions made by the District Magistrates of all districts, Municipal Commissioners of Kolkata and Haora Municipal Corporations, District Census Officers, Additional District Census Officers (Officer In-charge, Census) and innumerable Village, C.D. Block and Town level officials of all the districts of West Bengal for arranging collection of village and town directory data by the local officials from the villages/towns under their respective jurisdiction are hereby acknowledged with thankfulness.

At this Directorate level, sincere thanks are due to all those who put utmost sincerity and zeal towards the successful completion of this publication within the stipulated time. As it is not feasible to express recognitions individually, a separate page of acknowledgement is included in this publication.

Acknowledgements

- A. The Directorate of Census Operations, West Bengal respectfully acknowledges the devoted, sincere hard work rendered by about two lakhs Census Enumerators, Supervisors and Officials at the District, Block and Municipal levels without whose heroic efforts, the Census 2011 could never be undertaken.
- B. The Census Directorate, West Bengal also gratefully acknowledges the sincere and dedicated work of the following officers/officials of this Directorate associated with the preparation of this District Census Hand Book, 2011 whose hard-work, dedication and diligence has made the publication of this volume possible.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

Haora, which is also known and spelt as Howrah, offers little archaeological support in concern with the early history of the land towards the reconstruction of the pre-history or even later period is composed of the fertile deposits of Hugli or Bhagirathi river's multiple layers of riverine Alluvium. The fact that the earliest inhabitants belonged to fishing and boating communities in most places can be inferred from the low lying marshy character of the land surrounded by great rivers of Hooghly and Rupnarayan, Damodar and numerous water bodies, creeks and channels. The great Bengali fishermen castes, Kaibarttas, held the major share of population even a few decades back.

The presence of famous sea port of Eastern India, Tamralipti (Tamluk) located not so far south of this district indicates its past importance as trade route until the end of the first half of seventh century AD. In old Jaina and Buddhist scriptures and Ptolemy's Geography, Tamralipti has a very old reference and even had often been mentioned in the famous epic Mahabharata. It can be ascertained that this district was probably a part of either the territory of Suhmas or of Tamraliptas at the early eras. As mentioned by Yuan Chwang (Hiuen Tsiang) in his works this eventually became attached to a separate kingdom of Tamralipti. It was only after the decline of Tamralipti the administration was passed on to the more powerful Suhma kingdom, later called the 'Radhs'.

Going by the palm-leaf chronicles of the Jagannath temple, it is assumed that probably the Ganga Kingdom extended upto the old Damodar and it also included Uluberia sub-division. This left the Howrah sub-division still in Radh.

Owing to the suzerainty exercised by various invading Muslim rulers and opposing Hindu kings of which Chodaganga, a period of complex harmony prevailed in 500 years - from 12th to 16th century in this part of Bengal. The first Ganges king of Orissa (13th -14th century) need to be mentioned in this context. *Sultan Sulaiman Kararani* also known as *Sarkar Sulaimanabad* was the ruler for about a decade since 1568 AD for areas of the district and its adjoining place still the defeat and death of Daud Kararani in 1570 AD. After the same, the allocation of areas got spread amongst *Sarkars* of Satgaon, Sulaimanabad and Mandaranduring the reign of Akbar the Great. This is as recorded in the 1582 rent-roll of Todar Mull's. While we recall the famous Bengali poem 'Manasha Mangal Kabya' written by Bipradasa in 1495, we come across some local details of the early period of the district are available. The mention of places like Ghusuri (north-west part of Haora city), Betor (south of Shibpur) are found in this poem which are described during the voyage of the merchant Chand Saudagar, the central character, for his journey from Bardhaman to the sea. The old maps of Gastaldi and De Barros o, few more names from the place, Pesolta or Pisacoly have been also found, which has been identified with the modern village of Pichaldaha 3 kms. North-west of Fort Morington Point in southernmost tip of the Uluberia sub-division.

Venetian Cesare Federici, the first European to mention the name of places from the district in his writings, took an interesting account of Betor

on his visit to the place in 1578. From the same, we come to know that with the main centre at Satgaon, Betor was an important hub of trading activities. This helped in the expansion of trade in Bengal leading to extension of cultivation, weaving and other artisans. Originally monopolized by the Portuguese, gradually the Dutch, English and the French started sharing the trade which was. Also the rise in activities of the pirates was due to substantial increase of vessels in the river and sea.

Almost the entire Haora district was brought Bardhaman (erstwhile Burdwan) in the twenties of the 18th century under Muhammad Aminpur and a separate *zamindari* was formed. The East India Company, during mid-eighteenth century, took up the governance of the districts of Medinipur (erstwhile Midnapur), Bardhaman, Chittagong and Burdwan (in 1760) in which Haora was included. Apparently during 1666, to check the frequent raids of those river pirates, a fort on the west bank known as Tanna Fort was built by the Muslim Government. This was approximately some twenty miles by land route southward from Hugli. This fort was maintained by an agent Streynsham Master's diary under date 30th November 1676 and was shown in Valentijn's map.

In December 1686 the British under Job Charnock, after the rupture with the Viceroy Shaista Khan, retreated from Hugli, also spelt as Hooghly, triggering a long continued conflict between the two. The war got concluded in August 1687. The British was allowed to settle in a place near Uluberia. They were forbidden to go beyond Tanna Fort although. It was Charnock who recommended to build British Headquarters at Uluberia. But Bengal Council eventually changed its mind and it found that the place not really suitable for their purpose. It was a subsequent event that Charnock and his group arrived at Sutanuti for the third and final time to build their centre. Uluberia, which might have been the capital of India is now a small municipal town following the further chain of events.

It is very important to mention here that the foundation of Kolkata (erstwhile Calcutta) influenced the growth of the district Haora on the other bank. Over the passage of time Betor declined as most of the trade was transferred to Kolkata across the river. The whole of west bank came under possession of the Marathas including the Tanna Fort, after the removal of Ali Vardi Khan by the aggression of Maratha Cavalry under Bhaskar Pandit. On the basis of the imperial *sanad* (decree) dated 11th October 1760 Mirkasim assigned to the East India Company, for military charges, the districts Bardhaman, Medinipur and Chittagong. This was few years after the victory of Plassey (Palashi) by the English. Haora being included in Bardhaman, naturally became a British territory. The district of Hugli was created in 1795 and it included Haora which became independent from Hugli from 1938 onward. It is found from the 1948 Government Notification that 14 districts constituted the province of West Bengal duly mentioning the district Haora as a separate entity. Finally in the year 1963, Haora was attached to Presidency Division from Burdwan Division.

Naming :

There exist at large various explanations of the derivation of the name 'Haora'.

It is mentioned in the writings of O'Malley and Chakraborty's Howrah District Gazetteer, 1909 that the name came from 'Haborh' a form of 'Haorh' meaning low water logged land in eastern Bengal though the term is not really common in western Bengal.

J. Banerjee, Secretary, Howrah Municipality (1955) in his Howrah Civic Companion strongly commented that the name has its generation from 'Harhirha', which has its origins in words 'Harhoa' or 'Hoyarh', alternatively 'Haorh' or 'Hayar', else 'Hayar' or 'Sayar' – primarily meaning sea or ocean. It is believed in pre-historic terms that the region was near the sea coast. Again the word 'Haborh' in Oriya language means depression, canal, creek or water logged areas - and that the area was once under the administrative control of Oriya kings was more or less confirmed.

Going by the literary works of Shri Ashit Kumar Bandyopadhyay namely Haora Saharer Itibritya, 1994 we come to know that the area was called 'Haborh' by the general people during early 19th century to early 20th century from which the present name has derived. Again opinion exists that the name of the district was derived from Harhiyara or Harhyarha and that the suffix 'arha' meant the high embankment of any water body in local dialect. But mostly these are thought largely based on hearsay and very difficult to be proved in view of lack of supporting documents.

The mention of eminent archaeologist and folklorist Tarapada Santra comes in this context. He opined that there are many village names ending with 'arha' found all over the 'Rarh' region of West Bengal where 'arha' denotes dwellings/houses. A place of dwelling (arha) of the Hari community (surnamed 'Harrah') was called Harhirha and gradually transformed to Hairhiya-Hairhya-Haorha. According to a group of village name experts, the name was possibly linked to the common plant 'Harirha'. This was mentioned by poet Mukundaram in his works.

In this given backdrop, the name was officially printed as 'Howrah' in 'The Calcutta Gazette' dated 1st March 1843 perhaps for the first time. It was on 15th August 1854 Tuesday the declaration of 'Howrah' as an important terminal railway station of the erstwhile East India Railway came into being. It is revealed from records that Census of India adopted the spelling 'Haora' since 1991. This spelling has been adopted and printed in the maps published by the Survey of India, the Government agency in-charge maintaining correctness of the maps in India.

Geology :

The geological predominance of the district as a whole is that it is a part of delta proper under the Lower Ganga Plain region. It occupies the western most portion of the great Ganga Delta as per reference of works by Singh in the year 2004. Its origin is a recent phenomena dating back to middle Miocene period when the rivers from the Himalayas filled the 'Sag' or 'foredeep' caused by the Himalayan mountain building process. The pre-existing narrow neck of the Peninsular (Gondwana) landmass resulting in the formation of the Rajmahal-Garo gap ultimately diverts the waters of the ancient Siwalik river southward into the Bay of Bengal. As referenced in the works of Wadia, 1939 & Krishnan, 1949, the gap which was gradually filled by sediments like sands, silts and clays were associated with occasional gravel beds and lenses of peaty organic matter. The western portion of the

district drained by Rupnarayan and Damodar, two major rivers from Chhotanagpur, as it appears, has an older origin than the eastern tract drained by more recently by the Ganga and Saraswati. Existence of older alluvium of Damodar in some parts and relatively higher elevation of the western tract also support the same belief as found from the works of Chatterjee, A.B. 1967.

It so happened that the formation of the Garo-Rajmahal gap and subsequent deposition of huge recent (late Pliocene) alluvium caused successive southward march of the delta plains. "This 'accident' did aggravate the actions of the tributaries coming from the Himalayas and the physical landscape was reshaped to some extent owing to the instability introduced in the river regimes. This rather major event was sufficient to disturb the isostatic equilibrium of the earth surface locally and the result was recurring subsidence, alleviations, river diversions, shaping and re-shaping of the deltaic and other consequent landscapes of the Lower Ganga Plain in general and of the southern part in particular." (Singh, R.L. 2004) It can be well understood that the feature of southward development feature of the delta region and resulting recession of the sea was also supported by various observations as well. Betor, is an old locality south of Howrah Railway Station, shown in early European maps in the southern part of an island generally means 'shoreless'. The oldest inhabitants of the western districts of Bengal, the older generation of the Santals, believe in existence of a sea near their homeland as referred by Chatterjee A.B. in 1967.

More recent findings taking extracts from the survey by the Indo-Stanvac Petroleum Project reveals that the Bengal Basin is underlain by a geosynclinal trough and that there have been many marine transgressions and regressions. Some interesting findings state that thickness of sediments range between 3,529 meter at Jalangi (near Murshidabad) to 4,041 meter at Port Canning (South Twenty Four Parganas) resting on a basement which lies a few thousand metres below the surface. The basalt strata roughly corresponding to the Rajmahal gap and probably of the Jurassic age (Banerjee A.M. 1972) forms the basement of this region.

It was known that borings made around Kolkata in 1835-40 founded beds of peat and wood at a depth of 30 feet below the surface i.e. about 10 feet below the sea level. The main source of these woods are assumed to be remains of 'Sundari' (*Heritiera littoralis*), a mangrove spiky found in the muddy saline flats of Sunderbans. Some other sample resembles a climbing plant *Briedelia*. Also it is pertinent to mention that considerable depths bones of terrestrial mammals and fluviatile reptiles were found, but the only piece of shell of fresh water origin, were noticed at 380 feet. Pebble beds were found at depths of 175-195 feet, 200-325 feet and again throughout the lower 85 feet of the boreholes.

Administrative set up

(i) Region of the state where district is located :

The Haora district lies between 22°48' North and 22°12' North Latitudes and between 88°23' East and 87°50' East Longitudes. The district is bounded by the Hooghly River and the North Twenty Four Parganas and South Twenty Four Parganas districts on the east, on the north by the Hooghly district (Arambagh and Srirampur Sub-divisions), and on the south by Purba Medinipur district (Tamluk Sub-division). On the west Haora district is bordered by the Ghatal Sub-division of Paschim Medinipur district, and partly by the Arambagh Sub-division of Hooghly district to the north-west, and the Tamluk Sub-division of Purba Medinipur district to the south-west. Boundaries of the district are naturally determined by Rupnarayan River on west and south-west, and by Bhagirathi-Hooghly River on east and south-east side. On north side, the boundary is an artificial one except for Bally Canal on north-east and Damodar River on north-west.

(ii) Total number of CD Blocks or the next Administrative units after district and changes therein including jurisdictional changes during 2001-2011 :

The district has 2 (two) Sub-divisions, viz. Haora Sadar Sub-division and Uluberia Sub-division. There are 14 Community Development (C.D.) Blocks, one Municipal Corporation and 2 Municipalities in the district. Haora Sadar Sub-division has got 5 C.D. Blocks namely Bally-Jagacha, Domjur, Panchla, Sankrail and Jagatballavpur. Uluberia Sub-division has got 9 C.D. Blocks namely Amta-I, Amta-II, Bagnan-I, Bagnan-II, Uluberia-I, Uluberia-II, Shyampur-I, Shyampur-II and Udaynarayanpur.

There are 19 Police Stations (P.S.) in the district. Under Haora Sadar Sub-division 12 P.S. are situated viz. Bally, Liluah, Domjur, Jagacha, Sankrail, Panchla, Jagatballavpur, Howrah, Golabari, Malipanchghara, Shibpur and Bantra. Under Uluberia Sub-division 7 P.S. are situated viz. Uluberia, Bauria, Amta, Joypur, Udaynarayanpur, Bagnan and Shyampur.

(iii) Total number of Towns/Villages etc. :

As per 2011 Census, there are 138 urban units in Haora district. There is 1 (one) Municipal Corporation namely Howrah Municipal Corporation and 2 nos. of Municipalities in the district viz. Uluberia Municipality and Bally Municipality. The remaining are classified as Census Towns (CTs), numbering 135 viz. Ghoraberia (CT), Paschim Gazipur (CT), Pashchim Khalna (CT), Kanpur (CT), Basantapur (CT), Deora (CT), Amta (CT), Chandrapur (CT), Bhandar Gachha (CT), Udang (CT), Jagatballavpur (CT), Kamalapur (CT), Bankul (CT), Mansinhapur (CT), Bargachhia (CT), Dakshin Santoshpur (CT), Patihal (CT), Anantabati (CT), Chong Ghurali (CT), Ekabbarpur (CT), Uttar Jhapardaha (CT), Dafarpur (CT), Baluhati (CT), Domjur (CT), Dakshin Jhapardaha (CT), Rudrapur (CT), Khantora (CT), Bhandardaha (CT), Makardaha (CT), Kantlia (CT), Tentulkuli (CT), Salap (CT), Bankra (CT), Nibra (CT), Ankurhati (CT), Bipra Noapara (CT), Begari (CT), Kesabpur (CT), Oadipur (CT), Natibpur (CT), Kalara (CT), Baniara (CT), Mahiari (CT), Jagadishpur (CT), Jaypur Bil (CT), Bally (CT), Chakapara (CT), Chamrail (CT), Eksara (CT), Khalia (CT), Dhulagari (CT), Mirjapur (CT), Argari (CT), Andul (CT), Dhuiya (CT), Kamranga (CT), Jhorhat (CT), Masila

(CT), Kendua (CT), Nabghara (CT), Ramchandrapur (CT), Hatgachha (CT), Panchpara (CT), Podara (CT), Banupur (CT), Sankrail (CT), Sankrailjala (CT), Osmanpur (CT), Manikpur (CT), Sarenga (CT), Nalpur (CT), Raghudebbati (CT), Kuldanga (CT), Gondalpara (CT), Khasjalalsi (CT), Deulpur (CT), Kusadanga (CT), Gangadharpur (CT), Jujarsaha (CT), Shuvararah (CT), Mallik Bagan (CT), Jaynagar (CT), Jala Kendua (CT), Beldubi (CT), Paniara (CT), Bikihakola (CT), Gabberia (CT), Dhunki (CT), Ban Harishpur (CT), Paschim Panchla (CT), Panchla (CT), Sahapur (CT), Baniban Jagadishpur (CT), Kantaberia (CT), Tehatta (CT), Basudebpur (CT), Raghudebpur (CT), Santoshpur (CT), Ghosal Chak (CT), Balarampota (CT), Khalisani (CT), Brindabanpur (CT), Uttar Pirpur (CT), Baniban (CT), Mahishrekha (CT), Chandipur (CT), Kaijuri (CT), Alipukur (CT), Dhulasimla (CT), Hirapur (CT), Deulgram (CT), Karia (CT), Paschim Bainan (CT), Kalyanpur (CT), Khajutti (CT), Bangalpur (CT), Chandrapur (CT), Khadinan (CT), Bagnan (CT), Khador (CT), Naupala (CT), Barunda (CT), Kulitapara (CT), Kanaipur (CT), Batul (CT), Mugkalyan (CT), Halyan (CT), Shyampur (CT), Dinga Kholā (CT), Radhapur (CT), Jallabad (CT), Naul (CT), Shashati (CT), Dihimandalghat (CT).

It has been observed that as maximum number of villages have been turned in Census Towns with their eligible criteria in West Bengal due to rapid urbanisation. Due to rapid change in the occupational pattern in the C.D. Block during last 10 years excepting 2 villages viz. Baigachhi and Debirpara, all the villages under the administrative unit Bally Jagacha C.D. Block has turned into Census Town which is a major observation.

A total of 650 villages are distributed in 14 C.D. Blocks of the district, out of which are 644 inhabited villages and 6 uninhabited villages.

(iv) If the district is newly created, the area from which it has been carved out :

It is not a newly created district.

(v) Urban Local Bodies :

India has seen the formation of urban local bodies since the time of Indus Valley Civilization. The first Municipal Corporation was set up at erstwhile Madras (now Chennai) under a charter granted by James-II during the British rule in 1687. There are different types of urban local bodies, namely, Municipal Corporations, Municipal Councils, Municipalities, Notified Area Committees, Cantonment Boards etc. Except the Cantonment Boards all other types of municipal bodies are governed by the State Municipal Laws. Cantonment Boards are controlled by the Central Act called Cantonment Acts, 1924. A municipality is constituted with elected members of the inhabitants of a city or town and municipal corporations, and is created by the enactment of State Legislatures or of Parliament in case of Union Territories. The area which does not fulfil all the conditions laid down as necessary for the constitution of a municipality or it may also be created for newly developing towns or areas are known as Notified Area Committee. Except Notified Area, the councils of all these corporate bodies comprise of elected members of the public through adult franchise (citizen of 18 years and above) based on secret ballot. The Notified Area is governed by the State Government through a body nominated by the same. Apart from overall

planning, creation and maintenance of Civil Administration, the primary object of every urban local body is to provide certain civic amenities to the people.

There is one Municipal Corporation namely Howrah Municipal Corporation (HMC) and 2 municipalities namely Bally Municipality and Uluberia Municipality. The oldest municipality of the district is Howrah Municipality, established on 1862 which was upgraded as Howrah Municipal Corporation in 1965 as per West Bengal Act XVII which falls under Haora Sadar Sub-division. Afterwards another two municipalities viz. Bally Municipality was formed in the year 1885 which falls under Haora Sadar Sub-division followed by Uluberia Municipality that was formed in the year 1982 and falls under Uluberia Sub-division.

Civil Administration :

The Civil Administration of the district is consisted of District Magistrate as the Principal Executive of the district along with 2 Sub-Divisional Officers (S.D.O.s) being Sub-divisional heads of Haora Sadar and Uluberia Sub-divisions. The C.D. Blocks are headed by the Block Development Officers (B.D.O.s) under the control of the S.D.O.s. Under the Police Administration, Superintendent of Police is the head of the district under which 2 Sub-divisional Police Officers with Inspector In-Charges or Officer-In-Charges for 19 Police Stations of the district are in function. From the Judicial point of view, District Judge is the head of the District Judiciary and Sub-Divisional Judicial Magistrates are the head at the Sub-divisional levels.

DISTRICT HIGHLIGHTS

- Haora District comprises of 14 C.D. Blocks and 3 Statutory Towns.
- There are total 650 Villages and 135 Census Towns in the District.
- Haora District ranks 9th in terms of Total Population and it ranks 10th in terms of Child (0-6 year's) Population in the State.
- Haora District occupies 15th position in terms of Scheduled Caste Population in the State.
- Haora District occupies 18th position in terms of Scheduled Tribe Population in the State.
- The percentage of urban share of Population of Haora District has expanded from 50.4% (2001 Census) to 63.4% (2011 Census) of total Population of respective Census.
- Haora District ranks 11th in decadal Population Growth Rate among the Districts with 13.5%.
- The density of Population (Population per square km) of the District is 3,306 per square km which makes its rank 2nd in the State.
- The Sex Ratio of the District is 939 (No. of females per 1000 males) which is much lower than the State's Sex Ratio (950) and it ranks 13th in the State along with Uttar Dinajpur District but it improves its rank (9th) when only Rural Sex Ratio (953) is considered. In case of Scheduled Caste & Scheduled Tribe Population it ranks 5th (959) & 15th (945) respectively.
- In case of proportion of Child Population (0-6 years), Haora District ranks 12th along with Bardhaman in the State (10.8%).
- Haora District has experienced increment in Child Sex Ratio (CSR) from 956 in 2001 Census to 962 in 2011 Census whereas for the State a decline from 960 in 2001 Census to 956 in 2011 Census has been noticed.
- Literacy Rate of the District is 83.3% (higher than the State average of 76.3%) thereby making its rank 4th in the State.
- The Work Participation Rate has risen from 33.7 (in 2001 Census) to 37.5 (in 2011 Census) and in this case it ranks 12th along with Purba Medinipur District in the State.
- In Haora District the percentage of Main Workers to Total Workers has dropped from 85.1 in 2001 Census to 82.2 in 2011 Census similar to the State where the percentage 78.1 in 2001 Census dips into 73.9 in 2011 Census.
- There are 2 (two) Villages having Population 10,000 and above.

- KazirChak (Amta-I C.D. Block) is the least populated Village in the District with Population 27.
- Gobindapur (Jagatballavpur C.D. Block) is the most populated (Population 11,665) Village in the District.
- Udaynarayanpur C.D. Block has the highest number of Villages (75) and Bally Jagachha C.D. Block has the lowest number of Villages (2) in the District.
- HaoraDistrict stands 17th in terms of area (1467.00 sq km) in the State.
- Other Workers constitute the main work force i.e. 69.2 percent of Total Workers.
- There are 6 uninhabited Villages in the District.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

District Primary Census Abstract
