MOTIF

KOCH BIHAR PALACE

The famous palace of district Koch Bihar bears the reminiscences of the golden past of the Princely State of Koch Bihar. From 1510 CE till 1949 Koch Bihar State was ruled by the Kings of famous Koch Bihar Dynasty. The Koch Bihar Kingdom reached the zenith during the reign of King Nara Narayan and grew to the fullest. During British rule the status was that of a Feudatory Princely State. Amongst the diverse reminiscences of the golden past through various archaeological monuments of Koch Bihar, the palace at Koch Bihar town with its beautiful architecture takes back to the heydays. The palace is admired by the visitors as well as the art connoisseurs across all sections. Built in nineteenth century European style, the large building, vast garden and ornate architecture is still one of the main points of attraction in the district.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non-Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1stphase of the Census i.e. House Listing and Housing Census. The non-Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz. education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts : Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/ PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are : Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts

driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz. (i) Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Dipak Ghosh, IAS, Director of Census Operations, West Bengal. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C. Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI. Shri A.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Addl. Director (EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C. Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi

PREFACE

The District Census Hand Book or DCHB is the most popular and widely used publication which is compiled and prepared by the Census Organization. The first ever DCHB was published in the year 1951. Thereafter Census Directorate is coming up with the publication of DCHB in every decadal Census and the present volume of DCHB of 2011 is seventh in the series.

Over the time, the contents of DCHB have been changing keeping in track with the requirement of the data user on different amenities. Since DCHB is a compilation of Census and non-Census data, the presentation is being done in two parts, viz. the Part-A and Part-B separately for each district. Part-A contains Village & Town Directory data with some important tables depicting availability of basic civic amenities such as drinking water facilities, educational facilities, post & telegraph facilities, banking facilities etc. at the C.D. Block/Village and Town level. Part-B on the other hand contains District Primary Census Abstract of Total Population including Scheduled Castes and Scheduled Tribes at the C.D. Block/Village level and ward level for urban units like for Statutory Towns and Census Towns. Part-B contains data for sex wise distribution of population, age group of 0-6 years, literate and illiterate, Scheduled Castes and Scheduled Tribes, worker and non-worker data, economic category i.e. cultivator, agricultural labour, household industry worker and other worker.

Apart from the above, DCHB also furnishes a variety of essential information pertaining to the district like brief history, administrative set-up, location, climate, economic resources, land use, transport, industry, trade and commerce, place of historical, archaeological and tourists importance etc. It also provides brief analysis of Census data, presentation of the data through various tables, graphs and maps that made the publication much more attractive and valuable.

While preparation of DCHBs of Census of India, 2011 our most sincere and deepest gratitude is expressed to Shri Sailesh, IAS, Registrar General and Census Commissioner, India for his constant inspiration, support and valuable suggestions. Our sincere and deepest thanks and gratitude also goes to Dr. C. Chandramouli, IAS, former Registrar General and Census Commissioner, India. Our thanks also go to Shri Kameswar Ojha, Additional Registrar General, India. The support and assistance of Dr. R.C. Sethi and Shri Deepak Rastogi, former Additional Registrar Generals, India worth special mentioning. We are also grateful to Dr. A.P. Singh and Dr. R. Joseph, former Deputy Registrar Generals (Map) for providing the technical guidance in the preparation of maps and to Dr. Pratibha Kumari, Deputy Registrar General (SS) for her overall supervision. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Additional Director (EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the computer programming for generation of Village Directory and Town Directory data including various analytical inset tables as well as Primary Census Abstract (PCA). Heartfelt thanks to all the Officers of the Office of the Registrar General, India who contributed their share in befitting manner.

The sincere contributions made by the District Magistrates of all districts, Municipal Commissioners of Kolkata and Haora Municipal Corporations, District Census Officers, Additional District Census Officers (Officer In-charge, Census) and the Block Development Officers (BDOs) are worth mentioning. The contribution of officials of innumerable Villages, C.D. Blocks and Towns of all the districts of West Bengal are hereby greatly acknowledged for their sincere efforts in collecting the data of villages and towns under their jurisdiction.

At this Directorate level, sincere thanks are due to all those who put utmost sincerity and zeal towards the successful completion of this publication within the stipulated time. As it is not feasible to express recognitions individually, a separate page of acknowledgement is included in this publication.

Kolkata, the 25th day of July, 2016 Directorate of Census Operations, West Bengal

Acknowledgements

A. The Directorate of Census Operations, West Bengal respectfully acknowledges the devoted, sincere hard work rendered by about two lakhs Census Enumerators, Supervisors and Officials at the District, Block and Municipal levels without whose heroic efforts, the Census 2011 could never be undertaken.

B. The Census Directorate, West Bengal also gratefully acknowledges the sincere and dedicated work of the following officers/officials of this Directorate associated with the preparation of this District Census Hand Book, 2011 whose hard-work, dedication and diligence has made the publication of this volume possible.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of Census and non-Census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both Census and non-Census data of urban as well as rural areas for each district. The Census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non-Census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 Census DCHB provided a descriptive account of the district, administrative statistics, Census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (C.D. Block) level presentation of village directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the District :

The Koch Bihar District (also known as Coochbehar or Cooch Behar) lies in the North Eastern part of the State of West Bengal. Geographically, Koch Bihar district is surrounded by district Jalpaiguri to the North and West, State of Assam (Kokrajhar and Dhubri districts) to the East and International Boundary with Bangladesh towards South, South-East and South-West. The location of the district is spread over from 26^0 32'20'' N to 25^0 57'40'' N Latitude and 89° 54' 35"E to 88° 47' 40"E Longitude.

The district Koch Bihar in its present statute was formed by an agreement dated 28th August, 1948 declaring cessation of full and extensive authority, transfer of jurisdiction and power from the previous princely rulers of feudatory Cooch Behar State to the Dominion of India. The Transfer of administration from the monarchal rulers to that of Indian Union took place in 12th September, 1949 and few months later in 19th January, 1950 the present district Koch Bihar of the State of West Bengal was officially formed.

Ancient History of Koch Bihar

The ancient history of the Koch Bihar is a pleasing amalgamation of proven history with the mythological stories and hyperbolic account of historical events. The present day Koch Bihar district has remained a part of the ancient Kingdom of *Pragjyotish*, which has been mentioned severally in texts of the *Ramayana*, *Mahabharata*, *Hari-Vansha* and many Puranas like *Brahmanda-Purana*, *Bayu-Purana* or *Matsya-Purana*. Although the boundary of the kingdom varied from time to time, the area was alternatively formed part of the territories known as *Lauhitya*, *Kamrupa* or *Kamata*. And thus the early history of Koch Bihar is compounded in the history of *Pragjyotish*, *Kamrupa*, *Kamata* or parts of present day West Bengal, Assam and northern Bangladesh.

The etymology of the term 'Koch Bihar' can be generally drawn as the abode or 'Bihar' of the 'Koch' people. There are, however, different schools of thoughts. One mythological reference is that Kshatriyas, being afraid of the mass killings of Parasurama, took shelter in the 'Koch' or 'Lap' of mother Goddess Bhagabati here. Another story states that the term 'Koch' can be described as the shrunken condition (*Sankoch*) of Kshatriyas. Alternatively the name 'Koch' is taken from name of the river Sankosh (also known as Gadadhar and Svarnakosha) flowing through the region and the 'Koch Bihar' comes from place of residence or play-ground of the 'Koch' people.

As mentioned in the great epic *Mahabharata*, almost the entire area of present day Northern Bengal and Assam was included in Pragjyotish and Koch Bihar was situated in that territory, being ruled by jubilant King Bhagadatta, son of Narakasura. During the great war of Kurukhsetra, Bhagadatta fought valiantly for the Kauravas leading an army of *Kirata*s and *Cina*s and was killed in the hand of Arjuna. Bhagadatta's descendant Vanamala, who ruled around First Century CE, first bore the title 'Barman' which has been extensive used by the Kings of Kochbihar till a very later date.

Historical evidence of a powerful kingdom is found in the writings of famous Chinese traveller Hiuen Tsang (Xuanzang) when he visited Kamarupa on around 639 CE during the rule of King Bhaskar Barman, presumably, of the same lineage of King Bhagadatta. The geographical and historical descriptions found in his writings are also corroborated in the contemporary writing of *Yogini Tantra*. In the 10th Century manuscript of *Kalika Purana,* the evidences of a country to the north and east of present day Uttar Dinajpur district named Pragjyotish can be found. Other notable mentions of this region can be found in 4th Century inscriptions of Samudragupta and 7th Century inscriptions made by King Bhaskar Varma of Karna Suvarna of present day Bengal.

From the historical evidences retrieved so far, it has ascertained that during the 1st Century CE Kamrupa, including present day Koch Bihar was ruled by King Deveswar who was a *Sudra* by caste and was a worshipper of Devi Kamakhya, the other form of Devi

Durga. Another notable king in that dynasty was King Nagasankara who ruled around 378 CE. He was engaged in conflict with great Gupta King Samudragupta. Evidences of these confrontations are found in the famous *Allahabad Pillar inscriptions*. He built the temple of Nagasankara. During Sixth Century CE, portions of the Kamrupa dynasty, up to the bank of river Lauhitya was won by King Shashanka of Gauda of Bengal. However, following the death of mighty King Shashanka, the Kamrupa was won back by King Bhaskarbarma, the successor of the ancient Dynasty of King Bhagadatta of Pragjyotish. After winning back the lost kingdom, he made an alliance with the Tibetan kings and is said to have extended his domain up to the interiors of northern Bengal. During the rule Devpala, the king of Buddhist Pala Dynasty of Bengal, Kamrupa (Pragjyotish) came under the dominion of the Palas at around Ninth Century CE Subsequent to the fall of the Buddhist Palas, the kingdom of Kamrupa was ruled by local chieftains from the *Koch* and *Mech* tribes, who were Hindu by religion. Kshatriya Monk named Jitari and *Raja* Jalpesh of present day district Jalpaiguri are two important names during the period.

Later on, contemporaneous to the Sena Dynasty of Gauda, another clan of Hindu kings emerged and ruled Pragjyotish (Kamrupa), who also used the suffix *Pala* to their names (Pala Dynasty of Kamrupa). They are also said share the lineage of Bhagadatta and Narakasura and were worshippers of Shiva, like their ancestors of *Kirat* tribes. However, till date, no direct linkages have been established between the Buddhist Palas' of Bengal (Gauda) to that Hindu Palas' of Kamrup. Before the invasion of the Muslim rulers at the end of Twelfth Century CE, Kamrupa was conquered by and regained several times from Hindu Sena Dynasty of Gauda the Hindu Palas of Kamrupa.

Medieval History of Koch Bihar – Khen Dynasty :

After the fall of Pala Kings of Kamrupa and Sena dynasty from Gauda, Koch Bihar was ruled by many tribal chieftains from the Koch, Mech, Garo, Kachari and Bhot tribes. However, the exact chronologies of the rulers are yet to be ascertained. During the advent of the medieval period, an independent tribal monarchy under the kingship of Kanta Nath alias Niladhwaja emerged in the modern day Koch Bihar and Kamrupa, which, can easily be identified as the formation of Koch Bihar in its more contemporaneous prominence. Although King Niladhwaja worshipped the Vedic gods especially, Devi Kamakhya, being from Khen Tribe, his clan is known as Khen Dynasty. He built his Capital at Kamatapur on the West Bank of river Dharla, which is situated at about 20 km. from modern day Cooch Behar town. He and his successors, Chakradhwaja and Nilambar extended their kingdom and their territories include whole of modern day Koch Bihar, greater part of districts Goalpara and Kamrup of modern day Assam, Rangpur district of present day Bangladesh, portions of districts Jalpaiguri and Uttar Dinajpur of West Bengal. They used the titles *Kamateswara* (the lord of Kamatapur) and during the reign built fortified cities and many citadels across their kingdom to protect from the Muslim rulers of Gauda and Bengal. Well-built Roads made of burnt bricks for communication across the kingdom and erection of many temples also symbolises the welfare measures taken up by the rulers from Khen Dynasty. Temple of Devi Kamateswari was built by King Niladhwaja himself followed by famous temples of Shiva at Baneswar (in present day Koch Bihar), Jalpeswar (Jalpesh temple in present day Jalpaiguri) and Koteswar (in present day Rangpur of Bangladesh) by his grandson Nilambar. The modern day *Gosanimari Rajpat* are also said to be built during this period. The term *Rajpat* symbolises kingdom in Bengali. This place, named after Goddess Gosani Devi, is bound by two rivers Dharla to the east and Singimari to the west, played a significant role in the emergence, rule and decline of the kingdoms. Archaeological evidences of massive brick built walls, brick lined huge wells, water tank etc. has been found at Gosanimari. Terracotta figurines of animals and human beings, plaque, old coins etc. have also been excavated at Gosanimari, which is located at modern day Dinhata. The dynasty weakened after King Nilambara and ultimately around 1460 CE, the Hindu kingdom was completely overthrown by the Muslim Pathan ruler Hussain Shah from Bengal (Gauda) and for some time, was ruled by *Baro Bhuiyan* chieftains. As stated by Dr. Buchanon Hamilton, many temples and

sculptors built by the Khen Kings were completely destroyed by the iconoclast rulers of this period and later.

Kings of Koch Dynasty in Koch Bihar :

Contemporaneous to the Muslim rule in Koch Bihar, Ahom Dynasty ruled by the kings originated from China, emerged in the eastern portions of the present day Assam. Amidst the conflict between the Muslims of Gauda and Ahom Dynasty of Assam, the rise of Koch Kings of Koch Bihar took place. The earliest traces of the later benevolent rulers of Koch Dynasty can be traced in the rise of the local chieftain, Koch Hajo, who seized the territory from the one of the *Bhuiyas* of the *Baro Bhuyian* and the formed an alliance with the Mech leader Haridas alias Hariya through marriage of his daughters Jira and Hira. The first notable historical figures of Koch Bihar Dynasty named Chandan, Madan, Visu (Viswa Singha) and Sisu (Siswa Singha) were born out of this marriage.

King Chandan ruled Koch Bihar from 1510 CE and can be considered as the first enthroned King of modern Koch Bihar Dynasty. After his rule of 13 years, King Viswa Singha became the King in 1522 CE with the royal title 'Kamateswara' following the Vedic customs and from his rules the systematic administration and regular state organisation activities were initiated in Koch Bihar. According to mythological account, King Viswa Singha was begotten by his mother from Mahadeva (Shiva). His brother, Siswa Singha assumed the title '*Raikat*' implying head of the family and hereditary Chief Minister to the kingdom. King Viswa Singha appointed a group of Ministers and conducted the first Census of the Kingdom counting the number of able bodied males capable of War in his kingdom. He built a structured army plenteous with elephants, horses and buffalos and conquered the territories of Saumarapith, Bijni, Bidyagram, Vijoyapur, part of Bhutan upto the foot of the hills and some portions of Gauda Bengal.

After Viswa Singha, his son Nara Narayan ascended the throne of Koch Bihar in 1555 and ruled for more than 30 years. He introduced the *Narayani Coins* in his dominion in gold and silver, bearing the name of Shiva and the king on the two sides, written in Sanskrit. Some of these coins in silver have been discovered during the excavation of Gosanimari Rajpat mound in 1998-2000 by the Archaeological Survey of India and still acts as one of the most important historical documents of that time. He also was a valiant ruler and Koch Kingdom, undoubtedly, took its largest extent during his reign. King Nara Narayan annexed the territories of Kachhar, Manipur, Jaintia Hills, part of Tripura, Kairam, Dimuria and part of modern day Sylhet in Bangladesh and where the kings had to make regular annual pecuniary tribute to Nara Narayan beside gaining full control over almost whole of North Bengal, North Eastern States and portions of Bhutan. His brother, Sukladhwaj alias Chilarai became instrumental for his wins. Later on, Sukladhwaj became the ruler of the eastern portions of the country (modern day Assam) and Nara Narayan continued to reign in other parts. In addition to the expansion of the territory of the kingdom, the academic aspects and discussion of classical Sanskrit also reached its zenith during King Nara Narayan's reign.

Succeeding to Nara Narayan's death in 1587, King Lakshminarayan ruled Koch Bihar who was contemporaneous to Mughal Emperor Akbar and made an alliance with. This, in turn, introduced Mughal to Koch Bihar and acted as a shield against the Pathan rulers of Gauda Bengal. The Vaishnavism preached by Sri Chaitanya Mahaprabhu is also said to be spread across Koch Bihar during his time. After Lakshminarayan, Biranarayan became King from 1621 to 1625 CE, succeeded by King Prana Narayan (1625-1665 CE). During Prana Narayan's rule, the old Shiva Temples and Gosani Devi temple at Gosanimari were re-erected. After him, Koch Bihar was ruled by King Modanarayan (1665-1680 CE) and Vasudeva Narayan (1680-1682 CE) and after fierce battle for throne among the successors of King Prana Narayan and Modanarayan, Mahendra Narayan became the King of Koch Bihar on 1682 CE at the age of only Five years. After Mahendra Narayan, Rupa Narayan became the King of Koch Bihar and reigned till 1714 CE One of the most important event during the King Rupa Narayan was the war with the *Fauzdar* of

Rangpur (in present day Bangladesh), who was appointed by the Mughals. Following the conclusion of the fight, a treaty was signed between the two parties in 1713 CE and few areas were exchanged including conquer of *Chaklas* named Boda, Patgram and Purbabhag by kingdom of Koch Bihar. These handover of jurisdiction including the *Chaklas*, formed the base for formation of *Chhitmahals* two centuries past, between Union of India and Republic of Bangladesh.

During the rule of later kings of the Koch Bihar Dynasty, the jurisdiction of the Koch Bihar kingdom was reduced almost to the boundary of modern day Koch Bihar district.

After Rupa Narayan the next king was Upendra Narayan, who ruled Koch Bihar till 1763 CE and followed by Devendra Narayan who ascended the throne at a very early age and was murdered after a reign of only two years. The most important event during this period was the *Transfer of Dewani* of the Bengal, Bihar and Orissa to the British East India Company by the Emperor of Delhi, King Shah Alam with right to realisation of revenue from the three provinces. Throughout the eighteenth century, Koch Kings suffered from aggressive extension of Bhutanese kingdom more towards the plains and by the end of the century, a large portion of the kingdom came virtually under the Bhutanese dominion. As a result, Koch Kings sought political asylum from the British and consequentially, an important treaty was signed between the Koch Bihar kingdom and British East India Company during the rule of King Dharendra Narayan on 5th April 1773, stating that the King would come under subjection of East India Company and would agree to a good proportion of annual revenue to the British. From this period, the princely state of Koch Bihar became a feudatory state under the subjugation of the British. Consequential to the Treaty, a Governor General's Agent was appointed in 1822 upon whom the representation of the Koch Bihar was vested upon. Although the *Narayani Coins* remained in circulation during this time, the Public Officers were appointed by the British and gradually, the collection of Excise, the Land Revenue, appointment of Police and formation of Military, matters relating to *zamindaris* were started to be governed by the British.

In the nineteenth century, during the feudatory rule under British dominion, one important king of Koch Bihar was King Nripendra Narayan, who ascended the throne in 1863 as an infant and upon attaining adulthood, married Sunity Devi, a notable queen of the dynasty and daughter of famous *Brahma Dharma* protagonist Brahmananda Keshab Chandra Sen. She was a benefactor of women's education, established schools and colleges in Koch Bihar and introduced scholarships for the pupils. The modern day planned city of Cooch Behar Town took its shape during King Nripendra Narayan including construction of well-planned roads and different administrative buildings. The modern day Koch Bihar Palace was also constructed during his rule. Nripendra Narayan was succeeded by Kings Rajarajendra Narayan (1911-1913 CE) and Jitendra Narayan (1913-1921 CE). King Jitendra Narayan's son Jagaddipendra Narayan was the last ruling Maharaja of Koch Bihar. Jitendra Narayan's daughter Princess Gayatri Devi became the Maharani of Jaipur through marriage with Maharaja Sawai Man Singh II of Jaipur. Gayatri Devi was one of the most illustrious princesses of India and was a very successful politician. The transfer of territorial administration of the feudatory state of Koch Bihar to that of the Union Govt. of India was conducted by King Jagaddipendra Narayan.

***Chhit-Mahals* of Koch Bihar :**

Chhit-Mahals of Koch Bihar are a quintessential example of existence of 'Enclaves' existing between two independent countries, India and Bangladesh. By definition, an enclave is a portion of a country entirely surrounded by the territories of some other country. Thus, enclaves are geographically non-contiguous or disjoint from the main part of the country. As per the note on Land Boundary Agreement released by the Ministry of External Affairs, Government of India, there are 111 Indian enclaves in Bangladesh, which are considered to belong to district Koch Bihar jurisdictionally but without any

direct access or contiguity to the district boundary. However, ascertaining the exact number of enclaves are some-times difficult as in many cases smaller enclaves or *Chhit*s, are part of bigger enclaves (*Chhit*s) which together form complete villages, making the identification of exact boundary between the two entities difficult, sometimes impossible. Collectively, these Indian enclaves are spread over an area of more than seventeen thousand acres inside Bangladesh. *(Source : note* on Land Boundary Agreement *released by Ministry of External Affairs, Government of India)*

Although, the matters of concern relating to *Chhit-Mahal*s of Koch Bihar emerged only after independence of India and Bangladesh (erstwhile East Pakistan) in 1947, the historical evidence of disjoint land owned by the Koch Bihar kingdom can be traced back to early eighteenth century. Consequent upon the Treaty signed in 1713 between the Koch King Rupa Narayan and *Fauzdar* of Rangpur (in present day Bangladesh) appointed by the Mughals, territories were exchanged and *chaklas* of Boda, Patgram and Purvabhag came under the control of Koch King which was isolated from the main kingdom. The dominion of the Koch Bihar King prevailed in the distant *Chhit*s almost ceaselessly till the independence in 1947, despite the various ups and downs in the kingdom, Mughal influence or ruling of British. In absence of a definitive border agreement or a defined passport system, governing in a distant land disconnected with the mainland never became an administratively difficult exercise. However, the situation changed after independence. During the partition of India, Koch Bihar kingdom joined India and as per the Coochbehar Agreement signed in 1949, the areas under the *Chhit-Mahal* surrounded by Bangladesh was also included in India, as it was during the rule of Koch Bihar Kings. The Radcliff Line separating the two countries is also drawn showing the areas accordingly.

As per the decision taken by the two countries post-independence, neither side can conduct unilateral survey in the area to demarcate boundary or other purposes. As per the latest headcount exercise conducted jointly by the two countries in 2011, total population of Indian enclaves in Bangladesh is around 37,334. During last six decades of independence, several attempts have been made to exchange the territories, but the result is yet to be achieved. However, the Land Boundary Agreement, signed on 6 September 2011 by the Foreign Ministers of India and Bangladesh in the presence of the Prime Ministers, paves the way for a settlement of the long pending land boundary issues between the two countries. *(Source : note* on Land Boundary Agreement *released by Ministry of External Affairs, Government of India)*

Population dynamics of the District Koch Bihar :

The history of conduct of Census in district Koch Bihar is strikingly archaic. King Viswa Singha, who ruled Koch Bihar from 1522 to 1555 CE, conducted first Population Census in the Kingdom. However, his interest was mainly of the able bodied male population who are capable of joining the Royal forces during the War.

The first Census of Koch Bihar in the modern era was conducted between November, 1871 to February, 1872 showing a population figure of 5,32,565. The average density of population in the district was 407 persons per square miles. Although the concept of villages in feudatory state of Koch Bihar differed from that of the villages in other areas of Bengal, there were 1199 number of habitations in the state.

During the succeeding Census in 1881, population rose by 13.2 per cent and was recorded at 6,02,624. However, due to some natural calamities like earthquakes and floods, population of feudatory state of Koch Bihar reduced during next two decades. With the exception of such few cases, population of Koch Bihar district rose has recorded a modest rise and during the first Census of independent India, it was recorded at 6,71,158. In all decades Coochbehar Sadar Sub-Division has remained highest populated, both in terms of density and absolute figures.

Another important feature of the population of district Koch Bihar is that being ruled by feudatory rulers under British regime, the state has attracted considerable

number of immigrants from other places, including the neighbouring districts. Immediately after independence along with partition, this immigration rose to 1,45,916 out of a total population of 6,71,158 which is almost 21.75 per cent.

District Koch Bihar has the highest proportion of population falling under Scheduled Castes category in the state of West Bengal. As per Census 2011, Koch Bihar has recorded a 50.17 per cent concentration of population under Scheduled Castes category. Ethnicity wise the most dominant population group in Koch Bihar district are the *Rajbanshis.* They form around 75.2 per cent of Scheduled Castes population and 37.72 per cent of total population in the state. Next comes the *Namasudras* who form 12.61 per cent of Scheduled Castes in the district. As noted in The Cooch Behar State and its Land Revenue Settlements by Babu Harendra Narayan Chaudhuri the term *Rajbanshi* can be regarded as an addition of honour, meaning 'related to the Royal family'. Another theory of origin of the caste is that during invasion of Aryans in the east, the caste might have created from intermixing of Aryans, Assamese and the Bengalis of the region.

Administrative set up of the District :

(i) Region of the state where district is located :

Koch Bihar district lies in the northern portion of the West Bengal and is spread over an area of 3,387 sq. km. as on 2011. The district is pretty small in size in comparison to other districts of the State and ranks thirteenth in terms of size. Geographically this district lies in the foothills of the Himalayas and mainly constituted of plain land with marshy riverine areas known as 'Terai' and/or 'Dooars'. District Jalpaiguri forms the Western boundary of Koch Bihar and the State of Assam forms to the Eastern. The Northern portion is bordered with the Alipurduar Sub-division of district Jalpaiguri (lately this has been transformed into a new district Alipurduar). Towards South, the district is bordered by northern part of Country Bangladesh. The North-South and East-West expansion of the district is from $25^0$57'56" North Latitude to $26^0$32'46" North Latitude and $88^0$47'40" East Longitude to $89^0$54'36" East Longitude. Although the district boundary is artificial in the majority of the portions, there are some natural borders created by rivers Jaldhaka and Kaljani to the North, Gadadhar and Sankosh to the East and Dharla to the South.

Post the amalgamation of the district with Union of India, Koch Bihar has become a district in the state of West Bengal and is governed by the similar Administrative, Civilian and Judicial structure as that of the other districts of the state.

(ii) Total number of C.D. Blocks or the next Administrative units after district and changes therein including jurisdictional changes during 2001-2011 :

There are 1194 villages in the district which are spread over 12 (twelve) C.D. Blocks viz. Cooch Behar-I, Cooch Behar-II, Dinhata-I, Dinhata-II, Haldibari, Mathabhanga-I, Mathabhanga-II, Mekliganj, Sitai, Sitalkuchi, Tufanganj-I and Tufanganj-II. There are 6

(six) Municipalities in the district namely, Haldibari (M), Mekliganj (M), Mathabhanga (M), Koch Bihar (M), Tufanganj (M) and Dinhata (M).

(iii) Total number of Towns/Villages etc. :

As already stated in the above point, there are 1194 villages in district Koch Bihar, out of which 62 are un-inhabited. Beside the 6 Municipalities, namely, Cooch Behar (M), Dinhata (M), Mathabhanga (M), Mekliganj (M), Haldibari (M) and Tufangunj (M), there are 12 Census Towns in Koch Bihar district which are given below :

Name of C.D. Block	Name of Census Towns under the C.D. Block
Mekliganj	Nagar Changrabandha (CT)
Cooch Behar-I	Kharimala Khagrabari (CT)
	Guriahati (CT)
	Dhaliabari (CT)
Cooch Behar-II	Baneswar (CT)
	Khagrabari (CT)
	Baisguri (CT)
	Chakchaka (CT)
	Takagach (CT)
Tufanganj-I	Kamat Phulbari (P) (CT)
Tufanganj-II	Chhota Laukuthi (CT)
Dinhata-I	Bhangri Pratham Khanda (CT)

Like other districts of West Bengal, Koch Bihar also has seen a noticeable urbanisation process during last few decades. Although the number of Statutory Towns didn't increase, the number of Census Towns has become 12 in Census 2011 from 3 Non-Municipal Towns of Census 1991 and 4 Census Towns of Census 2001. The new Census Towns for 2011 Census have been declared in C.D. Blocks Mekliganj (Nagar Changrabandha), Cooch Behar-I (Dhaliabari), Cooch Behar-II (Baneswar, Baisguri, Chakchaka, Takagach), Tufangunj-I (Kamat Phulbari (P)) and Tufangunj-II (Chhota Laukuthi).

(iv) If the district is newly created, the area from which it has been carved out :

It is not a newly created district.

(v) Urban Local Bodies :

India has seen the formation of urban local bodies since the time of Indus Valley Civilization. The first Municipal Corporation was set up at erstwhile Madras (now Chennai) under a charter granted by James-II during the British rule in 1687. There are different types of urban local bodies, namely, Municipal Corporations, Municipal Councils, Municipalities, Notified Area Committees, Cantonment Boards etc. Except the Cantonment Boards all other types of municipal bodies are governed by the state municipal laws. Cantonment Boards are controlled by the Central Act called Cantonment Acts, 1924. A municipality is constituted with elected members of the inhabitants of a city or town and municipal corporations, and is created by the enactment of State Legislatures or of Parliament in case of Union Territories. The area which does not fulfill all the conditions lay down as necessary for the constitution of a municipality or it may also be created for newly developing towns or areas are known as Notified Area Committee. Except Notified Area, the councils of all these corporate bodies comprise of elected members of the public through adult franchise (citizen of 18 years and above) based on secret ballot. The notified area is governed by the state governments through a body nominated by it. Apart from overall planning, creation and maintenance of Civil Administration, the primary object of every urban local body is to provide certain civic amenities to the people.

Although the present day Koch Bihar district is predominantly rural in nature, the history of establishment of well organised towns is as old as the rule of modern Koch

Bihar Kingdom. The largest town in the district Koch Bihar has always been the district Head Quarter Cooch Behar (M). All the other important towns in the district were established during the feudatory rule of Koch Bihar Kingdom and have flourished during last six decades after independence of India.

Cooch Behar Municipality : The Cooch Behar Municipality is located on the bank of river Torsa and has a triangular shape having bounded by river Mora-Torsa on the west and river Bura-Torsa flowing from north-west to south-east. The historical evidence of Cooch Behar Town can be traced way back in 1661 CE during the rule of King Prana Narayan when Mir Jumla, the Mughal appointed *Subedar* of Bengal had marched up to the Capital Town of Cooch Behar and seized part of the town. Later, King Rupa Narayan transferred his Capital to Guriahati which occupied a large portion of modern day Cooch Behar Municipality. Since then the Capital of the kingdom has remained Cooch Behar Town and the Kingdom of Koch Bihar was ruled from the town.

By the end of Nineteenth Century CE, the town took its modern shape and was declared a Municipality in 1885. A Municipal Police force was recruited for maintaining law and order, structured well-lit roads were erected, residences of senior Officers were built beside the princely palaces, schools and hospitals were established. Cooch Behar Municipality is the largest unit of trade and commerce in the district and it retained the status till date. The district administration of Koch Bihar is governed from Cooch Behar (Municipality) and acts as the head quarter of Administration, Judiciary and Civil authorities in the district.

Dinhata Municipality : Dinhata Municipality derives its name from its eponymous Sub-division of Dinhata and acts as the Sub-Divisional Head Quarter of Dinhata Sub-division. Like Cooch Behar Municipality, this town was also established during the feudatory rule of the Koch Kingdom in the nineteenth century. The town is located towards south of Cooch Behar (M) and river Dharla flows nearby. This town has been functioning as the local centre of trade and commerce. As per Census 2011, Dinhata Municipality is the second largest town of Koch Bihar district.

Mathabhanga Municipality : Mathabhanga Municipality lies on the right bank of river Jaldhaka, locally known as river Mansai and is a small but important town in the district. Mathabhanga Municipality acts as the sub-Divisional Head Quarter of Mathabhanga Sub-Division and was notified as the Municipality having local self-government during the late-nineteenth century. Mathabhanga Municipality has recorded a population of 23,890 with 12,059 males and 11,831 females as per Census 2011.

Mekliganj Municipality : Mekliganj Municipality is the smallest Statutory Town in the district Koch Bihar and is located on the bank of river Tista towards the north-west corner of the district. Location of the town is $26^0$21'27" North and $88^0$56'42" East latitude and longitude respectively. Population of Mekliganj Municipality is 9127 as Census 2011.

Haldibari Municipality : Haldibari Municipality falls under the Mekliganj Sub-Division of district Koch Bihar. Like other Municipalities of Koch Bihar, Haldibari was also notified as a Urban Local Body with Local Self Government during nineteenth century. In the pre-independence period, Haldibari used function as an important centre of Jute trade in North Bengal. Presently, Haldibari is an important Railway junction and has recorded a population of 14,404 as per Census 2011, which is more than doubled from the figure of 6,701 persons of Census 2001.

Tufangunj Municipality : Tufangunj Municipality lies to the 24 km. east of Cooch Behar town and is the Sub-Divisional Head Quarter of Tufangunj Sub-division. The Municipality is located at the west bank of river Raidak (Also known as Dipa-Raidak). This urban local body is comparatively new and was built at the advent of twentieth century while the Sub-Divisional Head Quarter of Tufangunj Sub-division was shifted from the erstwhile town of Fulbari. Tufangunj Municipality is growing rapidly during last few decades as has emerged as an important town in the district.

(vi) Civil Administration :

Administratively, the District Magistrate of Koch Bihar is the coordinating Officer of all Governmental functions in the district which is divided in to five Sub-divisions comprising of twelve Community Development Blocks (C.D. Blocks) and six Municipalities. The Sub-division wise break-up of C.D. Blocks and Municipalities are as follows :

(a) Cooch Behar Sadar Sub-division lies in the central most portion of the district comprising of Cooch Behar-I and Cooch Behar-II C.D. Blocks and Cooch Behar Municipality.

(b) Dinhata Sub-division lies in the Southern portion of the district and comprises of Dinhata-I, Dinhata-II and Sitai C.D. Blocks and Dinhata Municipality.

(c) Mathabhanga Sub-division lies to the North and West of Cooch Behar Sadar Sub-Division and comprises of three C.D. Blocks namely Mathabhanga-I, Mathabhanga-II and Sitalkuchi and Mathabhanga Municipality.

(d) Mekliganj Sub-division spreads from the North-West to South-West corners of the district comprising of two C.D. Blocks namely Mekliganj and Haldibari and two Municipalities, namely, Mekliganj Municipality and Haldibari Municipality.

(e) Tufangunj Sub-division forms the eastern border of the district and is adjacent to the neighbouring state of Assam. This Sub-division consists of Tufangunj-I and Tufangunj-II C.D. Blocks and Tufangunj Municipality.

Under the provisions of the West Bengal Panchayat Act, 1975, a Three Tier Panchayat system is functioning in the district. There are 128 nos. Gram Panchayats, 12 nos. of Panchayat Samities and one Zilla Parishad functioning in the district. All the Gram Panchayats have good infrastructural facilities and function under the guidance of the Panchayat and Rural Development Department of Government of West Bengal.

Police force and District Judiciary :

The Police force of district Koch Bihar is led by the Superintendent of Police who is assisted by one Additional Superintendent of Police and four Deputy Superintendents of Police. As noted earlier, there are 11 (eleven) Police Stations in the district along with 6 (six) out posts. There are 5 (five) Correctional Homes in the district. The head of the district judiciary of district Koch Bihar is the District Judge. There are 5 (five) courts in the district.

As on 2011, there are eleven (11) Police Stations in the district Koch Bihar spread over five Sub-divisions which are :

(1) Cooch Behar (Kotwali) Police Station is under Cooch Behar Sadar Sub-division; (2) Dinhata (3) Sitai Police Stations are under Dinhata Sub-division; (4) Mathabhanga (5) Ghokshadanga (6) Sitalkuchi Police Stations are under Mathabhanga Sub-division; (7) Mekliganj Police Station spread over Mekliganj C.D. Block and Mekliganj Municipality, (8) Kuchlibari (9) Haldibari Police Stations under Mekliganj Sub-division; (10) Tufangunj and (11) Bakshirhat are under Tufangunj Sub-division.

Analytical Note

Physical features :

(a) Location and Size :

Koch Bihar district lies in the northern portion of the West Bengal and is spread over an area of 3,387 sq. km. as on 2011. The district is pretty small in size in comparison to other districts of the State and ranks thirteenth in terms of size. Geographically this district lies in the foothills of the Himalayas and mainly constituted of plain land with marshy riverine areas known as 'Terai' and/or 'Dooars'. District Jalpaiguri forms the Western boundary of Koch Bihar and the State of Assam forms to the Eastern. The Northern portion is bordered with the Alipurduar Sub-Division of district Jalpaiguri (lately this has been transformed into a new district Alipurduar). Towards South, the district is bordered by northern part of Country Bangladesh. The North-South and East-West expansion of the district is from $25^0$57'56" North Latitude to $26^0$32'46" North Latitude and $88^0$47'40" East Longitude to $89^0$54'36" East Longitude. Although the district boundary is artificial in the majority of the portions, there are some natural borders created by rivers Jaldhaka and Kaljani to the North, Gadadhar and Sankosh to the East and Dharla to the South.

(b) Physiography :

Topographically, the district Koch Bihar chiefly comprises of plain land low and marshy tracts at some places. Due to existence of many rivers and rivulets besides low land, it is very prone of floods during the monsoons. There are no hills/mountains or large water bodies creating any natural physical division of the land mass in the district.

Considering the nature of general surface configuration, relief and drainage pattern, distribution of different types of soil, climatic condition, the formation of geology and forest tracts, the district Koch Bihar falls under Barind Track. The physiology of this area consists of alluvial soil, generally blackish brown in colour and composed of sand, clay and silt. The soils are loose and sandy throughout the district. As the Himalayan mountains end abruptly at the junction of the Terai/Dooars at the border of Jalpaiguri and Koch Bihar districts, the general slope of land here is from North to South and South-East. The network of rivers and small streams has taken an important part over the years in formation of soil and landmass in this area.

The plains of Koch Bihar district are further divided in to two Sub-Micro Cartographic Regional Divisions; West Koch Bihar Plain and East Koch Bihar Plain. River Jaldhaka, which flows from North-West to South-East throughout the district; forms the boundary of these two Sub-Micro regions. The general nature of soil is similar in both the portions and rock formation is of recent age. The geological formation of the soils are sub-order associations of Udalfs-Ochrepts, Orthents-Aquepts-Ochrepts, Aquepts-Ochrepts and Ochrepts-Fluvents. The East Koch Bihar plain is comparatively larger in size and consists of 2,312.2 sq. km. area, whereas the West Koch Bihar plain is smaller having an area of 1,073.20 sq. km. The Western part has a slightly higher elevation of 45 to 53 meters and the Eastern part is of elevation 35 to 45 meters. The low lands of the district are generally shallow and Marshy covered with reeds and similar plants.

(c) Flora & Fauna :

District Koch Bihar, owing to its fertile alluvial soil, vicinity to the Himalayan mountains and ample rainfall has nurtured a huge variety of foliage and flowers since ages. However, due to pressure of population explosion and subsequent expansion of agriculture, only a miniscule proportion of the once abundant forestry is remaining till date. Bamboo bushes are very common to the district, clubbed with variety of Palms-Coconut, *Khejur* (Date-Palms), *Supuri* (Betel-nut Palms) etc., Plantains and different variety of Banana; Timber-trees (Sal (*Shorea Robusa*)), Shishu (Indian Rosewood), *Sagun* (Teak wood), *Babla, Khayer,* Mahogany etc.), Rain Tree (*Krishna Chura*, *Radha Chura*

etc.). Beside Banana, large variety of fruits like different types of Melons - *Tarmuj* (Water Melon), *Footi/Bangi/Kharmuja* (Musk Melon), Melon, Squash etc.; Jack fruit, variety of Mangoes, Pine-apple, Papaya, Lichee, Guava, different types of Lemon are very common habitants of the district. Among flowers all normal variety available throughout the state like Hibiscus, *Tagar*, *Champa* are also common in this district. The mythical Nag Kesar trees are abundant in the district. Due to locational proximity at the Himalayan foothills, many rare varieties of Himalayan Orchids are also found in Koch Bihar. Medicinal and aromatic plants like Cinnamon, Bay leaf, Clove, Pepper, *Neem* (Indian Lilac) are also found aplenty in the district.

The existence of forest is very limited in district Koch Bihar and except the areas near Rasikbil and Patlakhawa, large vegetation is no more available in the district. Thus not many variations of forest animals, birds or flowers are available in the district. In the restricted areas of forests, multiple wild species can be found which includes Cheetal, Barking Deer, Sambhar, Hog Deer, Indian Bison (Gaur), Civet Cat, Jungle Cat, Leopard Cat, Jackal, Mongoose, Wild Pig, Hog Badger, Fox, Wild Dog, Pangolin, Hispid Hare, Porcupines etc. Turtles and small Tortoises are found in the riverine areas and waterbodies beside *Gosap*, small Crocodiles, Frogs and Snakes. Birds like Crow, Raven, Parrots, Cuckoo, *Bulbul*, Parakeets, Wood-pecker, Kingfisher, Sparrow, Mayna etc. are found all through the district. As there are many water bodies cutting across the district, large varieties of ichthyofauna enrich the animal kingdom of the district. Due to absence of sea-coast, sweet water fishes from numerous rivers, streams and ponds are mainly available in the district. Fish varieties include, *Rui/Rohit, Katla, Mrigel, Kalbaus, Ilish (Hilsa*), *Chital, Fali/ Falui, Kursa/Bhetki, Khorsala, Borali, Khalisa/Kholse, Punti, Chanda, Koi, Aar/Ayr, Boal, Kacha, Bacha, Pabda, Banshpata, Tengra, Singi, Magoor,* Icha, Prawns etc.

(d) Drainage :

District Koch Bihar has a large network of rivers and rivulets running from North-West to South and South-East direction, depending upon the general slope of the land. All the rivers have emerged in Himalayas and after crossing the district, enter State of Assam or neighbouring country Bangladesh. The hill-streams of Koch Bihar bring debris and slit from the Himalayas but are shallow in depth. During monsoons, the velocity of the river streams almost get doubled, even with a small rain in the mountains, the streams overflow - causing flood and destruction of lives and creatures and hindering agricultural produce. Thus, despite existence many rivers in the district, navigation through the river and river trade are not very common as during monsoon it is dangerous to navigate and in dry season the waterbed is too shallow to navigate.

Historically, it has also been observed that the rivers change their paths quite often and as there are no hills or mountains in the district, this change of directions occur unhindered. From the available maps of the district for last three Centuries it has been observed that the courses of the rivers have changed substantially. Thus, many of the rivers shown in the map prepared by James Rennel during 1765-1770 and 1779 had become inexistent or considerably shifted in the next available documentation by W. W. Hunter in his 'Statistical Account of district Kuch Behar' published in 1876. Even the description of the river paths in the famed publication titled 'Cooch Behar State and its Land Revenue Settlements' by H.N. Chaudhuri published in 1903 has changed substantially in the last Century. The present riverine network of the district Koch Bihar is very complex and most of the rivers are connected to each other through main channels or small streams. As a result, it is very difficult to differentiate the river systems from each other and one river stream included in one main river system ultimately has some connection with others. The changes in pathways resulting from the frequent floods have made joining and disjoining of different river systems a common affair in the district.

In the following portion, an account of the few most important river systems of district Koch Bihar are given below :

River Teesta : River Teesta (also spelt Tista) is one of the largest rivers in Northern Bengal. Inside Koch Bihar- it flows in South-East ward direction through the Western-most portion of the district. It enters the district at the Mekhliganj C.D. Block and exits the district near Kuchlibari. It is a trans-boundary international river. One flow of river Teesta is originated from Cholamoo (Tso Lhamo) lake in Tibet and the other flow is originated from Teesta Khangse in Sikkim. The combined flow, known as Teesta (or Tista), flows through Sikkim, districts Darjiling and Jalpaiguri before entering Koch Bihar in several small flows and shallow wet-lands between villages Daripattani, Dakshin Nijtaraf and Bakshiganj. Few Centuries back, there were some distinct flows of this river through the district known as Mara Tista, Bura Tista and Dadai. The mention of three channels of Teesta is available in the ancient descriptions and justifies the original Sankrit name '*Tri-Srota'*. In modern age, in the Map made by Rennel (Survey of Bengal during 1764 to 1777 and Rangpur Survey - 1779), evidence of some other flows of Teesta linked to Rivers Karatoya, Atrayi and Punarbhaba can be found which have been substantially changed during last two centuries. Subsequent to a disastrous flood in 1784, the path of the river changed and the eastern most channel known as Dadai became the main course of the river. The mention of this path of Teesta can also be found in the writings of British Officer Sir Buchanon Hamilton dated back in the year 1805. The present path, in most of its form, started taking shape in 1840s. Although, no large river flows meet Teesta inside Koch Bihar, small streams known as Suti Nadi and Shaniajan meets the river in the Mekhliganj C. D. Block. Upon exit to the district; Teesta enters Bangladesh and ultimately meets Brahmaputra as its one of the most important tributary.

River Jaldhaka and connected river system : River Jaldhaka and its connected river-streams form the largest catchment area in the district Koch Bihar. Some portions of the river is also known as Manshai or Singimari in colloquial terms. However, in the writings of W. W. Hunter in his 'Statistical Account of district Kuch Behar' published in 1876, Singimari is shown as a separate river flow. At present, there is a very small independent stream named Singimari which is a tributary of river Jaldhaka. Similarly, a small stream named Manshai meets Jaldhaka, giving the combined flow its name. Like Teesta, Jaldhaka is also a transboundary international river. It is originated from the sacred Kupup Lake (also known as Bitan Cho) in Eastern Sikkim where it is known as 'De Chu' and then flows through Bhutan before entering West Bengal at Bindoo of Darjiling district. Here it meets two other streams Bindu Khola and Dudh Pokhri and the confluence of these three streams is known as Jaldhaka. It then flows in South and South-East direction through districts Darjiling and Jalpaiguri and enters Koch Bihar from North-East corner of Mekliganj C.D. Block near villages Hat Sadikha and Soulmari. As understood from the Bengali transliteration of the name - it is a large stream filled with huge water (*Jal* – water, *Dhaka* – covered with) in the plains of Jalpaiguri and Koch Bihar, especially in the months of Monsoon.

The river then flows in a South-East direction after entering Koch Bihar and is met with river Dudya or Duduya (also known as Rehti-Dudya) from left side. Beyond that, at Khaterbari near Mathabhanga town, the river meets with a stream called is the Northern most distributary of Jaldhaka inside the district Koch Bihar. There are also many smaller flows of torrents enrich Jaldhaka in its route throughout the district ultimately to meet mighty Brahmaputra in Bangladesh as one important tributary.

The pathway of Jaldhaka river forms the natural boundaries between the Northern portion of Koch Bihar with district Jalpaiguri, C.D. Blocks Mathabhanga-I and Mathabhanga-II beyond that and between C.D. Blocks Sitalkuchi and Cooch Behar-I in the middle and C.D. Blocks Sitai and Dinhata-I in the Southern portion of the district. Like other rivers of North-Bengal, the river beds are usually quite shallow in summer or other dry months and are flooded with water during monsoons. Over the years, Jaldhaka and its connected river systems has also shown considerable changes in the pathway resulting from shift of track post monsoons. The present confluence of Jaldhaka with

Dharla only emerged a century ago being shifted from its original track. Similarly, the convergence with Singimari at the present location appeared between 1820 to 1825.

The entire catchment area of the river Jaldhaka in its all names along with all connected rivers, is very fertile and being formed of loose alluvial recent soil is ideal for cultivation of Paddy (Rice), Jute, Banana, Tobacco and other crops like high quality Pineapple and Watermelon.

River Dharla : This is one of the most important rivers of district Koch Bihar and is also as Dharala or Dhalla. The name of the river Dharla is be derived from Sanskrit word Dhavala or Bengali 'Dhabala' meaning 'having White Flow'. This name is likely to refer to the gushing white water torrent of the river in ancient times. Presently the river flows gently through the district with heavy flow of water during months of monsoon. The main course of the river emerges from the Himalayas in Bhutan and is known as 'Chel' or 'Chil' in the upper course. This river stream meets with the other course near Chengmari and the mixed flow is known as Dharla.

Similar to other rivers of the district, Dharla river is also very prone to flooding and the path of the river has fluctuated many times during the last three hundred years. In the writings of W.W. Hunter in his 'Statistical Account of district Kuch Behar' published in 1876 has mentioned Dharla and Torsa as two names of the course of a single river. However, since the advent of twentieth century the current flow is prevailing and Dharla and Torsa are two different streams meeting mighty Brahmaputra beyond the boundaries if the state West Bengal inside Bangladesh. Dharla enters Koch Bihar from district Jalpaiguri near at Panisala near Mekliganj. It goes out of the district and the country as well near Patgram and re-enters the district (and India) near Dinhata. In its course through the district, it receives small streams called Neda, Chenakata etc. The older path of the river flows to the South of the larger bed and is known as 'Bura Dharla'. River Dharla ultimately meets Jaldhaka as a tributary near Kodaldhoa. One older flow of Dharla used to pass by the district Headquarter and Capital of Koch Bihar kingdom. River Dharla has another great historical significance. The ancient kingdom of Kamatapur in district Koch Bihar flourished on the banks of Dharla and the flow of the river acted as the natural line of defense of the city from the foreign invaders coming from the eastern side. Presently the catchment areas of river Dharla are very fertile and different types of crops like Paddy (Rice), Jute, Banana etc. are grown.

Smaller rivers connected to Jaldhaka river system :

Khutamara, Girdari and Ratnai river : It is a small river stream flowing towards South of the flow of river Bura Dharla. The upper flow of the river in C.D. Block Sitalkuchi is known as Khutamara and lower flow beyond that is known as Girdari/Giridhari. This watercourse along with river Ratnai are connected river streams and this river system enters the district from Patgram and Rangpur of Bangladesh.

Rivers Dikdari/Kumali, Moranga and Gondu : River Dikdari (known as Kumali in the upper flow inside district Jalpaiguri) meets with another small stream named Moranga and flows in to district. The combined flow, also known as Moranga flows in the district Koch Bihar in North-West to South-East direction. This river meets with another small stream named Gondu which enters the district from the North-West corner near Mekliganj.

Rivers Gilandi, Rangati and Dinah : These are very small rivers entering the district in Mathabhanga Sub-division near Phulbari, Khseti and Singijani. The streams of Gilandi and Rangati meet near Phulbari and combined flow, like other rivers of the district flows South and South-East ward direction. The area between the triangles of these three rivers has been historically significant being the bone of contention between the Kingdom of Koch Bihar (a feudatory state under British dominion) and Kingdom of Bhutan.

River Dudya or Duduya *(also known as Rehti-Dudya)* : This is one of the most important tributaries of river Jaldhaka which also enters the district from the North-West

corner of the district of Mathabhanga Sub-division. The upper course of this river is formed from the union of several small hill streams towards North of district Koch Bihar (inside district Jalpaiguri). For a considerable distance this river forms the natural boundary of C.D. Block Mekliganj and C.D. Block Mathabhanga. The older flow of this river was in North-South direction which has changed more towards East during last 150 years.

River Mansai/Mujnai : This river was one of the most important flow of water just two centuries back. But due to recurrent change in path in the last 200 years caused by recurrent floods, it has become a very small tributary of Jaldhaka river. In a late eighteenth century map prepared by Sir James Rennel, it was shown as a great watercourse and used cross an old course of Torsa. The river is originated from the hills of Bhutan and flows through district Jalpaiguri before entering Koch Bihar.

River Shutunga : Mathabhanga Municipal Town lies in the Eastern bank of river Shutunga, which flows in a curve by the west and south of the Town.

River Torsa and connected river system: River Torsa is a trans-boundary international river generated from the Himalayas and flowing through Tibet, Bhutan, India and Bangladesh. It is known as 'Amo Chu' in Tibet and Bhutan and Torsa in India and Bangladesh. The name Torsa is derived from the Sanskrit word 'Toya Rosha' meaning raging water, refers to its heavy water-flow especially during the months of Monsoon. Torsa flows through the steep mountainous gorges in its hill path inside Tibet and Western Bhutan in a large and swift stream. Even in the drier months of winter the average depth is more than one meter in the upper path. It then enters the plain of Himalayan foothills of Dooars and flows through districts Jalpaiguri and Koch Bihar, where its course widens. It ultimately meets Brahmaputra as tributary inside Bangladesh. There are many lakes linked with Torsa in its upper course and as a result, water level is retained even in dry seasons.

While passing through Koch Bihar, River Torsa is ill-famous for flooding and destruction caused by the rapidly changing pathways. During last couple of hundred years at least 3 to 4 major streams have been created, deserting the previous channel. The various flows are named after the river as – Mora Torsa (Mora – dead), Bura Torsa (Bura – old), Chhara Torsa (Chhara – deserted/rejected) etc. Torsa enters Koch Bihar from North near Latabari at C. D. Block Mathabhanga-I. It is linked with river Dharla, old course of river Singimari, Kaljani and Jaldhaka. The link Singimari is now drying out and the link with Kaljani was created around hundred years back during the end of nineteenth century.

Main water features such as tank, lake, reservoirs etc.

District Koch Bihar is enriched with numerous river streams of varied dimensions. Due to frequent change in the path of rivers, the water features are characterised by formation of copious ox-bow lakes and lakes created from cut-off channels of rivers. There are also many shallow wetlands created from paleo channels. These waterbodies (commonly known as *Beel* or *Bil*s) and the river streams are usually perennial in nature and bloom to the fullest during monsoon. Rasikbeel situated in Tufangunj Sub-Division of district Koch Bihar is a large lake surrounded by forests and is famous as a Bird Sanctuary. Sagar Dighi and Bairagi Dighi are two important artificial lakes located inside the Coochbehar Town quarried during the rule of Koch Bihar kingdom.

Floods in Koch Bihar

The soil of district Koch Bihar is typically a transition zone from Dooars at the feet of Himalayas to the plain lands of Bangladesh thus making it very prone to flash floods. Almost every year due to heavy rains during the extended monsoon, large areas of the district are flooded causing havoc for the human, livestock and crops.

As per the reports of Cooch Behar Irrigation Division, Government of West Bengal occurrence of Flash Flood is a common phenomenon in the district and cause considerable damage to the human life, crops and livestock almost each year. From 2006 to 2010, Flash Floods occurred every year. The proportion of area affected by Flash Floods during this period ranged from 20 per cent to hopping 45 per cent, highest occurring in the year 2008. During this period, the overall impacts of Flash Floods were also most devastating in 2008, affecting 30 per cent of human lives of the district, causing damage to 50,000 livestock. In terms of destruction caused by Flash Floods, next comes the year 2010, affecting 35 per cent area followed by year 2006 when 30 per cent of the area was affected. In both years, 20 per cent of human lives were negatively impacted and number of livestock being affected was 20,000 (in 2010) and 30,000 (in 2006) respectively. Year 2007 and 2009 were comparatively less severe. In 2007, 25 per cent area, 10 per cent human lives and 30,000 livestock were affected and in 2009, 20 per cent of area, 15 per cent human lives and 10,000 livestock were affected.

The following Table shows the catchment areas of the major rivers vis-à-vis the C.D. Blocks risked with flooding during rainy season. The rivers mentioned against the C.D. Blocks overflow during the Monsoon and acts as the main sources of causing devastation in their area of catchment basin.

Name of the C.D. Blocks	Name of the Major Rivers causing Floods
Mathabhanga-I	Mansai, Sutunga, Dharla, Nenda
Mathabhanga-II	Dudua, Gilandi, Jaldhaka, Torsa, Bura Torsa, Mansai
Sitalkuchi	Mansai, Dharla
Mekliganj	Jaldhaka, Teesta
Haldibari	Teesta
Tufangunj-I and Tufangunj-II	Raidak-I and II, Sankosh
Cooch Behar-I and Cooch Behar-II	Raidak-I and II, Gadadhar, Kaljani, Torsa and Ghargharia
Dinhata-I and Dinhata-II	Singimari, Dharla, Baniadaha
Sitai	Singimari, Giridhari/Girdari

(Source : Cooch Behar Irrigation Division Report, Government of West Bengal)

(e) Climate :

Climate of district Koch Bihar is characterised by warm, moist summer, heavy rainfall and cool winters. District Koch Bihar being located in the sub-tropical climatic region under the influence of South-West Monsoon experiences five seasons. Winter is longer ranging from November to mid-February followed by a short spring of about a month span. Summer starts from mid-March till the arrival of Monsoon (rainy season) which is the longest season usually spanning from June to first week of October. Till November lasts the autumn and sporadic rainfall from retreating South-West monsoon occurs in isolated locations. Being nearer to the Himalayas, climate of this district is more affected by the hill-weather and is less warm than the Southern or South-Western districts of West Bengal. There is a general breeze blowing all through the year and foggy mornings are typical during winters. Winter months in the district are generally dry and scattered to heavy and very-heavy rainfall is spread over rest of the nine months.

The South-West monsoon being obstructed by the Himalayas causes heavy to very-heavy rainfall in the district which often crosses the mark of 2500 Millimetre per annum. The highest rainfall usually occurs in the months of July and August, ranging from around 600 Millimetre to more than 800 Millimetre in a single month. Pre-monsoon rain starts from end of April, often extending till end October. The information on annual rainfall for the preceding five years for the district Koch Bihar is given below :

Year	Annual Rainfall (in mm.)
2007	2537
2008	3057
2009	2438
2010	3673
2011	2669

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

During the summer, the maximum temperature usually touches 36 to 37 degree Celsius but the month of occurrence varies from March to August. The lowest temperature is generally reached in January or February touching 5 to 7 degree Celsius. The maximum and minimum temperature for last five years in degree Celsius as recorded by the Meteorological Department, Government of India is given below :

Year	Maximum	Minimum
2007	37^0 C	5^0 C
2008	36^0 C	6^0 C
2009	37^0 C	7^0 C
2010	37^0 C	7^0 C
2011	37^0 C	5^0 C

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

(f) Natural Economic Resources :

(i) Forestry : The land in the district of Koch Bihar is well cultivated and densely populated in most of the areas thus limiting the presence of dense forests to a small extent. The constricted tracts of forest land can be observed in the areas close to Bhutan Dooars; Eastern and North Eastern parts of the district. During the rule of the Cooch Behar Kingdom, Sal (Shorea Robusta), Sagun (Teak Wood) and Sishu (Indian Rosewood) trees were planted at large scale during late nineteenth century. Khair (Black-Cutch tree) and Indian Rubber have also been planted in some parts of the district. As a whole, the forests of Koch Bihar are mixture of Tropical and Sub-Tropical Evergreen and Deciduous type vegetation. By holding type, these forests can be classified as Protected Forests, Khas Forest, Unclassed State Forest, Vested Waste Land and Forests owned by private individuals and corporate bodies. As such there are no reserve forests lying within the periphery of the district.

In Koch Bihar district, 54.4 per cent of the total forest land falls under Protected forest category, followed by Unclassed state forest (39.1 per cent) and Khas forest (4.6 per cent). The wood from Sal, Sagun and Sishu are used for timber and acts as a source of generation of revenue. The Khair has medicinal value and widely used for the purpose. Rests of the vegetation generate revenue as fuel. The out-turn of forest revenue in district Koch Bihar for the period of 2006-07 to 2010-11 is given below :

Out-turn of Forest Produce in Koch Bihar District

Year	Production in Thousand Cubic Metre	
	Timber	Fuel
2006-07	70.55	31.04
2007-08	85.97	33.40
2008-09	98.81	38.54
2009-10	102.59	44.38
2010-11	192.69	51.13

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

(ii) Minerals & Mining : No significant mineral products are commercially produced in district Koch Bihar.

(iii) Soil & Cropping Pattern : The soil is the most important resource determining the nature and quality of crop production for an area. The soil of Koch Bihar is shallow, black or brown coloured alluvial type with a significant presence of sand (sandy loam). Physiological formation of the soil is acidic with pH value lying between 4.7 and 5.8, is rich in nitrogenous substance and phosphate with considerable presence of organic

matter. As such, due to availability of plant nutrients, the soil has become very fertile and suitable for paddy (rice) cultivation. Being formed through gradual erosion and deposition of particles of the Himalayan mountainous region through the numerous rivers and rivulets, it can retain high moisture content and does not become water-logged during monsoon. The soil of the Eastern parts of the district, especially Tufangunj Sub-division are more fertile than that of the Western part which higher clay contents and lesser sand, making it harder than in other parts of the district.

Being a land with fertile soil, multi-layered cropping sequence is followed in many parts of the district. Around 50 per cent of the total district area is cropped twice or more. Mere 3 per cent lies in the upland terrace where usual agricultural cultivation is lesser and plantation crops are produced. Paddy (rice), especially, Aman and Boro and jute are the largest producing crop in the district. Jute is sowed during March-April, Aman rice is harvested during May-June-July followed by different vegetables and potato in November-December. October is usually dedicated for cultivation of various pulses and some seasonal vegetables are cropped all through the year depending upon the type. Tea plantation in the glided slopes is also prevalent in the district with 23 Tea Gardens covering an area of 2308 Hectares. Some plantations harvesting Coconut, Areca-nut and Betel Leafs are also spread across the district.

(iv) Land & Land-use Pattern : Land use and mapping of resources is one of the most important links to identify the dynamics of population growth and its sustainability. The land topography of Koch Bihar depicts generally flat plain, with slight South and South Eastern slope. Thus, the North-West of the district has marginally higher elevation than South and South-East portion. Numerous Himalayan rivers and rivulets pass through the district in South and South-East ward direction. The landmass of Koch Bihar being a recent alluvial formation created by the deposition from the erosion spawned by these rivers; is loose, sandy and permeable; primarily lying in the floodplains. Many parts of the land get overflowed during monsoon making occurrence of flood a periodic concern.

The details of the Land Utilisation in district Koch Bihar for last few years is given below.

Classification of Land Utilisation Statistics in Koch Bihar District

(In thousand Hectares)

Year	Forest Area	Area under Non-agri-cultural use	Barren & uncul-turable land	Permanent pastures & other grazing land	Land under misc. tree groves not included in Net area sown	Culturable waste land	Fallow land other than current fallow	Current fallow	Net area sown
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
2006-07	4.26	66.19	1.35	0.14	8.75	0.83	0.89	0.89	248.27
2007-08	4.26	66.63	2.30	0.08	7.71	0.96	0.04	1.45	248.14
2008-09	4.26	67.85	1.10	0.01	5.84	0.04	0.01	0.50	251.96
2009-10	4.26	68.08	0.85	0.04	5.63	0.12	0.04	1.20	251.36
2010-11	4.26	69.43	0.26	0.01	5.80	0.29	0.06	0.86	250.61

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

As revealed from the above Table, around 76 per cent of the total district landmass of 331.58 hectares is under crop cultivation (Net sown area). Forest cover in the district is very low (at 1.28 per cent only) and has remained almost static through the years. About 20 per cent of total district land has been identified as 'Area under Non-agricultural use'.

(v) Tenancy : Subsequent to the joining of feudatory state of Koch Bihar kingdom to that of Union of India after independence, considerable transformation took place in tenancy system of district Koch Bihar. Although the Tebhaga Movement did not have any significant impact on the land holdings of Koch Bihar, unlike the neighbouring districts of North Bengal, the holding of the land shifted to the ordinary people of the district in due course. Since the late seventies of twentieth century, the 'Operation Barga' came in to effect and holding of 'Khas' land gradually shifted towards the indigenous population especially Rajbangsis from the wealthy Jotdars and other landholders. The status of land holdings as per size class as per latest available information is given below :

Distribution of Operational Holdings over size-classes in Koch Bihar district

(Area in hectares)

	SIZE - CLASS												
	Marginal		Small		Semi-medium		Medium		Large		Total		Average size of holdings (hect.)
Year	No. of Holdings	Area of holdings	No. of holdings	Area of holdings	No. of holdings	Area of holdings	No. of holdings	Area of holdings	No. of holdings	Area of holdings	No. of holdings	Area of holdings	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)
2000-01	235934	128277	51459	79937	20200	57423	1764	8805	14	259	309371	274702	0.89
2005-06	249437	132758	50748	79525	20789	57528	432	2094	40	2042	321446	273947	0.85

Note : Marginal = Below 1.0 hectare
Small = 1.0 hectare and above but less than 2.0 hectares
Semi-medium = 2.0 hectares and above but less than 4.0 hectares
Medium = 4.0 hectares and above but less than 10.0 hectares
Large = 10.0 hectares and above. It includes mostly institutional holdings

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

The above Table depicts the distribution of Operational Holdings for the years 2000-01 and 2005-06. It can be observed to the above Table that like the other districts of West Bengal, the average size of the holdings in Koch Bihar is less than one hectare. The size-class wise segregation also shows that during 2005-06 maximum proportion of the number of holdings are marginal (77.60 per cent), followed by small holdings (15.79 per cent) and Semi-Medium (6.46 per cent). Although the number of large holdings increased from 14 of 2000-01 to 40 in 2005-06, the number is still considerably low. The area under Marginal holdings with size of less than 1 Hectare increased from 1,28,277 hectares (46.69 per cent of total area) of 2000-01 to 1,32,758 hectares (48.46 per cent of total area) in 2005-06 increasing the number of holdings from 2,35,934 of 2000-01 to 2,49,437. Reciprocating this, area under Medium-sized holding (having average size of 4 hectares to less than 10 Hectares) decreased drastically from 8,805 hectares to 2,094 hectares from 2000-01 to 2005-06.

(vi) Agriculture : Agriculture is the primary mode of living for most of population in district Koch Bihar. Principal agricultural produce of the district includes Rice (Paddy), Jute, Potato, different types of cucurbits (Melons, Watermelons, Musk Melons, Squash etc.), Tomato, Cabbage, Cauliflower etc. Among the different varieties of rice, Aman is the highest produced variety followed by Boro. Cultivation of Aus rice is very limited. Jute is cropped in low lands, especially in the riverine areas. Due to presence of sand in the soil, different types of Melons are produced in the district, Watermelon (Tarmuj) and Musk Melon (Bangi/Footi) are the two highest producing varieties. Potato is cropped in the areas which are comparatively closed to the hills. The usual cropping sequence of the district is Jute-Aman-Potato or Jute-Aman-Vegetable from the month of March to December. Sometimes Aman and Boro rice is also cultivated sequentially in the field – Aman from May to July and Boro from November to December. The production of principal crops, fruits and vegetables are given in the two Tables below :

Production of Principal Crops in Koch Bihar District

(in thousand Tonnes)

(vii) Irrigation : Being well fed by the seasonal rain for around 4-5 months, irrigation is still not very popular in district Koch Bihar. Till date less than half of the total areas sown in the district are having structured irrigation facilities. However, the area under irrigation is slowly increasing during last few years. Shallow Tubewells are the most popularly used mode of irrigation in the district. As there are numerous small rivers and streams flowing through the district, River-Lift Irrigation is also used in many areas. There are no Government Canals being utilised for irrigation purpose :

Area Irrigated by different sources in Koch Bihar district

(in thousand hectares)

Year	Area irrigated by

(viii) Animal Husbandry : District Koch Bihar possesses a large number of Cattles, Goats and Poultry animal. Rearing of domestic animal has been practiced in the district since long back. A traditional village household in Koch Bihar has a separate animal shelter for the live-stock and poultry. After independence special initiatives have been taken by the Government to improve the quality of live-stock and Poultry as well as general health of the animal and birds. The status of Live-stock and Poultry in district Koch Bihar as on 2010-11 is given in the following Table.

Number of Live-stock and Poultry in Koch Bihar District

(in number)

	Category	1989	1994	1997	2003	2007

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

During the Financial Year 2010-11, annual Milk production in district Koch Bihar was about 1,34,265 Metric Tonnes, Meat production was about 13086.46 Metric Tonnes and Wool production was about 6.57 Metric Tonnes. For ensuring quality of health issues for the live-stock and poultry, there is one District Veterinary Hospital, 5 Sub-Divisional level Health Centres and 12 C.D. Block level Health Centres in the district.

(ix) Fishery : Being a river-bound district, pisciculture has remained an important mode of economic activity of the inhabitants of Koch Bihar since ancient time. Almost all the Himalayan rivers passing through the district are abound with fish. The fishery stock available in the district can classified in four broad categories:

(I) Big fish with scales – Rui/Rohit, Katla, Mrigel, Kalbaus, Ilish (Hilsa), Chital, Fali/ Falui, Kursa/Bhetki etc.

(II) Small fish with scales – Khorsala, Borali, Khalisa/Kholse, Punti, Chanda, Koi etc.

(III) Big fish without scales – Aar/Ayr, Boal, Kacha, Bacha etc.

(IV) Small fish without scales – Pabda, Banshpata, Tengra, Singi, Magoor etc.

Beside these four broad categories, a variety of shell fish locally known as Icha and Prawns in different sizes are also found in the district. In many cases fish is caught using different traditional fishing gears like Jhakai, Palo, Thosa etc. made of Bamboo with Khalai/ Khalui – a fish-basket, also made of Bamboo.

Besides traditional fishing related activities, many Government schemes are also being implemented for improvement of status and produce of fish-products in the district. The status of pisciculture related activities in the district as reported by the District Fisheries Office of Koch Bihar and quoted in District Statistical Hand Book, Koch Bihar, 2010-11 is given below :

Status of Pisciculture in District Koch Bihar in the year 2010-11

Net area available for Pisciculture (in hectares)	Net area under Effective Pisciculture (in hectares)	No. of Govt. Schemes operated in the district	Expenditure ('000 Rs.)	Assistance to needy fishermen ('000 Rs.)	Number of persons engaged in the profession	Approximate Annual Production (Quintal)
6120.83	3157.4	21	2614	3666	147028	182829

Commercial fishery is an important means of livelihood in all of the 12 C. D. Blocks in district Koch Bihar. The following Table depicts the C. D. Block wise break up of area dedicated for fishery, intervention by Government, area under Pisciculture, number of persons engaged in the work vis-à-vis production for the year 2010-11 as reported by the District Fisheries Office of Koch Bihar.

Particulars of Fisheries in the C.D. Blocks of Koch Bihar district for the year 2010–11

Sl. No.	Name of the C.D. Block	No. of Govt. Schemes operated	Expen-diture ('000 Rs.)	Assistance to needy fishermen ('000 Rs.)	Net area available for pisciculture (hect.)	Net area under effective pisciculture (hect.)	No. of persons engaged in the profession	Approx. annual production (qtl.)

12	Sitai	1	4	250	442.20	175.50	9595	8142

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

Out of the twelve C.D. Blocks in the district, 4 C. D. Blocks have more intense Pisciculture activity and production remain around 20,000 quintal per annum, which are C.D. Block Coochbehar-I, C.D. Block Dinhata-I, C.D. Block Dinhata-II and C.D. Block Tufangunj-I. In 2010-11, C.D. Block Coochbehar-I recorded the highest production of 24,063 Quintals followed by C.D. Block Dinhata-II with 23,697 Quintals. In respect of employment generation, maximum individuals are engaged in fisheries is in C.D. Block Sitalkuchi (18,565), followed by C.-D. Block Dinhata-II (18,525). The highest Net area under effective pisciculture during the year 2010-11 is recorded in C.D. Block Dinhata-II (451.55 Hectares), followed by Coochbehar-I (410.88 Hectares) and Dinhata-I (392.82 Hectares). C. D. Blocks Dinhata-I and Dinhata-II have the highest proportion of net area under effective Pisciculture to that of net available area with 63 per cent and 55 per cent respectively.

(x) Industry : District Koch Bihar does not possess large industrial hubs and agriculture is traditional means of livelihood for most of the population. However, there is plenty of scope for improvement of Agro-based and allied industries in the district like Silk and Jute, which are the two most important produce of the district with significant possibility of development. Owing to the Sub-Tropical humid climate of the district, different silk producing plant and insects are grown with ease. Traditionally, silk varieties like Eri Silk, Mulberry Silk, Tasar, Muga Silk were grown in the district. However, presently only Mulberry and Muga have substantial quantity of production. The status of Silk Industry (Sericulture) in the district is given in the following Table.

Production in Sericulture Industry in Koch Bihar District

Year	Cocoons production		Value of production (Thousand Rupees)	
	Mulberry (Metric Tonnes)	Muga (Thousand Kahan)	Mulberry	Muga
2006-07	5.640	1.004	583.612	440.505
2007-08	5.923	1.114	693.217	518.922
2008-09	5.530	1.148	647.231	534.760
2009-10	5.600	1.159	676.690	544.000
2010-11	6.710	1.170	707.749	570.150

N.B. : 1 Ganda = 4 No, 1 Pon = 20 Ganda = 80 No, 1 Kahan = 16 Pon = 320 Ganda = 1280 No.

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

The above Table reveals that the production of both Mulberry and Muga Cocoons have increased gradually in the district during last few years. For Mulberry it increased by 1.070 MT and for Muga it has increased by 0.166 thousand Kahan during the period of 2006-07 to 2010-11.

The overall industrial status in the district based on the type of commodities being manufactured is provided in the following Table:

Selected Characteristics of Factories by Industry Group in Koch Bihar District for the year 2008-09

	Type of Industry as per NIC 2008	Number of Factories	Fixed Capital (Rs. in Lakh)	Invested Capital (Rs. in Lakh)	Number of Employees	Values of Input (Rs. in Lakh)	Values of Output (Rs. in Lakh)	Net Value added (Rs. in Lakh)	Net Income (Rs. in Lakh)
10	Manufacture of Food Products	5	275	748	229	2808	3147	309	255
12	Manufacture of Tobacco Products	4	20	93	1039	210	350	139	136
13	Manufacture of Textiles	2	5230	6224	1252	3390	4686	800	386
16	Manufacture of wood and products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials	13	676	2256	772	4887	5568	588	360
23	Manufacture of other non-metallic mineral products	1	6	19	10	31	44	12	12
45	Wholesale and retail trade and repair of motor vehicles and motorcycles	1	17	18	1	-	-	-2	-2

	All Industry	**31**	**7250**	**10385**	**3548**	**11682**	**14439**	**2037**	**1195**

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

As can be observed from the above Table that for the year 2008-09, out of 31 factories in district Koch Bihar, majority (13 factories) are engaged in manufacture of wood and products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials. Value of output is also highest in this sector, followed by Textiles and Food based industries. However, the largest source of employment generation in district Koch Bihar is the Textiles sector (1,252 employees). Net value added and net income generation are also highest in Textiles industry. As per District Statistical Hand Book, Koch Bihar, Govt. of West Bengal, during 2010-11, the number of registered Industrial Units in district Koch Bihar was 44 having average daily employment more than 2,700. Beside these, there are 8 food processing units, 1 High-Tech and 6 normal Green Houses for commercial floriculture in the district.

(xi) Trade & Commerce : The largest and most important centre for Trade and Commerce in district Koch Bihar is the district Head-Quarter Koch Bihar Municipality. Municipalities

of Haldibari, Mekhliganj, Dinhata, Mathhabhanga and Tufangunj are the other important location where a considerable proportion of total district trade takes place. Paddy (rice), Jute, vegetables and fruits like Tomato, Cabbage, Cauliflower, Brinjal, Melons and other cucurbits, Watermelon, Chilli, Ginger, Banana, Jackfruits etc. are main commodities traded in the markets. After recent development of Cold Storage and Food processing facilities, the trade of food-based commodities has also experienced significant growth. Along with these items, trade of Sericulture based commodities with State-Capital Kolkata, Siliguri and neighbouring state of Assam also take place at the important centres.

(xii) Transport : Koch Bihar district is lying at a distance of more than 600 km. from State capital Kolkata and is yet to be developed to the fullest in respect of Transport and Communications. Being a riverine county, construction of Railways and structured Road-Networks require building many Bridges and fly-overs across the water bodies, inducing larger expenditure. Thus, till date not all Sub-Divisional Head Quarters are well connected through Railway network from the district Head Quarter and the State Capital. 'Coochbehar State Railway' under the erstwhile feudatory State of Coochbehar was established as early as in 1891-92 connecting Coochbehar town (present day Koch Bihar Municipality) with Dewanhat and Gitaldaha with 5 intermediate stations. The Railway line, extended in due course, passed through some areas which falls under portions of present day Bangladesh. As a result, after independence, when this network was merged with Indian Railways, demarcation of international boundary and successive floods in the area caused many changes in the network. Presently New Coochbehar Railway station near Koch Bihar (M) town, is the most important station in the district and is well connected to Delhi, Mumbai, Bangalore, Chennai, Gauhati beside Kolkata. Coochbehar (old), Pundibari, Tufangunj, Baxirhat, Haldibari etc. are other important Railway Stations in the district and are connected through Broad Gauge and Metre Gauge railway networks.

Koch Bihar Airport in its remodeled form is also scheduled to function in near future.

Different types of road networks are spread throughout the district – Metalled Road, Unmetalled Road, Cart Track, Pack Track etc. National Highway 31 and State Highway 12A passes through the district.

Length of Roads Maintained by Different Agencies in the C.D. Blocks of Koch Bihar District for the year 2010-11

(In Kilometres)

Sl. No.	Name of C. D. Block	P.W.D.	Zilla Parishad	Gram Panchayat & Panchayat Samity	Prime Minister's Gramin Sarak Yojana	Total
1	Mekhliganj	64.37	27.50	409.64	45.89	547.40
2	Haldibari	36.00	13.32	142.32	37.47	229.11
3	Mathabhanga-I	72.70	19.00	346.89	72.36	510.95
4	Mathabhanga-II	79.00	32.11	558.56	42.80	712.47
5	Sitalkuchi	37.00	13.97	564.75	85.31	701.03

11	Dinhata-II	79.74	34.79	601.32	80.10	795.95
12	Sitai	20.00	7.26	218.43	30.65	276.34

(Source : District Statistical Handbook, Koch Bihar, 2010-11)

As seen from the Table above, longest road networks are spread over C.D. Blocks Coochbehar-I, Coochbehar-II and Tufangunj-II. On the other hand, due to presence many small riverine areas, flood plains and waterbodies, the length of road networks are comparatively small in C.D. Blocks Haldibari, Sitai and Mathabhanga-I.

Length of Roads Maintained by P.W.D., Zilla Parishad, Gram Panchayat and Panchayet Samity in Koch Bihar District

(in Kilometres)

Year	P.W.D.	Zilla Parishad	Gram Panchayat & Panchayat Samity	Prime Minister's Gramin Sarak Yojana
2006-07	813.00	353.70	6535.81	413.60
2007-08	817.00	330.17	7456.89	492.14
2008-09	819.00	330.17	7380.23	568.82
2009-10	822.00	305.01	7223.13	751.08
2010-11	823.00	305.01	7223.13	795.03

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

It can be observed from the above Table that around 80 per cent of total road network of the district is maintained by different Gram Panchayets and Panchayet Samity offices. PWD maintains around 9 per cent followed by road networks maintained by Prime Minister's Gramin Sarak Yojana (8.7 per cent).

The district well connected with bus service with different areas of West Bengal, neighbouring states of Assam and Bihar. The Head Quarters of Government run North Bengal State Transport Corporation lies at Koch Bihar district. Several private bus services are also available. Due to upsurge of tourism in recent years in the Dooars area, many private smaller vehicles are being used for travelling to nearby tourist spots.

(xiii) Electricity & Power : Responsibility of supplying electricity in district Koch Bihar lies on Government run West Bengal State Electricity Distribution Company (WBSEDCL), an organisation formed in 2007 from erstwhile West Bengal State Electricity Board (WBSEB). Although most of the villages in Koch Bihar has access to electricity, coverage of all households is yet to be achieved.

In order to improve the conditions, some new projects run by Government of India as well as Government of West Bengal have already been initiated. Under Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY), the poorest households who are Below Poverty Line (BPL) have been targeted and district Koch Bihar is among the 14 districts chosen for the State of West Bengal for implementation of this project. Another important project for electrification of rural areas is West Bengal Rural Household Electrification Programme (Balance). Under this scheme, specially formulated for electrification of rural households in district Jalpaiguri and Koch Bihar, those areas have been targeted where the electricity penetration is considerably low and coverage under other schemes for enhancement of electricity supply is poor. This programme also has propagated special initiatives for families Below Poverty Line.

The status of consumption of electricity across different sectors in district Koch Bihar is given in the following Table.

Consumption of Electricity by Different Sectors in Koch Bihar District

(in thousand K.W.H.)

Year	Domestic	Commercial	Industrial	Public lighting	Agricultural irrigation & dewatering	Public Water Works & Sewerage Pump	Miscellaneous	Total
2006-07	60130	27693	25030	1967	3611	2960	1728 *	123119
2007-08	66734	24968	13574	2109	2958	2576	---	112919
2008-09	70720	29410	15060	**	5210	**	14290	134690
2009-10	123792	44304	23588	3266	3503	4402	346	203201
2010-11	139298	53550	24772	3192	4723	4805	371	230711

Gram Panchayat : West Bengal is pioneer in implementation of the Panchayat System. It stands as a role model throughout the country. Since 1978 the Panchyat System has been fully functional in West Bengal. It is a three tier system comprising of the Zilla Parishad

(ZP) at the district level; the Panchayat Samities (PS) at the C.D. Block level and the Gram Panchayat (GP) at the village level which is the lowest level and consists of elected members from the respective villages. It has been performing a vital role as the self-government institution from village to district level having regular elections. These self-governing institutions now take vital roles in the development, planning and implementation from the villages to the district level.

Though there are few shortcomings, the Panchayat System has changed the village economy, social and political system in West Bengal. Due to land reforms and other village development programmes, the productions of agriculture have also increased significantly.

District Koch Bihar came into being on 19th January, 1950 through notification issued by the Government of West Bengal subsequent to cessation of authority, transfer of jurisdiction and power from the feudatory rulers of Koch Bihar kingdom on 28th August, 1948 and amalgamation to Union of India on 12th September, 1949. Prior to that that period, a different classification of land was used in the district, the smallest unit being *Taluk*, the characteristic of which is very close to present day *Mouza* or Census Village. Another important administrative unit was Pargana, which was constituted of clusters of *Taluks*, having characteristics close to present day Community Development Blocks and Sub-Divisions.

Immediately after independence, the ownership of the land was handed over to the *Jotedars* and the share croppers (called *Adhiyars – Adha* meaning half) were supposed to get 50-50 share, although it was not properly followed in most of the cases and the landless share croppers suffered most. After several attempts to redistribute the surplus land, in 1967, around 60,000 *bigha* of surplus land was acquired and redistributed. The three tier Panchayat system, like other districts of West Bengal, came in to existence in 1978. Sharecroppers, landless peasants and other similar entities were largely benefitted with the introduction of this system. As per West Bengal Panchayat Act, 1975, a pool of Gram Sabha form Gram Panchayat, the first tier. Alternatively, group of generally contiguous villages form a Gram Panchayat. Panchayat Samities are constituted of several Gram Panchayat and generally at par with Community Development Blocks. The Zila Parishad at the district level is in the highest tier of the system. At per records available with Census, during Census 2011, there were 1194 villages, 128 Gram Panchayat, 12 Panchayat Samity and 1 Zila Parishad in district Koch Bihar.

Census and Non-Census Concepts & Definitions

Census Concepts and Definitions

Building : A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, go-downs, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca Houses : Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, Stones (duly packed with lime or cement mortar), G.I/metal/asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

Kutcha Houses : Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, un-burnt bricks, bamboos, mud, grass, reeds, thatch, plastic/polythene, loosed packed stone, etc. Such houses are treated as Kutcha house.

Dwelling Room : A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a Census house is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House : A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

Village : The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area : The data in the Census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for

rural areas. The urban area comprises two types of towns viz. Statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows :

(a) Statutory Towns : All places with a municipality, corporation, cantonment board or notified town area committee etc. are known as statutory towns.

(b) Census Towns : All other places satisfying the following three criteria simultaneously are treated as Census Towns.

i) A minimum population of 5,000;

ii) At least 75 per cent of male working population engaged in non-agricultural pursuits;

and

iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

Urban Agglomeration : An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc. may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the exiting town as their continuous urban spread (i.e. an Out Growth). Each such town together with its outgrowth (s) is treated as an integrated urban area and is designated as an 'Urban Agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG) : The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc. educational institutions, post offices, medical facilities, banks etc. and physically contiguous with the core town of the UA.

City : Towns with population of 100,000 and above are called cities.

Household : A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a Census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking.

There may be one member households, two member households or multi-member households.

Institutional Household : A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggar's homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household : Households who do not live in buildings or Census houses but live in the open or roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, *mandaps*, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes :

The list of Scheduled Castes and Scheduled Tribes applicable for West Bengal is given hereunder :

: List of Scheduled Castes (Census 2011) :

1	Bagdi, Duley	2	Bahelia
3	Baiti	4	Bantar
5	Bauri	6	Beldar
7	Bhogta	8	Bhuimali
9	Bhuiya	10	Bind
11	Chamar, Charmakar, Mochi, Muchi, Rabidas, Ruidas, Rishi		
12	Chaupal	13	Dabgar
14	Damai (Nepali)	15	Dhoba, Dhobi
16	Doai	17	Dom, Dhangad
18	Dosadh, Dusadh, Dhari, Dharhi	19	Ghasi
20	Gonrhi	21	Halalkhor
22	Hari, Mehtar, Mehtor, Bhangi, Balmiki	23	Jalia Kaibartta
24	Jhalo-Malo, Malo	25	Kadar
26	Kami (Nepali)	27	Kandra
28	Kanjar	29	Kaora
30	Karenga, Koranga	31	Kaur
32	Keot, Keyot	33	Khaira
34	Khatik	35	Koch
36	Konai	37	Konwar
38	Kotal	39	Kurariar
40	Lalbegi	41	Lohar
42	Mahar	43	Mal
44	Mallah	45	Musahar
46	Namasudra	47	Nat
48	Nuniya	49	Paliya
50	Pan, Sawasi	51	Pasi
52	Patni	53	Pod, Poundra
54	Rajbanshi	55	Rajwar
56	Sarki (Nepali)	57	Sunri (excluding Saha)
58	Tiyar	59	Turi
60	Chain (in Malda, Murshidabad, Nadia & Dakshin Dinajpur districts)		

: List of Scheduled Tribes (Census 2011) :

1	Asur	2	Baiga
3	Bedia, Bediya	4	Bhumij
5	Bhutia, Sherpa, Toto, Dukpa, Kagatay, Tibetan, Yolmo		
6	Birhor	7	Birjia
8	Chakma	9	Chero
10	Chik Baraik	11	Garo
12	Gond	13	Gorait
14	Hajang	15	Ho
16	Karmali	17	Kharwar
18	Khond	19	Kisan
20	Kora	21	Korwa
22	Lepcha	23	Lodha, Kheria, Kharia
24	Lohara, Lohra, Lohar	25	Magh
26	Mahali	27	Mahli
28	Mal Pahariya	29	Mech
30	Mru	31	Munda
32	Nagesia	33	Oraon
34	Parhaiya	35	Rabha
36	Santal	37	Sauria Paharia
38	Savar	39	Limbu (Subba)
40	Tamang		

Language and Mother Tongue : As per the Census concept, each language is a group of mother tongues. The Census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in Census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate : A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate : Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level : The highest level of education a person has completed.

Work : Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker : A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'main worker'.

Marginal Worker : A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'marginal worker'.

Non-Worker : A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'non-worker'.

Cultivator : For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, *jowar*, *bajra*, *ragi*, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like – tea, coffee, rubber, coconut and betel nuts *(areca)*. The workers engaged in Plantation crops are recorded under "other workers".

Agricultural Labourer : A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household Industry Worker : Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker : A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work Participation Rate : Percentage of Workers (Main+Marginal) to total population.

Population Density : Population density is the number of persons inhabited per square kilometer of the area.

Age : Age is measured in terms of the completed number of years.

Sex Ratio : Number of females per 1,000 males in a population.

Non-Census Concepts and Definitions

Civic status of urban units : Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of U.A./town : Size-class of U.A./Town is based on the population size of the U.A./City/Town.

U.A.s/Towns with 100,000 and above population is classified as Class I U.A.s/Towns. Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000 to 19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area : The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City : The concept of 'Mega City' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cutoff point to identify a place as the Mega City. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega Cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 million and above population have been treated as Mega Cities and the same criteria of population have been adopted in 2011 Census.

Concepts used in VD and TD of DCHB :

1. Educational Amenities : The type of different educational facilities available in the village is given in numbers. Both Government and private educational facilities/institutions are considered for this-purpose. If there are composite schools like Middle schools with Primary classes, or Secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with primary classes, the number of Primary schools in the village are given as three and that of Middle school as one even though there may be only three educational institutions. So also in case of Secondary schools. For better understanding, the distinctiveness of different types of schools is depicted hereunder :

1.1 Pre-primary (PP) : Now-a-days, the children are sent to schools at a very early stage. Lot of pre-primary schools, private schools in particular, has come up in villages and towns. These may or may not be recognized by the competent authorities. Even many Secondary schools have classes starting from preprimary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school, etc.

1.2 Primary School (P) : Schools providing education from Standard 1 and upward up to and inclusive of Standard V are classified as Primary Schools.

1.3 Middle School (M) : Schools providing education from Standard VI and upward up to and inclusive of Standard VIII are classified as Middle Schools. A School with Class 1 to VIII is treated as two units, i.e. one Primary School and one Middle School.

1.4 Secondary School (S) : Schools providing education from Standard IX and upwards up to and inclusive of Standard X are classified as Secondary Schools. A composite school

with 1 to X standard is treated as three separate units and counted separately under the categories of Primary School, Middle School and Secondary School.

1.5 Senior Secondary School (SS) : Schools and colleges that provide education for Standards XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior Secondary Schools with Standard I and upwards up to Standard XII.

1.6. Degree College :

(i) Arts/Science/Commerce : These are all educational institutions that provide post-PUC level education leading to University degree/diploma in any subject or combination of subjects and also post-graduate levels of education. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

(ii) Engineering College (E) : It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B. Tech.) or post-graduate engineering degrees like M. Tech.

(iii) Medical Colleges : These are graduate/post-graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy etc. or post-graduate medical degrees like M.D or equivalent in the above branches of medicine.

1.7. Management College/Institute (MI) : It offers courses like Diploma in Management, Post-Graduate Diploma in Management, Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

1.8. Polytechnic (Pt) : An Institution providing certificate/diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be Government or Private.

1.9. Vocational School/ITI : It is a vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Trainings offered by Industrial Training Institutes (ITI) fall under this category.

1.10. Non-formal Education/Training Centre (NFTC) : Non-vocational education centers, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification, and age. These education centers are open to all.

1.11. Special School for Disabled : There are Government and Government recognized institutions/organizations engaged for providing education to different groups of disabled persons.

2. Medical Facilities :

2.1 Hospital-Allopathic and Hospital-Alternative medicine : A hospital is an Institution, where sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31 to 500 depending upon whether these are sub-district, sub-divisional or district hospitals. If there are hospitals providing facilities under different systems of medicines such as, Allopathy, Ayuveda, Unani and Homeopathy etc. these details are given separately.

(a) Allopathy : The system of medical practice, which treats disease by the use of remedies which produce effects different from those produced by the disease under treatment.

(b) Ayurveda : Ayurveda means 'Science of life'. The philosophy of Ayurveda is based on the theory of *Pancha Mahabhootas* (Five elements) of which all the objects and living bodies are composed of. The combinations of these five elements are represented in the

form of Tridosha : Vata, Pitta and Kapha. These three 'doshas' are physiological entities of living beings. Ayurveda developed into eight distinct specialities, i.e., Internal Medicine, Pediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of virility. Two types of treatments, Preventive and Curative, are given in Ayurveda.

(**c) Unani :** Treatment of Unani consists of three components, namely, preventive, promotive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Artharitis. Jaundice, Filarisis, Eczema, Sinusitis and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani System emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movement and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

(d) Homoeopathy : Treatment in Homoeopathy, which is holistic in nature, focuses on an individual's response to a specific environment. Homoeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animal sources. Homoeopathic medicines do not have any toxic, poisonous or side effects. Homoeopathic treatment is economical as well and has a very broad public acceptance.

2.2 Community Health Centre (CHC) : Community Health Centres are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. 4 PHCs are included under each CHC thus catering approximately 80,000 populations in tribal/hilly areas and 1,20,000 populations for plain areas. CHC is a 30 bedded hospital providing specialist care in Medicine, Obstetrics and Gynaecology, Surgery and Paediatrics.

2.3 Primary Health Centre (PHC) : A Primary Health Centre is the first contact point between a village community and the Government medical officer. A PHC covers a population of 20,000 in hilly, tribal or difficult areas and 30,000 populations in plain areas with 4-6 indoor/observation beds. It acts as a referral unit for 6 sub-centres. It has a medical officer and para medical staff.

2.4 Primary Health Sub-Centre (PHS) : A Primary Health Sub-centre is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 populations in hilly/tribal/desert areas. Each PHS has a sanctioned strength of one male and one female health worker.

2.5 Maternity and Child Welfare Centre (MCW) : It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counseling, delivery, immunization of children with check-up etc.

2.6 TB Clinic (TBC) : The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialized units such as the District Tuberculosis Centre (DTC) act as referral centres. TB clinics are established by the Government of India under the National Tuberculosis Control Programme and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the district and it also functions as a specialized referral centre. The functions of sub-district level Tuberculosis Unit (TU) are implementation, monitoring and supervision of TB control activities in its designated geographical areas.

2.7 Health Centre : Clinic where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private or public health facility that is devoted to the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.

2.8 Dispensary : Place where patients are treated and medicines provided but with no in-patient facility. Immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.

2.9 Veterinary Hospital : Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animals like cows, buffaloes etc. in rural areas.

2.10 Mobile Health Clinic : These are Mobile vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated days to deliver the health care services. The services generally offered are OPD, ante-natal and post-natal, B.P. examination, X-ray, ECG, Immunization, First Aid etc.

2.11 Family Welfare Centre : Check-up and counseling is provided to the pregnant and married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.

2.12 Nursing Home : A nursing home is a long–term care facility licensed by the state that offers 24-hour room and board and health care services including basic and skilled nursing care, rehabilitation and a full range of other therapies., treatments and programs to old and sick people. The difference between a hospital and a nursing home is that a nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

2.13 Medicine Shop : A shop which sells drugs and medicines of any system of medicine viz. allopathic, homeopathic, ayurvedic or unani medicines, is considered as a medicine shop. Sometimes some shops and Paan shops also keep ordinary medicines, like Crocin, Burnol etc. These shops are not taken as medicine shops.

3. Drinking water : The following are the main source of drinking water facility(ies) available in the village.

3.1 Tap Water-treated : This source of drinking water refers to a source of drinking water which is provided to the villagers through pipes within their premises or to the villagers through common taps (public taps/community water points) by the Government departments, local bodies, panchayats, public or private estate agencies, etc. after treatment. Such a source is treated as 'Tap water from treated source'.

3.2 Tap Water-un-treated : If the villagers are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water, or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from un-treated source'.

3.3 Covered Well (CW) : A well that is (1) covered on sides from run-off water (i.e. excess water from rain, snowmelt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animals cannot fall down the hole. It is considered as covered well.

3.4 Un-covered Well (UW) : A well which is (1) un-covered on sides from runoff water, (2) un-covered from bird droppings and animals; or (3) both.

3.5 Hand Pump (HP) : Hand pump means where ground water is taken out manually by operating a hand pump.

3.6 Tube Well/Borehole (TW) : Tube well denotes the ground water source from where ground water is taken out through electrical or diesel pump. Spring, River/Canal, Tank/Pond/Lark are self-explanatory.

4. Community Toilet Complex : Community Toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Sauchalaya or likes.

5. Rural Sanitary Mart or Sanitary Hardware Outlet (RSM) : It is an outlet dealing with the materials, hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other

sanitation and hygiene accessories required for individuals, households and the environment in the rural areas.

6. Community bio-gas or recycle of waste for productive use : Many of the solid wastes having economic values but put for disposal can be recycled for reuse. For example, food, cow dung, leaves, vegetable, paper, wood, plastics, old cloth etc. However, some of the wastes are not recyclable. These are carbon paper, thermo coal etc. When recyclable solid wastes are subjected to decomposition, bio-gas could be produced under favourable conditions. These systems of recycling may be there at the village level organized by Gram Panchayats with technical support from Governments or non-government organizations.

7. Communication and Transport Facilities :

7.1 Post Office (PO) : Self-explanatory.

7.2 Sub-Post Office (SPO) : Sub-post office includes Extra Departmental Post Offices and those providing franchise postal services and also part time services in lieu of some honorarium. The limited postal services include sale of stamps, receipt of letters and money orders and also distribution of letters.

7.3 Post & Telegraph Office (PTO) : Telegraph office is set up by the Government to enable people to send or receive telegrams. If the phonogram facility is available (though the Telegraph office may not be equipped with Morse Code Transmitters), the village is considered to be having telegraph facility.

7.4 Telephones (landlines) : If the village is having the Public Call Office (PCO) either run by the Post Office or by individuals or by a private shop, then the village is considered to be having telephone facility.

7.5 Public Call Office (PCO)/Mobile PCO : Self-explanatory.

7.6 Mobile Phone Coverage : Mobile phones are now very common particularly in urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

7.7 Internet Cafes/Common Service Centres (CSC) : If the village is having the facility of Cyber Cafes or shops owned by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all government services in an integrated manner at the door step of the citizen at an affordable cost even in the remotest corners of the country through a combination of it based as well as non-IT based services.

7.8 National Highway (NH) : These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH-2 for easy identification.

7.9 State Highway (SH) : These are roads of a state linking district headquarters and important cities within a State and connecting them with NHs or Highways of the neighboring States.

7.10 Major District Roads (MDR) : These are important roads within a district, serving areas of production and markets and connecting these with each other or with the main Highways.

7.11 Other District Roads (ODR) : These are roads serving rural areas of production and providing them with outlet to market centres, taluka headquarters, block development headquarters or other main roads.

7.12 Village Road : The approach to village refers to the state of road etc. leading to the village. This is to see whether the village is approachable both in fair and foul weather, and whether it is inaccessible only for some time in the year.

7.13. Black-Topped (Pucca) Road (BTR) : A road provided with a bituminous surfacing.

7.14 Gravel (Kuchha) Road (GR) : A road constructed using well compacted crushed rock or gravel material (coarse sand, small stones), which is fairly resilient and does not become slippery when wet.

7.15 Water Bound Macadam (WBM) : This is the road layer made of crushed or broken mixture of sand and rock fragments mechanically interlocked by rolling and voids filled with screening and binding material with the assistance of water.

7.16 Foot Path (FP) : A trodden path for the use by pedestrians and in some cases bicycles. The Foot Paths are not suitable for vehicular traffic except bicycles in some cases. Most of the interior/forest villages are connected by Foot Paths.

8. Banks and Credit Societies : Banking facility means a place where a person can operate a bank account.

8.1 Commercial Bank (CB) : These may be banks wholly owned by the Government of India. or by Indian or Foreign Companies.

8.2 Cooperative Banks (Coop. B) : A co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their bank. Cooperative banks are often created by persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Cooperative Societies Act. The cooperative banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.

8.3 Agricultural Credit Society (ACS) : Major objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural production, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.

8.4 Non-Agricultural Credit Society (NCS) : These societies include consumer cooperative societies and also credit cooperative societies of certain categories of persons like teachers, health workers etc.

9. Miscellaneous Facilities :

9.1 Self-help Group (SHG) : Self-Help Groups are groups of between 10-25 women created by either NGOs or under the SGSY *(Swarnjayanti Gram Swarozgar Yojana)* for the purposes of meeting local credit needs. They are sometimes called *Mahila Mandal*s in villages.

9.2. Public Distribution System (PDS) Shop : The shops through which some essential commodities are sold by the government at subsidized rates. They may also be known as ration shops and control shops.

9.3. *Mandis*/Regular Market : These are those clusters of shops with or without fixed premises which are open on at least six days a week and opens at least from morning hours to dusk.

9.4. Weekly *Haat* : These are those clusters of shops with or without fixed premises which are open once a week.

9.5. Agricultural Marketing Society : It is a common platform to analyse the issues among all the individuals and institutions in the field of agricultural marketing.

9.6. Nutrition Centre : Integrated Child Development Services (ICDS) : The Integrated Child Development Services (ICDS) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as; Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.

9.7. Anganwadi Centre : Each centre under the ICDS scheme is run by an Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the Centre and provide food to the children.

9.8. Accredited Social Health Activist (ASHA) : ASHA is a health activist in the community who will create awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.

9.9. Sports Club/Recreation Centre : Indoor and out-door games are arranged by the Club and activities like wrestling, Judo Karate etc. are also done there.

9.10. Cinema/Video Hall (CV) : If regular cinema houses licensed by Government are available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.

9.11. Public Library : Books are kept there which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or *Panchayat* or any influential person. Free service or nominal charges are made for using the facility.

9.12. Public Reading Room : Here the public may read newspapers and magazines. These may be sponsored by Government or Local Body or *Panchayat* or any influential person.

9.13. Newspaper Supply : The availability of the Newspaper(s), both in English or vernacular, in the village is considered to having the said facility.

10. Availability of Electricity/Power : If power is actually available, whatever may be the form of its use, it is indicated affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment, etc. it is considered that electricity is available. Supply of electricity is considered available even when there is a temporary ban on new domestic connections. Connections to residential houses, bungalows, clubs, hostels and hospitals run on non-commercial basis, charitable, educational and religious institutions are included in the domestic category.

10.1 Power Supply for domestic use : This category includes electricity used only for domestic consumption.

10.2 Power supply for agricultural use : This category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

10.3 Power supply for commercial use : This category includes electricity connections given for workshops, industries etc. or for any commercial purposes.

10.4 Power supply for all uses : This category includes electricity connection is available for domestic use, agricultural use, and for any commercial purposes.

11. Land Use Pattern : The land use area of the villages is given in hectares. The land use patterns in the Village Directory conform to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has

recommended the maintenance of records of land use pattern under the 9 categories as indicated in the Village Directory.

12. System of Drainage : Generally, by drainage system, we mean the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in towns, which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system. There may be possibility of the town having both closed as well as open drainage systems.

13. Type of Latrines : The data on various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit Latrine, Flush/Pour Flush Latrine and Service Latrine.

(i) Pit System : The latrines are attached to the pit that is dug into the ground for the reception of night soil, are reckoned as pit latrine.

(ii) Flush/pour flush : A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush latrine uses water poured by hand for flushing (no cistern is used).

(iii) Service : Type of latrine from where night soil is removed manually by scavengers. All other types of latrines are covered under “Others” category.

14. Protected Water Supply - Source and capacity of Storage system : There are various sources of water supply and its storage system in the town.

14.1 Service Reservoir : A service reservoir is a water storage container that holds clean water after it has been treated in a water plant, and before it is piped to the end users. These containers are covered, and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer within the water supply system so that water supplies can be maintained across periods of varying demand.

14.2 River Infiltration Gallery : Infiltration Galleries are capable of supplying large quantities of water, and are used where wells are unable to supply water needs, i.e. where an impermeable rock barrier affects well efficiency, or where surface water sources are too shallow for intake screens. Infiltration galleries are one or more horizontal screens placed adjacent to (on-shore), or directly underneath (bed-mounted), a surface water source.

14.3 Bore Well Pumping System : A bore well is a well of 6" to 12" in diameter drilled into the earth for retrieving water. The depth of a bore well can vary from 50 feet to 3000 feet. Water is pumped out to surface through electricity/generator.

14.4 Pressure Tank : Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

15. Road Lighting (Points) : Road lighting means the number of street lights that are maintained in the town.

16. Home Orphanage : Orphanage is the name to describe a residential institution devoted to the care of orphans – children whose parents are deceased or otherwise unable to care for them. Parents, and sometimes grandparents, are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a ward of the state, and orphanages are a way of providing for their care and housing.

17. Working Women's Hostel : These may be recognised or non-recognised by any public authority. The data on number of working women's hostels available in the town are collected with number of seats.

18. Old Age Home : There are two types of Old Age Homes in India. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelter, food, clothing and medical care. The second type is the "Paid" home where care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in India and they are well worth considering.

19. Stadium : A stadium is a place, or venue, for (mostly) outdoor sports, concerts or other events, consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or sit and view the event.

20. Auditorium/Community Hall : These are the places where meetings, social functions etc. are organised.

Analysis of Data
Census Findings
and
Inset Tables
Based on Primary Census Abstract (Tables 1-35)
Village and Town Directory Data (Tables 36-45)

Census Findings

(a) Distribution of Population in Rural and Urban Areas :

The total population of Koch Bihar district as per 2011 Census is 28,19,086 of which 25,29,652 resides in rural areas and 2,89,434 in urban areas. The population distribution of Koch Bihar district for the last six decades has been shown in Table 1 below with percentage to total in bracket.

Table 1 : RURAL AND URBAN POPULATION IN KOCH BIHAR DISTRICT WITH PERCENTAGE TO TOTAL IN BRACKET (1951-2011)

Sector/ Census Year	1951	1961	1971	1981	1991	2001	2011
1	2	3	4	5	6	7	8
Total	**671158**	**1019806**	**1414183**	**1771643**	**2171145**	**2479155**	**2819086**
Rural	620978	948360	1317531	1649383	2001648	2253537	2529652
	(92.5)	(93.0)	(93.2)	(93.1)	(92.2)	(90.9)	(89.7)
Urban	50180	71446	96652	122260	169497	225618	289434
	(7.5)	(7.0)	(6.8)	(6.9)	(7.8)	(9.1)	(10.3)

It can be observed from the above Table that the total population of the district has increased continuously from 1951 to 2011.The percentage of rural population has increased from 92.5 in 1951 to 93.2 in 1971 then decreased to 89.7 in 2011 Census. Alternatively percentage of urban population has decreased from 7.5 in 1951 to 6.8 in 1971 and then increased to 10.3 in 2011.

(b) Size-Class and Status of Towns with Population, Growth Rate, Density of Population, Sex Ratio, Work Participation Rate, Literacy Rate, Religion, Availability of University Education in the District :

Size-Class and Status of Towns with Population :

As per 2011 Census there are six Municipalities in Kochbihar district viz Koch Bihar Municipality, Dinhata Municipality, Mathabhanga Municipality, Tufanganj Municipality, Haldibari Municipality and Mekliganj Municipality and twelve Census Towns. Population size wise class of towns as per Census classification is shown in Table 2 below :

TABLE 2 : POPULATION SIZE CLASS AND STATUS OF TOWNS - 2011

Sl. No.	Town Name	Size Class	Population		
			Person	Male	Female
1	801646-Koch Bihar (M)	II	77935	39014	38921
2	801648-Dinhata (M)	III	36124	18344	17780
3	801645-Mathabhanga (M)	III	23890	12059	11831
4	308326-Khagrabari (CT)	III	23122	11733	11389
5	308212-Guriahati (CT)	III	21064	10647	10417
6	801647-Tufanganj (M)	III	20998	10684	10314
7	801643-Haldibari (M)	IV	14404	7306	7098
8	308329-Takagach (CT)	IV	12418	6375	6043
9	801644-Mekliganj (M)	V	9127	4664	4463
10	308328-Chakchaka (CT)	V	8582	4426	4156
11	308211-Kharimala Khagrabari (CT)	V	7844	3936	3908
12	308456-Chhota Laukuthi (CT)	V	5480	2791	2689
13	308402-Kamat Phulbari (P) (CT)	V	5339	2743	2596
14	308327-Baisguri (CT)	V	5021	2577	2444
15	308325-Baneswar (CT)	VI	4841	2534	2307
16	307872-Nagar Changrabandha (CT)	VI	4483	2251	2232
17	308213-Dhaliabari (CT)	VI	4383	2265	2118
18	308587-Bhangri Pratham Khanda (CT)	VI	4379	2277	2102

The above Table shows that, Koch Bihar Municipality falls in Class-II category with population of 77,935, Dinhata Municipality, Mathabhanga Municipality and Tufanganj Municipality alongwith 2 Census Towns viz. Khagrabari (CT) and Guriahati (CT) belong to Class-III category, Haldibari Municipality and Takagach (CT) belong to Class-IV category, Mekliganj Municipality alongwith 5 Census Towns are in Class-V category and rest 4 Census Towns of the district belong to Class-VI category.

Growth Rate :

The decadal growth rate is one of the important indicators of population dynamics of a district as well as a country. In the following Table 3 the decadal growth rate of Koch Bihar district can be observed.

TABLE 3 : DECADAL GROWTH RATE OF POPULATION IN KOCH BIHAR DISTRICT (1951-2011)

T/R/U	1951-61	1961-71	1971-81	1981-91	1991-2001	2001-2011
1	2	3	4	5	6	7
Total	**52.4**	**38.7**	**25.3**	**22.5**	**14.2**	**13.7**
Rural	53.3	38.9	25.2	21.4	12.6	12.3
Urban	42.4	35.3	26.5	38.6	33.1	28.3

It is observed from the above Table that the total decadal growth rate of population of district Koch Bihar has followed a decreasing trend from 52.4 per cent during 1951-61 to 13.7 per cent in 2001-2011 and rural decadal growth rate has also followed a similar trend. The urban growth rate has followed decreasing trend i.e. from 42.4 per cent in 1951-61 to 28.3 per cent in 2001-2011 except 1981-91 where it has increased compared to the earlier decade i.e. 1971-81.Both rural and urban growth rate of the district has been recorded highest during 1951-61.

Density of Population :

The Density of Population of Koch Bihar district from 1961 to 2011 is shown in Table 4 below :

TABLE 4 : DENSITY OF POPULATION IN KOCH BIHAR DISTRICT (1961-2011)
(per sq. km.)

T/R/U	1961	1971	1981	1991	2001	2011
Total	**305**	**418**	**523**	**641**	**732**	**832**
Rural	280	392	491	596	674	762
Urban	3969	4184	4282	5648	5458	4198

The above Table shows that total density of population of the district has increased from 305 per sq. km. in 1961 to 832 per sq. km. in 2011. Similarly the rural density of population has also increased from 280 per sq. km. in 1961 to 762 per sq. km. in 2011. It is also observed from the above Table that the density of urban population has followed an increasing trend up to 2001 but in 2011 Census it has decreased to 4198 per sq. km. from 5458 per sq. km in 2001 Census.

Sex Ratio :

Sex ratio is an important demographic indicator for ascertaining the gender balance of the population and it is compiled for every Census year. The following Table 5 shows the sex ratio of Koch Bihar district :

TABLE 5 : SEX RATIO IN KOCH BIHAR DISTRICT, 1951-2011

	Sex Ratio		
Census Year	Total	Rural	Urban
1951	855	867	713
1961	890	899	774
1971	916	923	837
1981	935	936	927
1991	935	933	951
2001	949	947	964
2011	942	939	974

It is observed from the above Table that the sex ratio of district Koch Bihar in 2011 Census is 942 of which rural is 939 and urban is higher than that of total and rural with 974. Total sex ratio of the district depicts an increasing trend up to 2001 except 1981 and 1991 where it remained same and in 2011 census it has decreased. The rural sex ratio also followed an increasing trend except 1991 and 2011 where it has decreased compared to that of the previous one whereas the urban sex ratio always followed an increasing trend up to 2011 Census.

Work Participation Rate :

Work Participation Rate shows the proportion of working population to total population in an area and is computed as the percentage of total workers (main + marginal) to total population.

The following Table 6 shows the Work Participation Rate for the district as well as the State for rural and urban areas :

TABLE 6 : PERCENTAGE OF TOTAL WORKERS (MAIN+MARGINAL) TO TOTAL POPULATION (1951-2011)

	West Bengal			Koch Bihar		
Year	Total	Rural	Urban	Total	Rural	Urban
1951	34.7	32.6	40.9	29.8	29.7	31.4
1961	33.2	32.7	34.7	32.7	33.1	27.8
1971	27.9	27.2	30.1	28.0	28.4	23.6
1981	30.2	30.3	29.8	32.1	32.8	25.8
1991	32.2	33.2	29.6	34.9	36.3	25.9
2001	36.8	37.9	33.9	40.8	42.1	31.7
2011	38.1	38.7	36.7	41.9	42.6	37.8

Note : Since 1981 Census, Workers are being classified as Main workers and Marginal workers

It can be seen from the Table that total Work Participation Rate of the district was lower than that of State up to 1991 and in 2001 and 2011 Census it was higher than that of State. Both total and rural Work Participation Rate of the district maintain increasing trend from 1981. The urban Work Participation Rate decreased from 31.9 in 1951 to 26.6 in 1981 and then increased up to 2011 Census. The total and rural Work Participation Rate of the State has been decreased upto 1971 and then increased upto 2011 Census. Urban Work Participation Rate of the State has decreased upto 1991 and then increasing up to 2011.

The gender-wise distribution of main workers to total population is shown as Table 7 below :

TABLE 7 : PERCENTAGE OF MAIN WORKERS TO TOTAL POPULATION BY SEX (1951-2011)

	West Bengal			Koch Bihar		
Year	Persons	Male	Female	Persons	Males	Females
1951	34.7	54.8	11.3	29.6	50.4	5.2
1961	33.2	54.0	9.4	31.8	56.8	3.7
1971	27.9	48.8	4.4	27.6	51.4	1.7
1981	28.3	48.7	5.8	29.0	53.0	3.4
1991	30.2	50.7	8.0	30.6	53.3	6.3
2001	28.7	47.0	9.1	30.4	50.3	9.5
2011	28.1	46.3	9.0	31.4	51.7	10.0

Note : Since 1981 Census, Workers are being classified as Main workers and Marginal workers

The above Table shows that the percentage of main workers to total population for Koch Bihar district in Census 2001 and 2011 are 30.4 and 31.4 respectively. For the State as a whole it was 28.7 in 2001 Census and 28.1 in 2011 Census. In the State level the figure is gradually decreasing in the last three decades (1991 to 2011) while at the district this figure increasing from 30.6 (1991) to 31.4 (2011). The lowest percentage of

main workers to total population for the district is recorded in 1971 (at 27.6) and for the State the lowest has also been observed in Census 1971 (at 27.9).

Gender wise distribution shows that the proportion for male main workers in the district is following decreasing trend up to 1971 i.e. from 50.4 per cent in 1951 to 51.4 per cent in 1971, then increased in 1981 Census (53.0 per cent) and in 1991 Census (53.3 per cent), decrease in 2001 Census to 50.3 per cent and again increase to 51.7 per cent in 2011 Census. But for female counterpart the percentage do not follow any specific trend. The lowest percentage of main workers to population for the district for total and female is recorded in 1971 and that for male is observed in 2001. The percentage of female main workers for the State has decreased from 11.3 in 1951 to 9.0 in 2011 and for the district also it has increased from 5.2 in 1951 to 10.0 in 2011.

Literacy Rate :

Literacy rate of the population is described as the percentage of literates in the age group of seven years and above. Table 8 shows the sex-wise comparative literacy trend for the State and the district :

TABLE 8 : COMPARATIVE LITERACY RATE BY SEX AND RESIDENCE, WEST BENGAL KOCH BIHAR DISTRICT WITH CHANGE IN DECENNIAL PERCENTAGE POINT IN PARENTHESIS (1951-2011)

Year	Total/ Rural/ Urban	West Bengal			Koch Bihar

		(7.6)	(4.7)	(10.9)	(8.9)	(5.0)	(12.9)
	R	72.1	78.4	65.5	88.4	91.6	85.0
		(8.7)	(5.3)	(12.3)	(3.2)	(1.3)	(5.2)
	U	84.8	88.4	81.0	88.7	91.8	85.5
		(3.5)	(2.2)	(5.2)	(5.4)	(4.0)	(7.0)

Note : Due to change in minimum age for attaining literacy, the definition of literacy rate slightly varied over the decades

It can be seen from the above Table that State literacy rate remained higher than that of district Koch Bihar from 1951 to 2011. This is applicable both for male and female literacy rate except for male literacy rate in 1981. The literacy rate for the State has increased from 25.0 in 1951 to 76.3 in 2011 whereas for the district it has increased from 17.1 in 1951 to 74.8 in 2011Census.

Religion :

Decennial Census also collects data on religion. The following Table shows the position of six major religious communities of the district since 1961 Census.

TABLE 9 : POPULATION BY RELIGION IN KOCH BIHAR DISTRICT (1961-2011)

Year	Hindu	Muslim	Jain	Christian	Buddhist	Sikh	Other Religion and persuasions	Religion Not Stated	Total Population
	1	2	3	4	5	6	7	8	9
1961	775514	242371	867	745	107	202	---	---	1019806
	(76.1)	(23.8)	(0.1)	(0.1)	(0.0)	(0.0)			(100.0)

	(78.6)	(21.3)	(0.1)	(0.1)	(0.0)	(0.0)			(100.0)
1981	1399844	368176	2000	1333	273	14	3	---	1771643
	(79.0)	(20.8)	(0.1)	(0.1)	(0.0)	(0.0)	(0.0)		(100.0)
1991	1659733	506728	2093	1467	353	215	52	504	2171145
	(76.4)	(23.3)	(0.1)	(0.1)	(0.0)	(0.0)	(0.0)	(0.0)	(100.0)
2001	1871857	600911	2193	2162	474	330	489	739	2479155
	(75.5)	(24.2)	(0.1)	(0.1)	(0.0)	(0.0)	(0.0)	(0.0)	(100.0)
2011	2087766	720033	1869	4122	445	449	158	4244	2819086
	(74.1)	(25.5)	(0.1)	(0.1)	(0.0)	(0.0)	(0.0)	(0.2)	(100.0)

Note : Figures in parenthesis indicate percentage to total population.

It is observed from the above Table that during 2011 Census, out of total district population of 28,19,086, majority of the population belong to Hindu Community with a population share of 74.1 per cent followed by Muslims (25.5 per cent). It is also observed from the Table that the percentage of Hindu population of the district has an increasing trend up to 1981 and then followed decreasing trend up to the last Census i.e. 2011. On the other hand, the percentage of Muslim population has a decreasing trend up to 1981 and then followed increasing trend from 23.3 per cent in 1991 to 25.5 per cent in 2011 Census. As per Census 2011, only 0.1 per cent population belongs to Jains and Christians community each.

Availability of University Education in the District :

TABLE 10 : AVAILABILITY OF UNIVERSITY EDUCATION IN KOCH BIHAR DISTRICT

Sl. No.	Name of the University	Date of Establishment	Address	Territorial Jurisdiction
1	Uttar Banga Krishi Viswavidyalaya	1st February, 2001	P.O. - Pundibari, Dist. - Cooch Behar	Maldah, Dakshin Dinajpur, Uttar Dinajpur, Darjiling, Jalpaiguri, Koch Behar

The above Table shows that Koch Bihar district has one famous University viz. Uttar Banga Krishi Viswavidyalaya. The university was established on 1st February, 2001. The territorial jurisdiction of this University spread over Maldah district, Dakshin Dinajpur district, Uttar Dinajpur district, Darjiling district, Jalpaiguri district and Koch Behar district.

(c) Mother Tongue, Scheduled Castes and Scheduled Tribes in the District from earlier Census Decades :

Mother tongue and language are the two most important characteristics of a population. As per Census definition, mother tongue is the language spoken in childhood by the person's mother to the person. The Table below shows the population by mother tongue for Koch Bihar district since 1961. It is observed from the Table that as per Census 2001, Bengali is the mother tongue for 90.3 per cent of the population of the district followed by Hindi by 1.6 per cent. Only 0.6 per cent of the population of the district have returned their mother tongue as Telugu.

Scheduled Castes and Scheduled Tribes Population :

One of the important information collected in every decennial Census is the population statistics on Scheduled Castes and Scheduled Tribes. The list containing the name of Scheduled Castes and Scheduled Tribes varies from State to State. The SC/ST list of for West Bengal for Census 2011 is provided in Chapter 8 (ii) "Census Concepts and Definitions" of this publication.

Table 12 : SCHEDULED CASTES AND SCHEDULE TRIBES POPULATION IN KOCH BIHAR DISTRICT (1961-2011)

Note : Figures within bracket indicate decennial growth rate

The above Table shows the distribution of Scheduled Castes and Scheduled Tribes population in Koch Bihar district since Census 1961. The decadal variation of population with respect to the previous decade is shown in the parenthesis. It is observed from the above Table that although the absolute population figure for Scheduled Castes population is gradually increasing over the decades, the decadal growth rate of Scheduled Castes population has followed a decreasing trend since the 1961-1971 decade till the last Census. This trend is followed for rural area also except in the decade 1981-1991 when a marginal increment has been noticed (from 33.2 per cent in 1971-1981 Census to 33.8 per cent in 1981-1991 Census). Also the decadal growth rate of urban area follows a decreasing trend with an exception during the decade 1971-1981 when the growth rate of 28.6 in 1961-1971 jumped to 154.0 per cent in 1971-1981 but then the rate took a downward move. The decadal growth rate of total Scheduled Castes population was highest in 1961-1971 decade and the lowest in 2001-2011 decade.

In case of Scheduled Tribes population also, it has followed an increasing trend in absolute terms since 1961. The decennial growth rate for Scheduled Tribes population followed decreasing trend till 2011 except in 1981-1991 Census when the rate climbed to 18.5 from 17.4 per cent in 1971-1981 Census. For rural area also the Scheduled Tribes growth rate follows the same trend as that of Scheduled Tribes total. However, the growth rate for urban area does not follow any specific trend. The decadal growth rate of Scheduled Tribes population in urban area was highest in the decade 1971-1981 and the lowest was in 1981-1991.

Note : The population of OG's was counted in corresponding C.D. Block in 2001, but in 2011 it is counted in corresponding Statutory Town

The above Table 1 shows the decadal change of population in total as well as rural and urban areas of the district Koch Bihar. Taking consideration of all the 12 C.D. Blocks in the district, Dinhata-II C.D. Block has recorded the highest decadal growth rate with 18.74 per cent and Haldibari C.D. Block has the lowest with 10.76 per cent. Going by the district rural frame, the highest decadal growth rate is also recorded in Dinhata-II C.D. Block with 18.74 per cent and the lowest in Cooch Behar-II C.D. Block with 4.21 per cent. It is also observed from the above Table that the urban decadal growth rate of the district at 28.28 per cent is much higher than that of rural and total growth rates recorded as 12.25 per cent and 13.71 per cent respectively. The highest decadal growth rate among Statutory Towns is recorded in Mathabhanga Municipality with 13.19 per cent and the lowest in Mekliganj Municipality with (-)15.76 per cent. Among the C.D. Blocks, the maximum growth of urban population is observed in Cooch Behar-II (172.83 per cent) followed by Cooch Behar-I only 27.39 per cent. Out of 12 C.D. Blocks, 9 C.D. Blocks did not have any urban population in 2001 but in 2011, out of 12 C.D. Blocks 3 C.D. Blocks have considerable number of population.

Overall, percentage of urban population of the district has been increased merely from 9.10 per cent in 2001 Census to 10.27 per cent in 2011 Census.

	Total :	89 (8 %)	313502	294883	23 (2 %)	198022	184310

The above Table shows that there are 1,132 numbers of inhabited villages in the district which are spread over 12 C.D. Blocks. Among them, Cooch Behar-I C.D. Block has the highest number with 142 such villages and Sitai C.D. Block and Tufanganj-II C.D. Block both hold the lowest position with 53 each such villages. In Koch Bihar district, the highest population range with size of 10,000 and above population have been reported in 23 villages (2 per cent) and they are lying over 9 C.D. Blocks. On the other hand the lowest population range of less than 200 population is found in 70 (6 per cent) villages

only. The highest number of villages 305 (27 per cent) is found in the population range of 2,000-4,999 which is followed by 263 (23 per cent) villages in the population range 1,000-1,999.

* De-classified means the Census Towns of 2001 Census which failed to satisfy the demographic and economic criteria.

The above Table 3 depicts the changes in rural-urban status of jurisdictional units of district Koch Bihar in Census 2011 as compared to Census 2001. With regard to Census Towns, the Table shows that 8 new Census Towns have been created in 2011 Census which are spread over 5 C.D. Blocks out of 12 C.D. Blocks in the district. It can also be observed from the Table that no town has been declassified in the district and no town has been wholly merged with other town (s) in the last decade.

Table 4 : Sex Ratio of the State and the District, 1901-2011

Census Year	West Bengal			Koch Bihar		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	945	994	650	881	892	540
1911	925	982	614	873	885	529
1921	905	971	591	877	888	875
1931	890	961	578	886	896	621
1941	852	945	559	879	893	608
1951	865	939	660	855	867	713
1961	878	943	701	890	899	744
1971	891	942	751	916	923	837
1981	911	947	819	935	936	927
1991	917	940	858	935	933	951
2001	934	950	893	949	947	964
2011	950	953	944	942	939	974

Note : Sex Ratio has been defined here as the number of female per 1000 male

Table 4 shows the comparison of rural and urban sex ratio of Koch Bihar district with the State sex ratio from Census 1901 to 2011. It can be seen from the Table that the district had a lower sex ratio than that of the state from 1901 to 1931 but in 1941, the figures are recorded in the reverse order. Again, from 1961 to 2011, the district sex ratio has exceeded the State figures during this period except in 2011. In comparing the rural sex ratio of the State with the same counterpart of district, it has been observed that the

State figures exceeded the district figures during the decades from 1901 to 2011. Alternatively, if rural and urban sex ratios of the district are compared during the decades, then it is seen that urban sex ratios shows lower than that of rural counterpart from 1901 to 1981 and a reverse trend is recorded from 1991 to 2011 for the same.

Table 5 : Sex Ratio by Sub-district, 2011

	District : Koch Bihar – 329	942	939	974

Sex Ratio District (Rural) : 952

Table 5 represents the sex ratio of 12 C.D. Blocks and all Statutory Towns taken together (Area not under any Sub-district) of Koch Bihar district by residence. The highest sex ratio in total among the C.D. Blocks is observed in Sitai C.D. Block with 970 and the lowest with 915 is recorded in Cooch Behar-II C.D. Block. The highest sex ratio in total is recorded in Statutory Towns (Area not under any Sub-district) with 982, if all C.D. Blocks and Statutory Towns are taken together in the district. In rural frame, Sitai C.D. Block has the highest sex ratio with 970 and Cooch Behar-II C.D. Block has the lowest with 908. Out of 12 C.D. Blocks, only 6 C.D. Blocks in the district have urban population in Census Towns. The highest sex ratio in urban areas is recorded in Mekliganj C.D. Block (992) followed by Statutory Towns (Area not under any Sub-district) with 982 and for the district as whole it is 974 only.

Table 6 : Sex Ratio by C.D. Blocks (Rural), 2011

Sl. No.	Name of the C.D. Block	Sex Ratio

11	0036-Sitai	970
12	0037-Sitalkuchi	966
	Total :	939

Table 6 represents the sex ratio of Koch Bihar district for rural areas under C.D. Block. Out of 12 C.D. Blocks, 7 C.D. Blocks have sex ratio greater than that of district average rural sex ratio of 939 and the remaining C.D. Blocks have sex ratio lower than the district rural sex ratio. Sitai C.D. Block has the highest sex ratio with 970, whereas Cooch Behar-II C.D. Block has the lowest with 908.

Table 7 : Sex Ratio of Rural Population by Ranges, 2011

Range of Sex Ratio for villages	Number of Inhabited villages	Percentage of villages in each range	Population 2011	Percentage distribution of population
1	2	3	4	5
Less than 700	6	0.53	952	0.04
700 - 749	8	0.71	19131	0.76

1000 - 1099	145	12.81	133666	5.28
1100+	17	1.50	5611	0.22
District : Koch Bihar (329)	1132	100.00	2529652	100.00

Sex Ratio District (Rural) : 939

It is observed from the above Table that out of total 1132 villages, the maximum number of villages (453) of Koch Bihar district falls in the sex ratio ranges of 900-949 covering a population of 53.55 per cent. There are 6 villages in the district, the sex ratio ranges of less than 700 with population 952 only. On the other hand, 145 villages in Koch Bihar district have sex ratio in the range 1000-1099 and 17 villages have sex ratio more than 1100. It has been observed that only 0.22 per cent of population have sex ratio of more than 1100 and 5.28 per cent of population falls in the category of 1000-1099.

Table 8 : Sex Ratio of Towns, 2011

18	801648-Dinhata (M)	(M)	969
	Sex ratio (Urban) district :		974

The above Table 8 shows the Sex Ratio in the urban areas (Towns) of district Koch Bihar. It can be seen from the above Table that Koch Bihar (M) has recorded the highest sex ratio with 998 followed by Kharimala Khagrabari (CT) with 993. The lowest sex ratio is observed in Baneswar (CT) with sex ratio 910 which is much lower than the district urban sex ratio of 974. Mekliganj (M) has recorded the lowest sex ratio among Statutory Towns with 957.

Table 9 above shows the child sex ratio (0-6 population) for rural and urban areas separately for Koch Bihar district. Out of the total 0-6 population of 3,44,645 majority belongs to rural area with population 3,19,225 and rest 25,420 belongs to urban areas. The sex ratio of 0-6 age group population of the district is 948 with rural and urban segregation of 949 and 937 respectively. The highest child sex ratio is recorded in Sitai C.D. Block (967) followed by Sitalkuchi C.D. Block (964) and the lowest for the same is recorded in Mekliganj C.D. Block with 931 only. For the urban areas also, child sex ratio in the urban part of Mekliganj C.D. Block is recorded as the highest with 964. The 0-6 age group population of all the Statutory Towns i.e. area not under any Sub-district of the district is 14,985 with the sex ratio of 946.

Table 10 : Sex Ratio of population in the Age Group 0-6 for C.D. Blocks (Rural), 2011

Table 10 represents the sex ratio and population in the age group 0-6 years for rural areas under C.D. Blocks of Koch Bihar district. The total rural population in this age group of all the C.D. Blocks of this district is 3,19,225 out of which 1,63,815 are males and 1,55,410 are females. For all the C.D. Blocks, Cooch Behar-I C.D. Block has the highest number of 0-6 population with 37,513 followed by Dinhata-I C.D. Block with 34,943 and Cooch Behar-II C.D. Block with 33,600. The lowest population in the age group 0-6 is observed in Haldibari C.D. Block with 13,194. The sex ratio in the age group of 0-6 population in this district in rural areas is 949. It is observed from the Table that 5 C.D. Blocks, out of total 12, have higher sex ratio than that of district total. The highest sex ratio is observed in Sitai C.D. Block with 967, whereas lowest is in Mekliganj C.D. Block with 930.

Table 11 : Sex Ratio of Rural population in the Age Group 0-6 by ranges, 2011

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage distribution of Villages	Population 2011	Percentage distribution of population
1	2	3	4	5
Less than 700	85	7.51	4931	1.54

District : Koch Bihar (329)	1132	100.00	319225	100.00

Sex Ratio District (Rural) : 949

Table 11 shows the distribution of sex ratio of rural population in the age group 0-6 by ranges of sex ratio of Koch Bihar district. It is evident from the above Table that maximum number of inhabited villages (237) is in the sex ratio range of 1000-1099 which is followed by 193 villages in the range of more than 1100. However, in respect to percentage distribution of population, 23.06 per cent population fall in range of 950-999, followed by 21.43 per cent in the sex ratio range of 1000-1099 and 20.93 per cent in the sex ratio range of 900-949. The lowest range of sex ratio i.e. less than 700 are found in 85 number of villages with a total population of 4,931 (1.54 per cent) and 37 numbers of villages with 1.50 per cent of population are in the sex ratio range of 700-749.

Table 12 represents sex ratio of the population in the age group 0-6 of all the towns of Koch Bihar district. The total population in this age group of all the towns in this district is 25,420 out of which 13,125 are males and 12,295 are females. Bhangri Pratham Khanda (CT) has the lowest population in this age group with 433 and Khagrabari (CT) has the highest population in this age group among the Census Towns with 2,110. Koch Bihar (M) has also recorded a considerable population in this age group with 5,917. The district urban sex ratio in the age group of 0-6 is 937. Out of 12 Census Towns, Dhaliabari (CT) has the highest sex ratio of 1050 and Baneswar (CT) recorded the lowest sex ratio (851). Among the Statutory Towns, Mathabhanga (M) has recorded the highest sex ratio of 999 followed by Koch Bihar (M) with 974. Dinhata (M) has recorded the lowest child sex ratio with 894 which is much lower than that of the district average of 937.

Table 17 represents the number and percentage of Scheduled Castes and Scheduled Tribes population in towns of district Koch Bihar. It is observed from the Table that the total population of all the towns of the district is 2,89,434 out of which 63,679 (22.0 per cent) are Scheduled Castes and 1,253 (0.43 per cent) are Scheduled Tribes. In absolute terms, the highest number of Scheduled Castes population is found in Koch Bihar (M) with 10,518 followed by Mathabhanga (M) with 5,708 and the lowest population in Scheduled Castes category is found in Dhaliabari (CT) with 129 Scheduled Castes population. But, in percentage terms, the highest proportion of Scheduled Castes population is observed in Kamat Phulbari (P) (CT)) with 64.9, followed by Baisguri (CT) with 50.07 and Mekliganj (M) with 48.98. In case of Scheduled Tribes, Koch Bihar (M) has maximum number of population in absolute terms with 408 and the lowest is in Dhaliabari (CT) and Bhangri Pratham Khanda (CT) with 2 inhabitants each. The highest percentage of Scheduled Tribes population is found in Mekliganj (M) with 1.19 and the lowest is in Takagach (CT) with 0.02 per cent.

Table 18 : Sex Ratio among Scheduled Castes and Scheduled Tribes (Rural) in C.D. Blocks, 2011

12	0037-Sitalkuchi	968	1123
	Total :	940	932

Table 18 shows the sex ratio among Scheduled Castes and Scheduled Tribes population in rural areas of district Koch Bihar. It is observed from the Table that rural sex ratio of Scheduled Castes and Scheduled Tribes population of the district is 940 and 932 respectively. In case of Scheduled Castes population, out of 12 C.D. Blocks of the district, 7 C.D. Blocks have the higher or equal sex ratio than that of district ratio. The highest sex ratio of Scheduled Castes population is found in Sitai C.D. Block (970) followed by Sitalkuchi C.D. Block (968) and Haldibari C.D. Block (956) and the lowest is observed in Dinhata-II C.D. Block (915). Among the Scheduled Tribes population, five C.D. Blocks in the district have sex ratio more than 1000. The lowest sex ratio of Scheduled Tribes population is found in Cooch Behar-II C.D. Block (767).

Table 19 : Sex Ratio among Scheduled Castes and Scheduled Tribes in Towns, 2011

	District (Urban) : Koch Bihar – 329	974	919

Table 19 represents the sex ratio among Scheduled Castes and Scheduled Tribes population in towns of Koch Bihar district in 2011 Census. The Table shows that district urban sex ratio among the Scheduled Tribes (919) is bit lower than that of Scheduled Castes (974). Among 18 urban units of Koch Bihar district, sex ratio of 1000 or more has been recorded for Scheduled Castes and Scheduled Tribes population in 5 and 8 urban units respectively. The highest sex ratio among Scheduled Castes is observed in Nagar Changrabandha (CT) (1,041) followed by Dhaliabari (CT) (1,016) and the lowest is recorded in Bhangri Pratham Khanda (CT) with 899. The highest sex ratio among Scheduled Tribes population is found in Baisguri (CT) (1,533) followed by Tufanganj (M) (1,324) and Guriahati (CT) (1,188) and the lowest for same are observed in Takagach (CT) and Kamat Phulbari (P) (CT) with 500 each.

Table 20 above depicts the distribution of number of literates, illiterates, literacy rate and the gap between the male- female literacy rates at Sub-district level in the district of Koch Bihar. The district comprises of 12 C.D. Blocks and out of which only 6 are having urban population in their constituent Census Towns (CTs). The total number of literates in absolute terms in the area not under any Sub-district in the above Table is 1,51,166 indicating the literates of all the Statutory Towns. The total literacy rate of the district is 74.78 and the male and female literacy rates in the district are 80.71 and 68.49 respectively with a male-female literacy rate gap of 12.22. The Table also shows a significant variation in rural (73.16) and urban (88.36) literacy rate in the district. It also shows that, the gap in the male-female literacy rates in the rural and urban areas are 12.96 and 6.64 respectively in the district. Out of 12 C.D. Blocks in the district, the highest literacy rate is recorded in Cooch Behar-II C.D. Block with 81.39 and the lowest is in Sitai C.D. Block with only 62.79. The highest literacy rates for both male and female among the C.D. Blocks is recorded in Cooch Behar-II C.D. Block with 86.43 and 75.85 respectively and the lowest for both male and female among the C.D. Blocks is recorded in Sitai C.D. Blocks with 69.17 and 56.21 respectively. The highest male–female literacy rate gap is recorded as 15.37 in Mekliganj C.D. Block and the lowest with 10.58 in Cooch Behar-II C.D. Block. The literate population (1,51,166) of area not under any Sub-district of the above Table is the urban literate population of the six Statutory Towns. The literacy rate for the area is 90.25 of which for male it is 93.16 and for female it is 87.3. The male-female gender gap in literacy rate in this area is low at 5.86.

Table 21 shows the distribution of total number of literates and illiterates, literacy rate by sex and gap in male-female literacy rate in the rural component only. It is quite similar to the previous Table 20 with an exception of exclusion of urban data. The overall literacy rate in the 12 C.D. Blocks of the district is 73.16. The gap in male-female literacy rate in rural part of the district is 12.96. It is to be noticed that only 4 C.D. Blocks out of the total 12 C.D. Blocks in the district have recorded higher literacy rate than that of district average. The highest male and female literacy rate in the district is found in Cooch Behar-II C.D. Block with 85.86 and 74.5 respectively. However, the highest male-female gap in literacy rate among the C.D. Blocks is recorded in Mekliganj C.D. Block with 15.53 followed by Mathabhanga-I with 15.12 and the lowest for the same is observed in Cooch Behar-II C.D. Block with 11.36.

Table 22 : Distribution of Villages by Literacy Rate Range, 2011

100	3	0.27	32	0.00
District : Koch Bihar (329)	1132	100.00	2529652	100.00
Literacy Rate for District :	73.16			

Table 22 reflects the distribution of villages in Koch Bihar district by range of literacy rate. It is seen that one village having 200 population falls under the category of 1-10 range of literacy rate and also 4 villages with population of 560 falls in the range of 31-40 in the above Table. It is observed that in the Table that highest number of villages (525) of 55.40 per cent of population fall in the category of 71-80 range of literacy and only 161 villages fall in the next category of 81-90 range of literacy. Remarkably, only 12 villages having 0.45 percentage distribution of population falls in the literacy rate of 91-99 category. The optimum level range of 100 has been achieved in 3 villages with 32 population in the district.

Table 27 above gives the literacy status of Scheduled Tribes population in the rural areas of Koch Bihar district. The number of literates, illiterates, literacy rate by sex and the male-female literacy rate gap in rural areas (C.D. Blocks) are shown separately in the Table. The average Scheduled Tribes literacy rate in the district is 65.51 with a male literacy rate and female literacy rate of 73.69 and 56.68 respectively. The average gap in male-female literacy rate of Scheduled Tribes in the district is given as 17.01. Rural unit wise data shows that the highest Scheduled Tribes population literacy rate is found in Cooch Behar-I C.D. Block with 78.45 and the lowest in Mekliganj C.D. Block with 50.5. Gender-wise analysis of literacy rate reflects that the highest male and female literacy rate among Scheduled Tribes is found in Cooch Behar-I C.D. Block with 83.75 and 72.27 respectively. Sitai C.D. Block, among Scheduled Tribes recorded the lowest male literacy rate (56.52) and for female literacy rate, it is recorded in Mekliganj C.D. Block with 40.9. The highest male-female literacy rate gap is found in Mathabhanga-II C.D. Block with 20.94 followed by Cooch Behar – II with 18.43 and the lowest in Sitai C.D. Block with 0.08.

Table 28 : Distribution of Villages by Literacy Rate Range for Scheduled Tribes population (Rural), 2011

100	109	29.78	293	1.74
District : Koch Bihar (329)	366	100.00	16872	100.00
Literacy rate for District :	65.51			

The above Table shows the distribution of villages in the district by literacy rate range, number and percentage of villages having Scheduled Tribes population and number and percentage of Scheduled Tribes population. It reveals from the Table that the Scheduled Tribes population of 16,872 in the district is distributed in 366 villages. Range of literacy rate has been distributed into 12 categories. The maximum Scheduled Tribes population 5,377 covering 31.87 per cent of the total Scheduled Tribes population of the district fall in the range of literacy rate of 61-70 and is distributed in 48 villages (13.11 per cent). The second highest number of Scheduled Tribes population (4,697) with 27.84 per cent are spread over 34 (9.29 per cent) villages and have the range of literacy rate of 51-60. On the lower side, there are 49 villages in the district with 65 inhabitants where all of them are illiterates and one village with population 183 falls in the literacy range of 1-10 category. It is also noticeable that there are 109 villages in the district having Scheduled Tribes population (293) achieved the optimum level literacy range of 100.

Table 29 gives detailed information on literacy pertaining to the Scheduled Tribes population of the urban units of the district consisting of Statutory Towns and Census Towns. The total literate population under Scheduled Tribes category in the district is 954 (515 male and 439 female). Among the 12 Census Towns, maximum number of literates are recorded in Khagrabari (CT) (101) followed by Kharimala Khagrabari (CT) (50). On the other hand, Koch Bihar (M) has the highest number of literates under Scheduled Tribes category among the Statutory Towns with 357 followed by Dinhata (M) with 87. The average Scheduled Tribes literacy rate in the urban areas of the district is 85.1 with a male and female literacy rate of 89.88 and 80.11 respectively. It is observed from the Table that Kamat Phulbari (P) (CT), Baneswar (CT), Dhaliabari (CT) and Takagach (CT) achieved the cent per cent literacy rate for both the male and female category, although the Scheduled Tribes population is very negligible. It is also noticed that 10 Census Towns (CTs), out of total 12 Census Towns (CTs) and two Statutory Towns out of six, achieved the cent percent literacy rate for Scheduled Tribes male population. For the female, five Census Towns (CTs) also acquired the cent per cent literacy category but no Statutory Towns could place its position in the same category. The average gap in male-female literacy rate is 9.77 at the urban units of the district. The most striking feature in gender wise break-up of the literacy rate in the district is that in Chhota Laukuthi (CT) the gender differential is reverse.

Table 30 : Number and percentage of Main workers, Marginal workers and Non-workers by Sex in Sub-districts, 2011

The above Table 30 represents the number and percentage of Main workers, Marginal workers and Non-workers by gender at Sub-district level i.e. at the C.D. Blocks and Area not under any Sub-district i.e. for all the Statutory Towns as a whole of Koch Bihar district. The total population of Koch Bihar district is 28,19,086 which includes 14,51,542 males and 13,67,544 females. As per Census definition, Total worker includes Main and Marginal workers and for district Koch Bihar, a population of 11,27,977 covering 40.01 per cent of total district population are recorded as Total workers. The remaining population of 59.99 per cent belongs to Non-workers category (16,91,109 persons). The percentage of Main workers is 31.44 and Marginal workers are 8.57 of the total population of the district. It has been observed that the male Total workers (58.24 per cent) dominate over the female Total (20.67 per cent) in the district in Census 2011. In case of Main workers, the gender wise analysis shows the same trend as in case of Total workers. In the Main workers category, a wide gap between male (51.66 per cent) and female (9.98 per cent) workers could be seen as shown in the above Table. But a reverse picture is reflected in case of Marginal workers for the district, where proportion of female Marginal workers (10.69 per cent) are higher than that of male Marginal workers (6.58 per cent). Among the C.D. Blocks, the highest percentage of Main workers is found in Sitai C.D. Block at 33.32 and the lowest is recorded in Tufanganj-II C.D. Blocks with 29.50 per cent. For male Main workers, the highest proportion among the C.D. Blocks is recorded in Dinhata-II C.D. Block at 54.26 per cent and for female Main workers highest is recorded in Sitai C.D. Block (at 14.30 per cent). On the other hand, both the lowest proportion of male Main worker with 49.85 per cent and female Main workers with 7.87 per cent is found in Tufanganj-II C.D. Block. For all the Statutory Town in the district, the percentage of Main worker is only 31.54 shown as Area not under any Sub-district. Despite having a comparatively low proportion of female Main workers (10.47 per cent) in this Area not under any Sub-district, the proportion of male Main workers is recorded as high as 52.23 per cent.

As per Census definition, Marginal workers category is defined as the persons who have worked at least one day but less than 6 months in the preceding year. In case of Marginal workers, C.D. Block wise data reveals that highest proportion of Marginal workers is found in Sitai C.D. Block (12.35 per cent) and the lowest is observed in Haldibari C.D. Block (6.41 per cent). It is also observed that the highest proportion of male Marginal workers among the C.D. Blocks is found in Tufanganj-II C.D. Block (8.59 per cent) while the lowest is observed in Sitalkuchi C.D. Block (4.39 per cent). Sitai C.D. Block has recorded the highest proportion of female Marginal workers (17.48 per cent), followed by Mathabhanga-I C.D. Block with 16.50 per cent and the lowest is recorded in Cooch Behar-II C.D. Block with 6.74 per cent. On the other hand, for Statutory Towns, i.e. Area not under any Sub-district reflects the lowest proportion of Marginal workers in the district under all three categories with respect to the total population of the district in the respective category, i.e. persons (3.62 per cent), males (3.80 per cent) and females (3.43 per cent) are the lowest proportion of Marginal workers among all charges for that particular category.

In case of Total workers, among the C.D. Blocks in district Koch Bihar, it is seen that the highest (45.67 per cent) and lowest (37.31 per cent) are recorded in Sitai C.D. Block and Cooch Behar-II C.D. Block respectively. Similarly, among the C.D. Blocks, the highest percentage of male and female Total workers are found in Dinhata-II C.D. Block with 59.97 and Sitai C.D. Block with 31.77 respectively while the lowest percentage of male (55.60) and female (14.84) Total workers are recorded respectively in Sitalkuchi C.D. Block and Cooch Behar-II C.D. Block. For Area not under any Sub-district, i.e. in the Statutory Towns it is observed that the percentage of Total workers is 35.16 out of which 56.04 are male and female are 13.90.

For Non-workers, the highest and lowest percentage is found in Cooch Behar-II C.D. Block with 62.69 and Sitai C.D. Block with 54.33 respectively. The highest and lowest proportion of male Non-workers is registered respectively in Sitalkuchi C.D. Block (44.40 per cent) and Dinhata-II C.D. Block (40.03 per cent). Cooch Behar-II C.D. Block and Sitai C.D. Block have recorded the highest (85.16 per cent) and lowest (68.23 per cent) proportion of female Non-workers respectively. For area not under any Sub-district, i.e. in the Statutory Towns 59.99 per cent population are recorded as Non-workers out of which 41.76 per cent are male and 79.33 per cent are female.

As a whole, 43.96 per cent male Non-workers and 86.10 per cent female Non-workers reside in the Statutory Towns in district Koch Bihar. Thus, it can be inferred that, for district Koch Bihar, the existence of higher proportion of female Non-workers are prevalent across all jurisdictional units.

Table 31 shows the distribution of number and percentage of Main workers, Marginal workers and Non-workers by gender in the rural areas of C.D. Blocks of the district Koch Bihar. Of the total rural population of 25,29,652, Main workers accounts for 31.41 per cent, Marginal workers 9.10 per cent and combining Main and Marginal workers, i.e. the Total workers accrues to 40.51 per cent. On the other hand, 59.49 per cent of total rural population in the district is Non-worker. The male Main workers comes to 51.58 per cent of total rural male population, which is more than five times higher than that of the proportion of female Main workers which is 9.91 per cent of total female population in the rural areas. Among the Marginal workers, percentage of female (11.52) is higher than their male counterpart (6.83). In respect of Total workers (Main workers and Marginal workers), proportion of male workers to total male population inhabited in the rural areas of the district (58.42 per cent) is more than two times higher than the proportion of female Total workers to that of total female population in the district (21.43 per cent). In case of Non-workers, females dominate (78.57 per cent) over the males (41.58 per cent). C.D. Block wise analysis reveals that Sitai C.D. Block has the highest percentage (33.32) of Main workers, while Tufanganj-II C.D. Block has the lowest percentage (29.55). Gender wise analysis shows that the highest proportion of male Main workers is in Dinhata-II C.D. Block with 54.26 per cent, followed by Mathabhanga-II C.D. Block (52.13 per cent) and Dinhata-I C.D. Block (51.87 per cent). The lowest proportion of male Main workers is recorded in Tufanganj-II C.D. Block with 49.83 per cent. The highest female Main workers are recorded in Sitai C.D. Block (14.30 per cent) and lowest is in Cooch Behar-II C.D. Block (7.75 per cent). In case of Marginal workers, Sitai C.D. Block has scored the top position with 12.35 per cent and lowest is recorded in Haldibari C.D. Block with 6.41 per cent. The highest male Marginal workers are in Tufanganj-II C.D. Block with 8.60 per cent and lowest is in Sitalkuchi C.D. Block at 4.39 per cent. The highest female Marginal workers are recorded in Sitai C.D. Block with 17.48 per cent and lowest is in Haldibari C.D. Block with 7.35 per cent. Sitai C.D. Block has highest percentage of population (45.67) in respect of Total workers and Cooch Behar-II C.D. Block has recorded lowest with percentage of 37.71. The highest male Total workers are in Dinhata-II C.D. Block with 59.97 per cent and lowest is in Sitalkuchi C.D. Block with 55.60 per cent. The highest female Total workers are recorded in Sitai C.D. Block with 31.77 per cent and lowest is in Cooch Behar-II C.D. Block 15.25 per cent. In respect of Non- workers, Cooch Behar-II C.D. Block has highest proportion with 62.29 per cent and Sitai C.D. Block has lowest proportion with 54.33 per cent. The highest male Non-workers are found in Sitalkuchi C.D. Block with 44.40 per cent and lowest is in Dinhata-II C.D. Block with 40.03 per cent. The highest female Non-workers are recorded in Cooch

Behar-II C.D. Block with 84.75 per cent and lowest is in Sitai C.D. Block with 68.23 per cent.

Table 32 : Number and percentage of Main workers, Marginal workers and Non-workers by Sex in Towns, 2011

Sl. No.	Name of Town	Persons/ Males/ Females	Total population	Main workers		Marginal workers		Total workers (main and marginal workers)		Non workers

Table 32 shows distribution of number and percentage of Main workers, Marginal workers and Non-workers by sex at the Town level of the district Koch Bihar. Of the total urban population of 2,89,434, the proportion of Main workers are counted as 31.75 per cent, Marginal workers 3.92 per cent, Total workers 35.68 per cent and Non- workers 64.32 per cent. The proportion of male Main workers to total district urban male population is 52.33 per cent, which is five times higher than that of the proportion of female Main workers to that of the district urban female population at 10.63 per cent. In respect of Marginal workers in the district, the percentage of males and females are 4.29 and 3.55 respectively. The proportion of female Non-workers is 85.82 per cent which is much higher than males, having a figure of 43.39 per cent. In respect of Total workers male Total workers having 56.61 per cent is more than three times higher than female Total workers with 14.18 per cent. Urban unit-wise analysis shows that Dhaliabari (CT) has the highest percentage (43.74) of Main workers, while Nagar Changrabandha (CT) is in the lowest position (25.72 per cent). The male Main workers percentage recorded in Dhaliabari (CT) with 57.88 per cent is the highest among urban units and lowest in Changrabandha (CT) with 45.67 per cent. The highest female Main workers are found in Dhaliabari (CT) with 28.61 per cent and lowest is in Chhota Laukuthi (CT) with 4.46 per cent. Kamat Phulbari (P) (CT) has highest proportion of Marginal workers (8.33 per cent) and Baisguri (CT) has the lowest percentage at 1.18. The highest male Marginal workers are in Nagar Changrabandha (CT) with 9.64 per cent and lowest is in Baisguri (CT) with 0.93 per cent. The highest female Marginal workers are recorded in Kamat Phulbari (P) (CT) with 9.98 per cent and lowest is in Baisguri (CT) with 1.43 per cent. In respect of Total workers, Dhaliabari (CT) has highest percentage i.e. 47.64 and lowest is in Chakchaka (CT) with 33.72 per cent. The highest male Total workers are in Dhaliabari (CT) with 61.85 per cent and lowest is in Baneswar (CT) with 54.30 per cent. On the contrary, Dhaliabari (CT) has the highest female Total workers at 32.44 per cent and Chakchaka (CT) has the lowest with 8.40 per cent.

Considering the Non-workers residing in the towns of district Koch Bihar, Chakchaka (CT) has highest proportion at 66.28 per cent and Dhaliabari (CT) has lowest with 52.36 per cent. The highest male Non-workers are found in Baneswar (CT) with percentage of 45.70 and lowest is in Dhaliabari (CT) with percentage of 38.15. The prevalence of Non-working females are existing in the town areas of the district also and the highest female Non-workers are recorded in Chakchaka (CT) with 91.60 percentage. The lowest proportion of female Non-workers is recorded in Dhaliabari (CT) with percentage of 67.56.

Table 33 shows the sex wise distribution of workers by number and percentage, engaged in four major economic activities at the Sub-district level i.e. for all the C.D. Blocks and Statutory Towns (Area not under any Sub-district) of the district Koch Bihar. As per Census definition, all economic activities performed not as a Cultivator, Agricultural labourer or Household industry worker are covered under Other worker. In absolute figures, there are 11,27,977 total workers in district Koch Bihar, out of which 34.74 per cent earn their livelihood as Agricultural labourers followed by Cultivators (32.34 per cent) and Other workers (29.32 per cent). Only 3.60 per cent of Total workers (40,593 in absolute figures) are engaged as Household industry workers in the district. Gender wise analysis reveals the male workers engaged as Cultivators (35.81 per cent), Other workers (31.45 per cent), Agricultural labourers (30.45 per cent) and Household industry workers are only 2.28 per cent in the district. In case of female workers, it is seen that nearly half of them are engaged in the category of Agricultural labourers (47.56 per cent) followed by Other workers (22.94 per cent) and Cultivators (21.95 per cent). In case of female workers, only 7.54 per cent are categorised as Household industry workers, but in the same category, male workers represent only 2.28 per cent. The different categories of workers distributed in different C.D. Block level shows that highest proportion of Cultivators (56.59 per cent) are reported from Sitalkuchi C.D. Block and the lowest is in Cooch Behar-II with 21.35 per cent among the C.D. Blocks. The percentage of Cultivators present in the district in Area not under any Sub-district is only 1.50 per cent. The highest percentage of Agricultural labourers (51.06 per cent) is registered in Dinhata-II C.D. Block while the lowest is observed in Sitalkuchi C.D. Block (29.94 per cent). Under the Household industry workers, Tufanganj-I C.D. Block scores the top position (9.94 per cent) and Haldibari C.D. Block returned to the lowest position with 1.31 per cent. So far the Other workers are concerned, Cooch Behar-II C.D. Block has the highest proportion (41.85 per cent) and Sitai C.D. Block registered the least (11.45 per cent). It is also observed from the above Table that for the area not under any Sub-district i.e. all Statutory Towns, 93.95 per cent belong to Other workers category followed by Household industry workers with 2.67 per cent whereas Cultivators and Agricultural labourers are only 1.50 per cent and 1.88 per cent respectively.

Table 34 : Distribution of Workers by Sex in four categories of Economic Activity in C.D. Blocks (Rural), 2011

Table 34 shows distribution of workers by sex, engaged in four major economic activities in the rural areas under the C.D. Blocks of the district Koch Bihar. It is observed from the above Table that the working population engaged in the district is as Agricultural labourers (37.89 per cent) followed by Cultivators (35.39 per cent) and Other workers (23.19 per cent). Only 3.53 per cent workers are recorded as Household industry workers. Gender wise analysis reveals that among the male workers, highest proportion is engaged as Cultivators (39.49 per cent), followed by Agricultural labourers (33.40 per cent). In case of female workers, majority of them are categorised as Agricultural labourers (50.95 per cent). Cultivators hold the second position (23.48 per cent). Different categories of workers distributed in different C.D. Blocks shows that the highest percentage of Cultivators (56.59 per cent) are found in Sitalkuchi C.D. Block and the lowest proportion of Cultivators (24.62 per cent) reported in Cooch Behar-II C.D. Block. In case of Agricultural labourers, Dinhata-II C.D. Block registered highest proportion with as high as 51.06 per cent, while Sitalkuchi C.D. Block returned the lowest with 29.94 per cent. So far the Household industry workers are concerned, highest proportion (9.80 per cent) is found in Tufanganj-I C.D. Block and Haldibari C.D. Block (1.31 per cent) reported the lowest position. In case of the Other workers, Cooch Behar-II C.D. Block hold the top position (33.84 per cent) and Sitai C.D. Block returned the lowest position (11.45 per cent). Gender wise analysis reveals that the highest percentage of Cultivators for male and female workers are reported in Sitalkuchi C.D. Block with 64.30 and Mathabhanga-I C.D.

Block with 39.68 whereas, the lowest for both the genders are observed in Cooch Behar-II C.D. Block with 27.35 for male and Tufanganj-I with 11.67 for female. The highest percentage of both the male and female Agricultural labourers are found respectively with 46.85 and 66.36 in Dinhata-II C.D. Block while the lowest for male is recorded in Sitalkuchi C.D. Block with 22.42 per cent and female (37.32 per cent) is recorded in Tufanganj-I C.D. Block. In case of Household industry workers, the highest percentage of both male (5.35) and female (23.80) are recorded in Tufanganj-I C.D. Block and the lowest are found in Haldibari C.D. Block for male (0.66 per cent) and in Mathabhanga-I C.D. Block female (2.49 per cent). The highest percentage of male and female Other workers are observed in Cooch Behar-II C.D. Block with 36.04 and Tufanganj-I C.D. Block with 27.20 respectively while the lowest percentage of male and female Other workers are reported from Sitalkuchi C.D. Block with the percentage of 12.23 and 9.47 percentage in Sitai C.D. Block respectively.

District (Urban) : Koch Bihar (329)		Persons	289434	103260	2156	2.09	3588	3.47	4389	4.25	93127	90.19
		Males	146626	83007	1724	2.08	2826	3.40	2501	3.01	75956	91.51
		Females	142808	20253	432	2.13	762	3.76	1888	9.32	17171	84.78

This Table shows distribution of workers by sex in urban areas of the district, engaged in four major economic activities. For the urban part of the district, majority of the working population are engaged as Other workers (90.19 per cent), followed by Household industry workers (4.25 per cent), Agricultural labourers (3.47 per cent), and only 2.09 per cent are Cultivators. Gender wise analysis also reveals that highest proportion of male workers is engaged as Other workers (91.51 per cent) followed by a very small proportion of Agricultural labourers (3.40 per cent). For female workers also the same trend is observed. The percentage of female workers, engaged as Other workers is 84.78 followed by Household industry workers (9.32 per cent). Different categories of workers distributed in different towns shows the highest percentage of Other workers is found in Koch Bihar (M) (96.33 per cent). Among the 12 Census Towns and 6 Statutary Towns of the district, 4 urban units have recorded the engagement of more than 95 per cent of working force are as Other workers, which are Koch Bihar (M) (96.33), Mathabhanga (M) (96.25), Baisguri (CT) (95.72) and Dinhata (M) (95.42).

For Household industry workers, highest percentage is observed in Dhaliabari (CT) (33.33 per cent) and lowest in Nagar Changrabandha (CT) (1.19 per cent). In case of Agricultural labourers, Mekliganj (M)) registered the highest proportion (15.53 per cent) and Mathabhanga (M) with the lowest proportion (0.44 per cent). Under the Cultivators category, Dhaliabari (CT) (11.25 per cent) holds the top position and Baisguri (CT) returned the lowest position (0.66 per cent). Gender wise analysis shows that the highest percentage of male Cultivators is reported from Dhaliabari (CT) with 11.78 and the lowest is found in Dinhata (M) with 0.58. The highest and lowest percentage of female Cultivators is reported by Dhaliabari (CT) (10.19) and Kharimala Khagrabari (CT) (0.38) respectively. In case of Agricultural labourers, the highest percentage of male and female respectively registered in Chhota Laukuthi (CT) (15.01) and Mekliganj (M) (25.04) while for the same the lowest for male (0.36) and female (0.56) is found in Mathabhanga (M) and Tufanganj (M) respectively. The highest percentage of male Household industry workers are in Dhaliabari (CT) (25.91) and Nagar Changrabandha (CT) (0.88) occupy the lowest position for the same. For female Household industry workers Dhaliabari (CT) (48.47) holds the first position and Haldibari (M) (2.29) is in the lowest. In Other workers category, the highest percentage of male and female is observed in Baisguri (CT) with 96.99 and Mathabhanga (M) with 94.50 respectively. The lowest percentage for both male and female Other workers are found in Dhaliabari (CT) with 55.67 and 32.61 respectively.

Brief Analysis of Inset Tables based on Village Directory and Town Directory Data, 2011 (Inset Tables 36-45)

One of the important features of Indian Census is tabulation of village wise amenities data. Such information included in this volume is basically of non-Census in nature. Nevertheless, they have great importance in getting an in-depth view of the existing infrastructural facilities and status of availability of different amenities in the villages of the district and can be used as an important input in future development planning of the district.

Table 36 : Distribution of Villages according to Availability of different Amenities, 2011

Sl. No.	Name of CD Block	Number of inhabited villages	Type of Amenity available

Note :

* Education includes all education facilities.
^ Medical includes all medical facilities.
# Post office includes post office, telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
@ Bank includes Commercial Bank and Co-operative Bank.
** Telephone includes Telephone, PCO and Mobile.

Table 36 shows the C.D. Block wise availability of facilities of education, medical, drinking water, post office, telephone, transport communications, banks, agricultural

credit societies, approach by pucca road and power supply in respect of the villages of Koch Bihar district. It can be observed from the Table that out of 1,132 inhabited villages in the district, education and medical facilities are available in 89.93 per cent and 52.03 per cent villages. Drinking water is available in 99.03 per cent villages, post office in 24.20 per cent, telephone in 86.84 per cent and transport communication including Bus Service, Railway facility etc. are available in 32.42 per cent villages. Banking service is available in 8.13 per cent villages, agricultural credit societies in 9.1 per cent and approach by pucca road is available in 49.47 per cent villages. Remarkably, cent percent villages in Koch Bihar district have power supply facilities.

It is observed from the Table that among the C.D. Blocks, highest education facility is available in Tufanganj-II C.D. Block with 98.11per cent followed by Dinhata-II C.D. Block with 97.48 per cent. Lowest education facility percentage i.e. 66.42 per cent is observed in Mekliganj C.D. Block. The maximum availability of medical facility is observed in Dinhata-I C.D. Block (in 83.59 per cent villages) and least is observed at Haldibari C.D. Block at 22.81 per cent villages. Drinking water facility is available in the cent percent villages of 5 C.D. Blocks, namely, Dinhata-I, Cooch Behar-I, Cooch Behar-II, Sitai and Tufanganj-I C.D. Blocks. For rest of the C.D. Blocks this facility is available almost cent percent villages. Availability of post office facility in Koch Bihar district is ranging from 12.28per cent in Haldibari C.D. Block (lowest) to 43.06 per cent in Tufanganj-I C.D. Block (highest) showing a wide disparity. In case of telephone facility, Cooch Behar-I C.D. Block have the access of 99.3 per cent, whereas, Tufanganj-I C.D. Block recorded the least availability covering only 66.67 per cent villages. Transport communications network is maximum spread over the villages in Cooch Behar-I C.D. Block (in 53.52 per cent of villages) compared to the least percentage (18.87 per cent) in Sitai C.D. Block. The availability of banking facility is highest in Dinhata-II C. D. Block (14.29 per cent of 17 inhabited villages), and lowest in Haldibari C.D. Block (3.51 per cent of 2 inhabited villages). The highest percentage (21.05 per cent) for agricultural credit societies' service is available in Haldibari C.D. Block and the lowest for the same is recorded in Mathabhanga-II C.D. Block with 2.17 per cent. The proportion of villages connected by pucca road is highest in Cooch Behar-I C.D. Block at 65.49per cent and is lowest in Mathabhanga-II C.D. Block at 39.13 per cent. Noticeably, in case of power supply facility in Koch Bihar district, all the C.D. Blocks have the facility in cent percent of villages.

Note :

* Education includes all education facilities.
^ Medical includes all medical facilities.
# Post office includes post office, telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
@ Bank includes Commercial Bank and Co-operative Bank.
** Telephone includes Telephone, PCO and Mobile.

Table 37 shows the C.D. Block wise availability of facilities of education, medical, drinking water, post office, telephone, transport communications, banks, agricultural credit societies, approach by pucca road and power supply among the rural population. The facility for education within the village is available to 24,87,151 persons in Koch Bihar district, i.e. 98.32 per cent of the total rural population. Medical facility is available to 18,11,148 (71.6 per cent) of population and access to drinking water within village is available to 25,21,782 i.e. 99.69 per cent population. Post office is accessible within the village by 49.12 per cent of rural inhabitant of the district, telephone facility is accessible to 90.09 per cent population. Transport communication is available to 49.08 per cent. Banking facility is available to 20.33 per cent persons, agricultural credit societies' service is available to 19.7 per cent, approach by pucca road is available to 67.85 per cent. Power supply is served to cent percent rural population of Koch Bihar district.

C.D. Block wise data shows that variation in availability of education facility within the villages ranging from 99.73 per cent population in Tufanganj-II C.D. Block followed by Cooch Behar-II C.D. Block with 99.68 per cent and the lowest is recorded in Mekliganj C.D. Block with only 88.12 per cent. Medical facility accessibility ranges from 94.01 per cent (Dinhata-I C.D. Block) to 22.57 per cent (Haldibari C.D. Block) showing a wide disparity. Availability of drinking water facility is ranging from cent per cent (in Dinhata-I C.D. Block, Cooch Behar-II C.D. Block, Tufanganj-I C.D. Block, Cooch Behar-I C.D. Block and Sitai C.D. Block) to 98.52 per cent (Mathabhanga-II C.D. Block). Range of availability of post office facility shows a wide disparity from 70.96 per cent (in Tufanganj-I C.D. Block) to 33.34 per cent (in Sitai C.D. Block). In case of telephone facility, the highest is recorded in Cooch Behar-I C.D. Block at 99.72 per cent and the lowest (78.39 per cent) is seen in Dinhata-II C.D. Block. Transport communications facility is ranging from 72.97 per cent (Haldibari C.D. Block) to 24.3 per cent (Sitai C.D. Block). Banking service is available highest at Haldibari C.D. Block (32.97 per cent) and lowest at Sitai C.D. Block (3.51 per cent). Wide disparity in agricultural credit society services is also observed among the C. D. Blocks in the district ranging from 27.62 per cent (Cooch Behar-II C.D. Block) to only 5.65 per cent (Dinhata-II C.D. Block). In case of approach by pucca road services, the maximum availability is recorded at 82.22 per cent in Cooch Behar-I C.D. Block and the minimum is at 54.73 per cent in Dinhata-II C.D. Block. In case of power supply facility, the status of availability is best and it is available to the cent percent rural inhabitants of the district across all the C.D. Blocks.

Table 38 : Distribution of Villages not having certain Amenities, arranged by Distance Ranges from the Places where these are Available, 2011

Village not having the amenity of	Distance range of place from the villages where the amenity is available: Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2-4)

(a) Commercial Bank	452	356	248	1056
(b) Co-operative Bank	266	313	525	1104
7. Agricultural Credit Societies	0	78	951	1029

Degree College includes Art, Engineering and Medicine
Hospital includes Allopathic & Alternative Medicine
Post Office includes post office, telegraph office and post & telegraph office
Telephone includes Telephone, PCO and mobiles
Bus includes private and public

Table 38 depicts the distribution of villages depending upon non-availability certain amenities, showing the distance range from the nearest place where the amenities are available. There are 117 villages where Primary School is not available in the district. There are 107 villages having Primary School facility within 5 kilometers distance, 9 villages have this facility within 5-10 kilometers but for one village it is more than 10 kilometers. In case of middle school facility, there are 769 villages not having middle school out of which the majority (620 villages) has this facility within 5 kilometers. Out of 1,126 villages not having degree colleges, 311 villages can avail the degree college facility within 5 kilometers distance but for 554 villages the nearest degree college is more than 10 kilometers away. Under the category of availability of medical facilities in the district, there are 1,114 villages not having access to a hospital within the village, out of which 497 villages can avail this facility within 5 kilometers, residents of 257 villages have to travel 5-10 kilometers and 360 villages have to travel more than 10 kilometers to avail this facility.

Out of 1,072 villages which have no primary health center facility itself, residents of 387 villages have to travel upto 5 kilometers to avail this facility as reported, for 457 villages for availing this facility they have to go 5-10 kilometers and for rest 228 villages, they have to move beyond 10 kilometers to get access to the primary health center facility. There are 858 villages in the district which have no post office facility itself. Out of these, majority of villages (719) can avail this facility within 5 kilometers. In case of telephone facility out of 149 villages where no telephone facility is available, residents can have access to this facility within 5 kilometers for 76 villages. Out of total villages of Koch Bihar district there are 860 villages where no bus service is available. It has been observed from the above Table that out of 860, inhabitants of 569 villages can avail the bus service within 5 kilometers and 278 villages can avail the service within a distance of 5 to 10 kilometers from their respective villages.

So far as the availability of banking service is concerned, penetration is still low in Koch Bihar district. Remarkably, the coverage of commercial banks is higher than that of the co-operative banks. As a whole 1,056 village does not have the facility of commercial banking service and less than half of these villages (452) can avail this facility within 5 kilometers distance, followed by 356 villages within a distance of 5-10 kilometers. In case of co-operative banking service, 1,104 villages of the district have no co-operative banking

service and out of these, only 266 villages can avail this facility within 5 kilometers and the majority (525) villages have to go beyond 10 kilometers to avail this facility. For agricultural credit societies, 1,029 villages do not have this facility, 78 villages have such facility beyond the reach of 5 kilometers and 951 villages have to travel beyond 10 kilometers to avail this facility.

Table 39 : Distribution of Villages according to the Distance from the Nearest Statutory Town and Availability of Different Amenities, 2011

Distance Range from the nearest Statutory Town (in kilometers)	Number/ Percentage	Number of Inhabited Villages in each range	Type of amenity available

Total :	Number	1132	1018	589	274	983	367	92	103	560
	Percentage		89.93	52.03	24.20	86.84	32.42	8.13	9.10	49.47

Note :

* Education includes all education facilities.

^ Medical includes all medical facilities.

\# Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, railway facility and navigable waterways.

@ Bank includes Commercial Bank and Co-operative Bank.

** Telephone includes Telephone, PCO and Mobile.

This Table analyses the distribution of villages according to the distance from the nearest Statutory Towns and availability of eight different amenities (education, medical, post office, telephone, transport communications, banks, agricultural credit societies and approach by pucca road). In other words, the inhabited villages which have the access to a particular amenity is arranged as per the distance from the nearest Statutory Town. Out of the 1132 villages in the district Koch Bihar, 1,018 villages which have access to education within the villages and 37 villages lie within a range of less than 5 kilometers to the nearest Statutory Town, 587 lie within 5-15 kilometers of nearest Statutory Town, 377 lie within 16-50 kilometers distance and 13 villages lie beyond 51 kilometers from the nearest Statutory Town.

Out of 589 villages having the medical facility, 375 villages are at the distance of 5-15 kilometers and 183 villages within 16-50 kilometers from the nearest Statutory Town. 7 villages with medical facility are located beyond 51 kilometers and only 20 villages are within the distance of 5 kilometers from the nearest Statutory Town.

In case post office, telephone and transport communications facilities, 274, 983 and 367 villages have the facility within their jurisdiction respectively. The highest number of villages with a post office (172) is located within 5-15 kilometers from nearest Statutory Town followed by 89 villages in the distance range 16-50 kilometers. 553 and 365 villages with telephone service are located within a distance of 5-15 kilometers and 16-50 kilometers respectively from the nearest Statutory Town.

Similarly, 212 villages with transport communications lie within the distance of 5-15 kilometers from the nearest Statutory Town followed by 127 villages at the distance range of 16-50 kilometers. It is still disappointing to reveal that only 92 villages in the district have banking facility within the village out of which no villages lie within the vicinity of the Statutory Town at the distance of less than 5 kilometers, 51 villages are located at the distance of 5-15 kilometers and 39 villages are located at the distance of 16-

50 kilometers. Out of 103 villages with agricultural credit societies, 61 villages are at the distance range of 5-15 kilometers from the nearest Statutory Town and 29 are within the range of 16-50 kilometers. Only 11 villages are located within 5 kilometers distance. There are 560 villages in the district which have access of approach by pucca road, out of which highest number of villages, i.e. 319 lie within 5-15 kilometers from the nearest Statutory Town followed by 205 villages falling under the distance range of 16-50 kilometers.

Table 40 : Distribution of Villages according to Population Range and Amenities Available, 2011

Population range	Number/ Percentage	Number of inhabited villages in each range	Type of amenity available

Note :

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, railway facility and navigable waterways.

@ Bank includes Commercial Bank and Co-operative Bank.

** Telephone includes Telephone, PCO and Mobile.

This Table analyses the distribution of villages according to population range and availability of ten different amenities (education, medical, drinking water, post office, telephone, transport communications, banks, agricultural credit societies, approach by pucca road and power supply). In short, depicts the availability of amenities for different population size classes of villages. Barring few exceptions, as a general trend of the district it can be seen that there is a higher percentage of availability of different amenities as the population range of the village increases. All villages with population of 2,000 or more have educational facilities within the village.

For medical amenity, it is declined by 7.28 per cent from population range of 5000-9999 to population range of 10000 and above. In drinking water amenity, it merely declines from population range of 1000-1999 to population range of 2000-4999. Similarly in case of post office, the percentage decline from 80.9 in 5000-9999 population range to 78.20 in 10000 and above. For telephone availability, it decreases to 80.58 per cent in the population range of 500-999 from 86.18 per cent in the population range of 1-499 and again in population range of 2000-4999 to the population range of 5000-9999 by 0.75 per cent.

Table 41 : Distribution of Villages according to Land Use, 2011

Sl. No.	Name of C.D. Block	Number of inhabited villages	Total area (in Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	0026-Haldibari	57	15088.59	79.21	30.73
2	0027-Mekliganj	137	28122.37	72.59	11.52
3	0028-Mathabhanga - I	101	31703.65	71.52	23.89
4	0029-Mathabhanga - II	92	30924.07	59.66	14.88

5	0030-Cooch Behar - I	142	34845.66	78.22	9.84
6	0031-Cooch Behar - II	111	36810.96	76.97	8.41
7	0032-Tufanganj - I	72	31446.88	76.76	28.72
8	0033-Tufanganj - II	53	26500.75	69.03	18.42
9	0034-Dinhata - I	128	27795.61	79.93	14.67
10	0035-Dinhata - II	119	24698.36	76.16	19.61
11	0036-Sitai	53	16081.96	79.61	15.30
12	0037-Sitalkuchi	67	26190.19	77.51	13.03
	Total :	1132	330209.05	74.39	16.73

Note : Cultivable area = irrigated area + unirrigated area

The above Table shows that there are 1132 inhabited villages in district Koch Bihar, spread over twelve C.D. Blocks with a total area of 3,30,209.05 hectares. It is seen that 74.39 per cent of the land area under inhabited villages is available for cultivation. Irrigation is considered as an important factor for cultivation. As per the Table, only 16.73 per cent of the cultivable land is under irrigation. In respect of total area under the inhabited villages, the largest is the Cooch Behar-II C.D. Block with 36,810.96 hectares and 76.97 per cent land of this C.D. Block is considered as cultivable but percentage of irrigated area to total cultivable area is only 8.41 per cent which is the lowest proportion of irrigated area to the total cultivable area. The highest percentage of cultivable area (79.93 per cent) is in Dinhata-I C.D. Block, followed by Sitai C.D. Block with 79.61 per cent. Although Haldibari C.D. Block has the lowest spread with 15,088.59 hectares, the proportion of irrigated area to the total cultivable land is highest in Haldibari C.D. Block with 30.73 per cent. 7 C.D. Blocks, namely, Sitai C.D. Block (15.30 per cent), Mathabhanga-II C.D. Block (14.88 per cent), Dinhata-I C.D. Block (14.67 per cent), Sitalkuchi C.D. Block (13.03 per cent), Mekliganj C.D. Block (11.52 per cent), Cooch Behar-I C.D. Block (9.84 per cent) and Cooch Behar-II C.D. Block (8.41 per cent) have recorded proportion of irrigated area less than the district average of 16.73 per cent.

Table 42 : Schools/Colleges per 10,000 population in Towns, 2011

Sl. No.	Name of the Town	Type of educational institution (approx. numbers)

	District : Koch Bihar (329)	6	2	2	1	0

Note : * College includes Arts/ Science/ Commerce College (Degree Level and above)

Table 42 presents the total number of educational institutions in the category of Primary, Middle, Secondary, Senior Secondary Schools and Colleges available for every 10,000 population in the urban areas of Koch Bihar district. The number of educational institutions in each town given in the Table is estimated per 10,000 population in each Census Town and Municipality.

As per the Table, per 10,000 population of district Koch Bihar there are 6 Primary Schools, 2 Middle level, 2 Secondary level and 1 Senior Secondary School available for education. Among Municipalities, highest number of Primary Schools is at Tufanganj Municipality (12 per 10,000 population), followed by Mekhliganj Municipality (11 per 10,000 population). Among Census Towns, Guriahati (CT) has the highest concentration (9) of Primary Schools. In the category of Middle Schools, the highest availability per 10,000 population is 8 in Baneswar (CT) followed by Chhota Laukuthi (CT) with 5. The highest number of Secondary/Matriculation Schools for every 10,000 population has been reported with 4 Schools at Kharimala Khagrabari (CT) followed by Mathabhanga (M) with 3 per 10,000 population. The highest number of Colleges available per 10,000 population in the urban areas of the district has been reported as 1 from Koch Bihar (M) but for the remaining urban areas as well as the district as a whole the ratio is recorded as zero (0).

Table 43 : Number of Beds in Medical Institutions in Towns, 2011

Sl. No.	Name of the Town	Number of beds in medical institutions per 10,000 population (approx. numbers)
1	2	3
1	307872-Nagar Changrabandha (CT)	0
2	308211-Kharimala Khagrabari (CT)	0
3	308212-Guriahati (CT)	0
4	308213-Dhaliabari (CT)	0
5	308325-Baneswar (CT)	0
6	308326-Khagrabari (CT)	22
7	308327-Baisguri (CT)	20
8	308328-Chakchaka (CT)	0
9	308329-Takagach (CT)	0
10	308402-Kamat Phulbari (P) (CT)	0
11	308456-Chhota Laukuthi (CT)	0
12	308587-Bhangri Pratham Khanda (CT)	0
13	801643-Haldibari (M)	21
14	801644-Mekliganj (M)	131
15	801645-Mathabhanga (M)	50
16	801646-Koch Bihar (M)	77
17	801647-Tufanganj (M)	60
18	801648-Dinhata (M)	50
	District : Koch Bihar (329)	43

The above Table shows the number of beds available in the medical institutions located in the towns under Koch Bihar district. The urban area of Koch Bihar district consists of twelve Census Towns and six Municipalities. The Table also shows that, out of eighteen urban units, in ten units the number of beds available in the medical institutions per 10,000 population is 0. The highest number of 131 beds in medical institutions available per 10,000 population is reported in Mekliganj Municipality followed by Koch Bihar Municipality with 77 beds per 10,000 population. Tufanganj Municipality has recorded 60 medical beds and both the Mathabhanga Municipality and Dinhata Municipality have 50 medical beds each for 10,000 population. Khagrabari (CT) and Baisguri (CT) also reported 22 and 20 number of beds available respectively for every 10,000 population in the district Koch Bihar.

Table 44 : Proportion of Slum population in Towns, 2011

Sl. No.	Name of the Town having Slum	Total population	Slum population	Percentage of Slum population to Total Population
1	2	3	4	5
1	801643-Haldibari (M)	14404	8335	57.87
2	801644-Mekliganj (M)	9127	3919	42.94
3	801648-Dinhata (M)	36124	15470	42.82
	Total :	59655	27724	46.47

The above Table depicts the total population, slum population and percentage of slum population to total population in the towns which have reposted of having slum population in Koch Bihar district. Out of the 6 Statutory Towns of Koch Bihar district, 3 Statutory Towns have reported of having Slum areas, which are Haldibari Municipality, Mekliganj Municipality and Dinhata Municipality. In the three Municipalities as a whole, 46.47 per cent population reside in slum areas and out of these, Haldibari Municipality has the highest proportion (57.87 per cent) of slum population followed by Mekliganj Municipality (42.94 per cent) and Dinhata Municipality with 42.82 per cent. In absolute figures, the highest number of slum dwellers reside in Dinhata Municipality (15,470) and lowest is in Mekliganj Municipality (3,919).

Table 45 : Most important Commodity Manufactured in Towns, 2011

Sl. No.	Name of the Town	Name of three most important commodities manufactured
1	2	3
1	307872-Nagar Changrabandha (CT)	---
2	308211-Kharimala Khagrabari (CT)	Handloom, Bidi
3	308212-Guriahati (CT)	Jute, Handloom, Bidi
4	308213-Dhaliabari (CT)	Shitalpati, Paddy, Jute
5	308325-Baneswar (CT)	---
6	308326-Khagrabari (CT)	Rice, Fodder, Atta
7	308327-Baisguri (CT)	---
8	308328-Chakchaka (CT)	---
9	308329-Takagach (CT)	---
10	308402-Kamat Phulbari (P) (CT)	Handloom
11	308456-Chhota Laukuthi (CT)	---
12	308587-Bhangri Pratham Khanda (CT)	Bamboo Craft, Chewing Tobacco
13	801643-Haldibari (M)	Paddy, Jute, Tomato
14	801644-Mekliganj (M)	Jute, Tobacco, Mekhla
15	801645-Mathabhanga (M)	Soap, Soabin, Dal
16	801646-Koch Bihar (M)	---
17	801647-Tufanganj (M)	Mustard Oil, Biri, Bamboo
18	801648-Dinhata (M)	---

Table 45 above shows the most important commodities manufactured in towns of Koch Bihar district. It could be seen from the Table that Handloom is produced in Kharimala Khagrabari (CT). In Guriahati (CT), the most important commodities manufactured are Jute, Handloom and Bidi. Tobacco is produced in Bhangri Pratham Khanda (CT) and Mekliganj Municipality. Bidi is manufactured in Kharimala Khagrabari (CT), Guriahati (CT) and Tufanganj (M). Bamboo Craft are manufactured in Bhangri Pratham Khanda (CT) and Tufanganj Municipality. Shitalpati is made from cane in Dhaliabari (CT) and Soap, Soabin and Dal are the important commodities manufactured in Mathabhanga Municipality.

Major Social and Cultural Activities
Places of Religious, Historical or Archaeological Interest
Major Characteristics and Contribution of the District

Major Social and Cultural Activities of the District like Festivals and Fairs

Innumerable fairs, festivals and socio-cultural events are held throughout the year in the district having wide admixture of religion, community and culture. The followers of the main faiths and some tribal groups observe their own religious festivals whereas they intermingle in certain *melas* (fairs) and ceremonies. Brief notes on the major festivals and *melas* of the district are given below :

(a) Festivals Celebrated throughout the State :

West Bengal celebrates many *pujas* (worship) and festivals. The Bengali proverb *"Baro Mase Tero Parbon"* (thirteen festivals in twelve months) indicates the abundant of festivity in the State. We are trying to go across the State Level common festivals in brief that are celebrated with great grandeur all over West Bengal with great enthusiasm. Please note that this State is a perfect example of communal harmony that is reflected in all the festivals. Peoples of different religion, caste and creed use to celebrate and participate in all the festivals together.

Durga *Puja* : Durga *puja* or *Sharadotsav* is undoubtedly the main festival of West Bengal. The dates of Durga *puja* celebrations are set according to the traditional Hindu calendar and the fortnight corresponding to the festival is called *Devi Paksha* (fortnight of the Goddess). Durga *puja* festival marks the victory of Goddess Durga over the evil buffalo demon Mahishasura. Thus, Durga *puja* festival epitomizes the victory of Good over Evil. The prominence of Durga *puja* increased gradually during the British Raj in Bengal and erstwhile Assam. After the Hindu reformists identified Durga with India, she became an icon for the Indian Independence Movement. In the first quarter of the 20th century, the tradition of *Baroyari* (community) *puja* was popularized due to this. After independence, Durga *puja* became one of the largest celebrated festivals in the whole world. It is also the largest open Air Art Exhibition in the World. Durga *puja* is also called *Akalbodhan* (untimely awakening of Durga), *Sharadiya Pujo* (autumnal worship), *Sharodotsab* (festival of autumn), *Maha Pujo* (grand *puja*), *Maayer Pujo* (worship of the Mother) or merely as *puja* or *pujo*.

Kali *Puja* : Kali *puja* is also known as *Shyama puja* or *Mahanisha puja*, is a festival dedicated to the Hindu Goddess Kali, celebrated on the new moon day of the Hindu calendar month of *Kartik* (mid-October to mid-November) especially in Bengal, Odisha, Bihar and Assam. While the Bengalis, Odias and Assamese adore Goddess Kali on this day, the rest of India worships Goddess Lakshmi on Diwali. In north India 'Deepavali' or the festival of lights is celebrated to commemorate the home coming of Lord Rama to Ayodhya after fourteen years of exile as per the epic Ramayana. Decoration with lights and cracking the crackers are part of the observation.

Saraswati *Puja* or *Vasant Panchami* : Goddess Saraswati is referred as the Goddess of learning and music. It is a festival that signifies the beginning of *Vasant Ritu* (spring season). This *puja* is celebrated on the fifth day of the bright fortnight of the lunar month of Bengali calendar month of *Magh* (mid-January to mid-February). A white swan on which the Goddess sits symbolizes *Satwa Guna* (purity and discrimination). This *puja* is celebrated in all educational institutions, music schools and even in localities throughout the State.

***Dol Yatra* or The Festival of Colours :** The festival of *Dol Yatra* is celebrated with pomp and dignity in the State of West Bengal. While it is known as *Dol Yatra* in West Bengal, rest of India celebrates it as *Holi*. It is the last festival of Bengali Calendar Year. It celebrates the legend of Radha and Krishna which says that Lord Krishna expressed his love to her beloved Radha on this day. People celebrate this festival playing with coloured water and colour powder called *abeer*. *Dol Purnima* (full moon day) becomes all the more significant for Bengalis, because this is also the birthday of the great Bhakti cult movement leader *Shree* Chaitanya Mahaprabhu (1485–1533).

***Ratha Yatra* or The Chariot Journey Festival :** *Ratha Yatra* is a festival that involves moving of deities Jagannath, Balabhadra and Subhadra on a *ratha* (chariot) to their *Mausima Deula* (aunt's place). The festival originated in Puri, Odisha. The *Ratha Yatra* of Mahesh at Sreerampore in the Hugli district of West Bengal is the third oldest *ratha* festival in India and oldest in Bengal, having been celebrated since 1755. *Ratha Yatra* of Guptipara in Hugli district and of Mahishadal in Purba Medinipur district also has all India fame. Though mainly a *Vaishnava* festival, still it is celebrated by all communities. Small children are seen to pull small *rathas* around the streets accompanied by their parents. Many local *rathas* are also been pulled in this occasion throughout the State.

***Raksha Bandhan* :** It is a Hindu festival that celebrates the love and duty between brothers and sisters where sisters tie a *rakhi* (sacred thread) on her brother's wrist. This symbolizes the sister's love and prayers for her brother's well-being, and the brother's lifelong vow to protect her. The festival falls on the full moon day *(Shravan Poornima)* of the Bengali calendar month of *Shravan* (mid-July to mid-August). Many myths and historic legends are linked to it. For example, the Rajput queens practiced the custom of sending *rakhi* threads to neighbouring rulers as token of brotherhood.

In West Bengal, the great poet Rabindranath Tagore invoked *Rakhi* as concepts to inspire love, respect and a vow of mutual protection between Hindus and Muslims during India's colonial era. In 1905, Bengal was divided by the British Empire on the basis of religion. Tagore arranged a ceremony to celebrate *Raksha Bandhan* to strengthen the bond of love and togetherness between Hindus and Muslims of Bengal, and urge them to together protest the British Empire which proved to be very successful. Even today in West Bengal, his tradition continues as people tie *Rakhis* to their neighbours and close friends.

***Eid ul-Fitr* or Festival of breaking the Fast :** This is an important religious festival of the peoples belonging to Islam faith. It marks the end of *Ramadan*, the Islamic holy month of *sawm* (fasting). The religious *Eid* is a single day during which Muslims are not permitted to fast. The holiday celebrates the conclusion of the 29 or 30 days of dawn-to-sunset fasting during the entire month of *Ramadan*. The day of *Eid*, therefore, falls on the first day of the next Islamic calendar month of *Shawwal*. The date for the start of any lunar *Hijri* month varies based on the observation of new moon by local religious authorities, so the exact day of celebration varies by locality. However, in most countries, it is generally celebrated on the same day as Saudi Arabia. Throughout the State, mass prayers *(namaz)* are organized. It is a day of joyful get together.

***Muharram* :** It is the first month of the Islamic calendar and is one of the four sacred months of the year. Since the Islamic calendar is a lunar calendar, *Muharram* moves from year to year when compared with the Gregorian calendar. It is the second holiest month following Ramadan. The word Muharram means forbidden and is derived from the word *harām*, meaning sinful. This is practically a mourning festival to observe the death of two brothers Hassan and Hussain – two grandsons of the Prophet Muhammed in the battle of Karbala. Tajiyas that symbolized the memorial tombs of the two brothers are taken out in procession and the devotees use to chant the name of Hassan and Hussain throughout.

Christmas : Also referred as Christmas Day, is an annual festival commemorating the birth of Jesus Christ, observed on December 25 as a religious and cultural celebration among billions of people around the world as well as West Bengal. On this day people exchange gifts, sweet and cakes amongst them. Many fairs are organized throughout the State and people use to gather there in numbers. Children are very fond of this festivals and Santa Claus is perhaps the most lovable character to them from whom they expect gifts packed in colourful papers. The chilling winter season practically extends this Christmas festivals up to English New Year i.e. January 1.

Good Friday : It is a Christian religious occasion commemorating the crucifixion of Jesus Christ at Calvary. Calvary, also Golgotha, was, according to the Gospels, a site

immediately outside Jerusalem's walls where Jesus was crucified. It is also known as Holy Friday, Great Friday, Black Friday or Easter Friday.

Guru Nanak's Birthday : Guru Nanak Sahib, the founder of Sikhism, was born on 15th April, 1469 at Rai-Bhoi-di Talwandi in the present district of Shekhupura (Pakistan), now Nanakana Sahib. The Birthday of Guru Nanak Sahib falls on *Kartik Puranmashi* i.e. full moon day of the month *Kartik* (usually November). On this day the followers of Sikhism use to visit the *Gurdwara* (shrine) and pay homage to him. This occasion is celebrated all over the State every year with great devotion and enthusiasm.

Buddha *Purnima* : Also referred as Buddha *Jayanti*, the birth anniversary of the Lord Gautam Buddha is the most important festival of the Buddhists and is celebrated with great enthusiasm. This festival falls on full moon day in the month of April. It was on this same day that Buddha got enlightenment and also attained *Nirvana* (salvation). The Buddhists consider the day to be more auspicious than any other day of the year. It is also believed that Yashodara, Gautam's wife, his charioteer Channa and even his horse Kantaka were born on the same day.

Mahavir *Jayanti* : The followers of Jainism observes the birthday of Lord Mahāvīra on this date. Lord Mahāvīra (599 BCE–527 BCE), also known as Vardhaman, was the twenty-fourth and last *tirthankara* (holy person) of Jainism of present *Avasarpani* era (half time cycle as per Jain cosmology). Lord Mahāvīra was given the title Jīnā, or "Conqueror" (conqueror of inner enemies such as attachment, pride and greed), which subsequently became synonymous with *tirthankara*. Although there is reasonable evidence to believe that Parsva, predecessor of Mahāvīra was a historical figure, still Mahavira is sometimes referred as the founder of Jainism. Colourful processions are taken out by the followers of Mahavir on this day which is well attended by people of all caste, creed and religion. The date of Lord Mahavir's birthday is decided according to the Jain calendar *Vira Nirvana Samvat*.

(b) District Level Festivals and Fairs of Koch Bihar District :

District Koch Bihar celebrates numerous festivals and fairs throughout the year. As majority of the population of Koch Bihar are followers of Hinduism (74 per cent) and Islam (25.5 per cent), almost all popular festivals of these two major religions are celebrated with pomp and galore in this district. In addition to these many ancient social and cultural festivals arisen out of local beliefs and faiths are also celebrated in this district. There are also some occasions which are not associated with any religious practice. Generally, most of the religious festivals of the district have associated Fairs (called *Mela* in Bengali) and single day events quite often extent with fairs and festivities spanning upto ten days. Various social and cultural gathering, exchange of human affection takes place, friends and family from distance places come together to celebrate. In the following paragraphs, glimpses of some important Socio-Cultural festivals and fairs of district Koch Bihar are depicted.

Festivals of Hinduism : Brahminic Hinduism with a combination of some ancient rites and rituals are followed by the Hindu population of Koch Bihar district. Gods and Goddesses from Shaktism and Vaishnavism – the two major sects of Hinduism are worshipped with utmost devotion, beside the worship of sectarian deities like Devi Manasa/Bishahari, Balaram, Boro Thakur and Bura Thakurani, Madan-Kam, Suvachani and many more.

(i) Durga puja : Durga *puja*, like other areas of Bengal is the largest festival of the district. It is celebrated for five days throughout the State during the month of *Ashwin* in Bengali Calendar and usually falls during the months of late September to early October in Gregorian Calendar, depending upon the luni-solar events. Goddess Durga is the symbol of *Shakti*, the Mother Goddess and is the believed to be the Goddess of power and strength. Lord Ganesha, Lord Kartikeya, Goddess Lakshmi and Goddess Saraswati accompany her as the Children of Divine Mother. Lord Shiva is also worshipped as her

consort. Festivities starts with celebrating *Mahalaya Amavasya* (No-Moon day), the day earmarking the end of *Pritri-Paksha* and is celebrated as the most important day in the year for performing the rites of the forefathers and commemorating beginning of *Devi-Paksha*. The actual puja starts from *Shashthi Tithi* (sixth day of new moon) and is continued till *Dashami*, the tenth day. Almost all over the district, including all major settlement and district head quarter Koch Bihar (M), the puja is celebrated by building up large *mandaps* or *pandals*. There are also few permanent temples dedicated to *Devi* Durga in the district established and supported by the erstwhile rulers of Koch Bihar Kingdom. Although most of pujas are organised by community worshippers (Baroari *puja*), some family *puja*s also take place. The extent and celebration of Durga *puja* has increased manifold during last few decades. Special *puja* is organised by the local clubs (*baroari puja*) of the Head Quarter as well as the remote areas of Koch Bihar district.

(ii) Kali puja : Goddess Kali is believed to be another form of sacred divine feminine Goddess Durga. The followers of Shaktism (Shaktas) worship Goddess Kali as the ultimate reality of Brohmo (Brahman). Kali *puja* also commemorates the celebration of Diwali (Deepavali), the festival of lights. The celebration usually falls in the Bengali calendar month of *Kartika Amavasya* (no-moon day) – usually one month from *Mahalaya Amavasya* of Durga *puja* i.e., November in English Calendar. Illumination of houses, shops and streets with various lighting is done in all places as a part of celebrations. Diwali *mela* is organised in some places of the district.

(iii) Raas *Utsav* and *mela* : The Raas *Utsav* is celebrated on Purnima – the full moon day of the Bengali month of *Kartik*, usually falls in the month of November. This festival is also known as Raas *Yatra*, Raas *Purnima*, *Dev Deepavali* or *Tripuri Purnima*. The birthday of Gurunanak also coincides this auspicious day. In district Koch Bihar it is believed that Lord Madan Mohan Dev, the foremost revered God of the erstwhile State of Koch Bihar performs Raas *Yatra* on that day. Lord Madan Mohan Dev, the family deity of royal Koch Bihar dynasty is believed to be the re-incarnation of God Vishnu. The Raas *Chakra* which is a tall semi-cylindrical post like whirling structure is the centre piece of the celebrations, during the festival it is beautifully decorated in many elegant colours and images of God Vishnu and God Krishna.

This festival is a unique example of unity between Hindus and Muslims in the district because the main decorations of the Raas *Chakra* are made by a Muslim family since ages. A fifteen day *mela* is held during this time, previously the kings of Koch Bihar State were the main benefactors of the festival, which is now conducted by the Koch Bihar Municipal Authority and the Trustee Board of the Madan Mohan Temple. Pilgrims and visitors from all over the district, neighbouring district of Jalpaiguri, neighbouring States of Assam and even from countries Nepal and Bhutan attend and celebrate the programme.

(iv) Ratha *Yatra Utsav* and *mela* : The festival of Ratha Yatra is held in the monsoon month of *Ashadh* in the Bengali calendar, usually falls in the months of June-July. The festival in Koch Bihar is dedicated to *Shri Shri* Madan Mohan Deb, the guardian deity of Koch Bihar. During the festival, hugely decorated divine Chariot (*Ratha*) carrying God Madan Mohan travels from the main temple to Gunjabari accompanied by huge procession, musicians and ornamented artefacts. After staying there for seven days, the Ratha comes back to the main temple on the day of *Ulta Ratha*. During this period, seven day fairs are organised both at main temple complex and at Gunjabari. People from different areas come to join the programme. Festivities in both the places continue for the seven days. This festival was also started during the reign of royal family of Koch Bihar and was spent with utmost pomp and galore. Although the royal touch is not there anymore, the festival is still one of the most important festivals of Koch Bihar.

(v) Baradevi puja and *mela* : Goddess Baradevi is believed to be another manifestation of Devi Durga. The idol of Baradevi in the Durgabari in Koch Bihar town depicts the mother Goddess with her two divine consorts, Jaya and Bijaya and riding on

the Lion and the Tiger. As per the legends, during the sixteenth century the reigning King of Koch Bihar had a dream of the Goddess in this form and the puja is believed to be carried out since then. The usual time of the puja is few days after the Ratha Yatra. Beside the Baradevi Temple at Durga Bari, puja and offering also takes place in the temple located in the premises of *Shri Shri* Madan Mohan Temple complex. One critical custom associated with this puja in ancient times was sacrifice of human lives. At present, the ritual is not practiced and only drop of human blood from a designated family lineage is offered to the Goddess during a special ceremony called Gupta *puja*. A *mela* is also organised during the *puja* in the nearby areas of the temple complex, people from various place come and enjoy the festivities. The fair usually lasts for four days, *Saptami* to *Dashami tithi*.

(vi) Dol *Jatra Utsav* and *mela* : Dol Jatra Utsav takes place in the month of Phalgun in Bengali calendar which usually falls in the month of February to March. This is the festival of colours, the Divine Swing (Dola) of the God Krishna with his divine consort Radha. As the guardian deity of Koch Bihar Shri Shri Madan Mohan Dev is believed to the manifestation of Krishna, this festival is celebrated with devotion and joy. During this Dol Jatra ceremony the idol is decorated with flowers, leaves, coloured garments, papers etc. and Abir (Coloured powder). The ceremony, also known as Holi starts with swinging of the idol in an ornamented palanquin and with offer of special Bhog and Arati to the God. Everybody engage in the festival drench each other with multiple colours and celebrate with enormous enjoyment. This festival is celebrated all through the district and across all sections of the society.

(vii) Shiva *Ratri Utsav* and *mela* : The word Shiva Ratri literally means 'The night of Shiva'. It is an ancient festival being celebrated in the month of *Phalgun* in Bengal calendar to commemorate the divine union of God Shiva with Goddess Parvati, signifying union of Shakti cult with the Shaivas. *Shiva Ratri Utsav* usually falls in the month of February or March in Gregorian Calendar. Across the district several temples of God Shiva were built during the reign of King Prana Narayan (period 1626 to 1665) some of which are still worshipped at Jalpeswar, Baneswar and Shandashiva. However, as per present jurisdiction, the Jalpeswar temple falls under neighbouring district Jalpaiguri. In the Baneswr Shiva Temple, the Shiva-Lingam is located at the epicentre of the temple, at an underground room (Garva Griha). Devotees from distant places come to visit the temple and worship the God. There is a lake adjacent to the temple abundant with different varieties of Tortoise, which are of special attraction. *Shiva Ratri mela* is organise in many places across the district.

(viii) Baruni *Snan* and *mela* : Baruni *Snan* is also another Hindu festival dedicated to God Krishna. This festival is celebrated every year on the *Trayodasi Tithi* (thirteenth day) of the *Krishna Paksha* (New Moon) in the month of *Chaitra* in the Bengali calendar, usually falls on the March or April, when the sun enters the zodiac of Capricorn. It is believed that taking a holy deep on that auspicious day wash away their sins, get rid of the misery and pains of life. Homage to the forefathers *(Pinda Dan)* is also done on that day. In many places of the district like Dinhata, Sitalkuchi etc., large fairs are organised and celebrated on this occasion.

(ix) Ashtami *Snan* and *mela* : The Ashtami *Snan mela* is also a similar festival associated with taking a holy deep in the water. The deep is usually taken place in the confluence of river Gadadhar and Kaljani. The myth associated with this festival says that a deep taken in pure heart helps achieving the Param Brahman and people get rid of all earthly pains. Fairs are organised to celebrate this occasion.

Festivals of Islam : Having a large concentration of Muslim population in the district, almost all festivals of Islam are celebrated with utmost devotion throughout the district. The most celebrated one is the Eid-ul-Fitr, which is celebrated most extravagantly after one month of Ramadan. The festivitie starts with viewing of the moon and joining in special prayers. People get dressed in new clothes, women wear Henna, Zakat is

distributed to the needy. Eid-ul-Adha (Eid of Qurbani), Muharram, Shab-e-Barat etc. are also celebrated with enthusiasm. Eid-ul-Adha (Eid of Qurbani) is known as the festival sacrifices. Special prayers are organised and the best of the domesticated animals are sacrificed. However, slaughter of Cow has been traditionally avoided in the Princely State of Koch Bihar. Meet from the animals are eaten and distributed to the needy. Muharram is celebrated on the ninth and tenth day of the eponymous month in the Hijri Calendar. Remembering the Battle of Karbala, bring out elaborate processions and fasting on the day are part of the customs, although some variations are found in the mode of observing the day among Shia and Sunni sects of Islam. The night of Shab-e-Barat is considered as the night of fortunes to the followers of Islam. It is also believed that the sins of sinners are forgiven on this night. This celebrated all through the district Koch Bihar; special prayers are organised and special foods are prepared.

Socio-Cultural Festivals : Beside the festivals of various religious aspects, the Agricultural Fair, Book Fair, Fairs of Agri-Horticultural produce are also organised and attended by many people of the district. Most of these festivals are local in nature and are linked with the agricultural production. During the month of November with the newly produced rice agrarian population celebrate the occasion with fairs. Following the tradition of Bengal, Book Fair is organised in the district to enhance the reading habit and interest of the residents of the district.

Brief Description of Places of Religious, Historical or Archaeological Importance and Places of Tourist Interest of the District

The Royal dynasty of Koch Bihar was passionate advocators of Hinduism and built several Temples and religious places across the district which acts as important centres of tourism till today. Many temples are maintained by the 'Debuttor Trust Board' under Department of Tourism, Government of West Bengal. Beside this, after marriage of Queen Sunity Devi in the kingdom who was a follower of Brahma Dharma, the path the Brahma Dharma also initiated in the district. Beside these, natural sites like Rasikbil which later converted into a Bird Sanctuary and historical remainders of Gosanimari along with the temple of Kamateswari also attract tourists from various places. In the following paragraphs, glimpses of the main points of tourist interest in the district Koch Bihar have been depicted.

Koch Bihar Rajbari Palace :

The magnificent building of Koch Bihar palace built in 19th century is undoubtedly the centre of tourist attraction in the district. This palace was conceptualized in Classical European architectural form during the reign of Maharaja Nripendra Narayan, the feudatory ruler of Koch Bihar Kingdom. This Palace, built in 1887 by British Architect F. Barckly, worked as the seat of the feudatory Government till the merger of Koch Bihar with Union of India. The Building is a beautiful two storied structure of area of 4,768 sq. meters with two large courtyards, gardens and water bodies. There is one large Darbar Hall in the shape of a twelve sided polygon with an exquisite metal dome, two porticos- one running towards North and another towards East, many halls and more than fifty heavily decorated rooms including Toshakhana, Billiard Room, Ladies Gallery, Vestibules, Bed Rooms, Dressing Rooms etc. with five wooden staircases for use of the royalty and two staircases for the servants. A separate women's enclosure with an isolated courtyard called Zenana was also built. Elegant ornamented balconies surrounding the building were also built. However, in the earthquake of 1897, some portions of the Palace was damaged, part of which was subsequently re-built. At present the Palace has been transformed in to a Museum, depicting collections of Royal artefacts, photos and paintings. Some rooms are also used by the Government of India wherein galleries of historic and anthropological collections of entire North Bengal have been created. The garden and the water bodies around the palace building are picturesque and places of attraction of travellers across different sections of the society.

***Shri Shri* Madan Mohan Temple :**

Although Shri Shri Madan Mohan Dev has been the family deity of the Royal Family of Koch Bihar, the idol in its present form was conceptualised during the reign of Koch King Rupa Narayan who ruled Koch Bihar from 1693 to 1714 AD. He constructed the image of the idol and established worshipped. Another opinion says the worship was initiated earlier, during the rule of Maharaja Nara Narayan (1554-1588 AD) as a confluence between Vaishnab and Shakta cults of Hinduism. The present Temple of Madan Mohan Dev located near Bairagi Dighi in the Koch Bihar town was built in 1890 in the traditional Bengali *Char-Chala* structure and *Dalan Kotha*. Shri Shri Madan Mohan Dev is the manifestation of God Vishnu. The main structure of the Temple is in pristine white, containing the main idol of Madan Mohan Deb. There are other smaller structures inside the temple complex for other Gods and Goddesses. Beside Madan Mohan Deb, there are idols of Maa Anandamayee, Maa Bhabani and one *Shalgram Shila* known as Ananta Narayan and are worshipped with utmost devotion. The entire temple complex is strikingly clean and well managed. Although the original idol worshipped by the Royals was stolen few years back, there is no dearth of devotion and worshipping of the new idol. This temple acts as the rare congregation of Vaishnab faith and Shakta beliefs and is one of the most visited tourist spots in district Koch Bihar.

Baneswar Temple :

The ancient temple of Baneswar is one of the most significant religious sites of Koch Bihar. Baneswar is the manifestation of Shiva. It is believed that while carrying the Shiva Lingam from Mount Kailasa (the abode of Lord Shiva) to *Patal-lok* (one of the ultimate realms of soul located deep south), Asura king Banasur, rested the Shiva Lingam for a while and had a bath in the adjacent pond, according to legends, the Shiva Lingam could never be moved and the pond transformed into having some magical healing quality. At present the Baneswar Temple is located at a distance of around 10 Kilometers from Koch Bihar town with large pond when hundreds of turtles and tortoises locally called 'Mohan' are nurtured. The temple is of dome shape with the Shiva Lingam located around 10 feet deep from the temple's natural surface. Having a beautiful structure and very well maintained environment, the temple garners huge footfall from across West Bengal as well as neighbouring states. Especially on the *Shiva Ratri* in February-March, largest gatherings of devotees and tourists take place.

Baradebi Mandir :

Goddess Baradevi is believed to be another manifestation of *Devi* Durga. The most famous temple of Goddess Baradevi is located in Debibari in Koch Bihar town. The form (*Roop*) of Goddess is different from conventional idols of Goddess Durga. She does not have Goddesses Lakshmi and Saraswati and Gods Ganesh and Kartik as her companions, rather her divine consorts here are Jaya and Bijaya. Colour of the idol is red and that of the Asura is green. She is riding on a Lion as well as a Tiger. Legends say that puja of Goddess Baradevi started in the 16th century AD, consequent to a divine order came in the dream of King Biswa Singha, the then Raja of the Koch Bihar dynasty. The manifestation and form of the Goddess was made as seen in the dream. Some people also believe that Koch King Nara Narayan was also an important advocator of the worship of the idol. Till now, most of the rituals initiated by King Biswa Singha is still followed during the pujas. Like other places the most important time for this temple is the *Sharadiya* Durga Puja. All rituals are followed and people from distance places come to attend the festivities. The temple however is constructed with some influences of the British architectural designs and is an important place for tourists throughout the year.

Gosanimari Rajpat

Gosanimari Rajpat mound is located at a village called Khalisa Gosanimari under Dinhata C. D. Block in district Koch Bihar. The Dinhata Town lies at a distance of 13 Kilometers from this place and is well connected with motorable road. This site is one of the most important and earliest archeological sites of the district and stage by stage excavations and Carbon Dating of excavated items reveal that the initiation period of the site dates back to 910 AD +/- 80 years. The site probably derives its name Rajpat from '*Raj Prasad*' meaning citadel of the King and Goddess Gosanidevi was the guardian deity of the ancient rulers of Kamtapur, under which kingdom the place was actually located. The mound is naturally bounded by two rivers, Dharla to the East and Singimari to the West, which acted as the natural boundary of the fortress, which was basically the hinterland between Kingdom of Gauda to the South and Kingdom of Kamrupa to the East. The first mention of this ancient site was found in the writings of Sir Buchanon Hamilton in 19th century and later by Shri Rakhaldas Bandyopadhyay in early 20th century. The five stage excavation conducted by the Archeological Survey of India reveals that major edifice belonged to three distinct periods. Period I was contemporary to the Pala-Sena age in Bengal (10th to 11th century AD). The figurines and sculptures of the Mother Goddess found here are of this period. The Period II was coeval with Khen Rulers of the area in 14th to 15th century AD. Remnants of iron objects and stone sculpture are found from this period. Period III was from 16th to 19th century AD. The type of the Brick-build structures, Brick-lined huge walls, water tank, beautiful Terracotta artefacts, figurines, Red, Gray and Black pottery items, coins, statues, bricks bearing architect's name etc. found in this places are the evidences of a technologically advance community. As per

present notion, the Khen rulers usurped the original citadel made in 10th century and remodeled it in many places. Due to constant fear of flood, the walls of the fortress were made super heavy and strong. Other objects found at the site reveals that even in ancient ages, there were socio-cultural exchange of the rulers of Kamtapur with South-East Asian countries. Till today, a beautiful mound can be seen in the site with well-fortified brick walls, parallel and cutting across; two large wells of diameter approximately 10 feet, structured staircases, a large water body adjacent to the mound etc. which are of substantial tourist interests.

Kamteswari Temple, Dinhata

The Kamateswari Temple in Dinhata is located near Gosanimari and is believed that the cultural traditions and worship pattern in this temple is being followed since the 15th century, with no major variations. The main festival of this temple is synchronous with Durga *puja* in September- October. Devotees and tourists from distance places come here to attend the ceremony. Goddess Kamateswari, the manifestation of Goddess Durga, was one of the guardian deities of Koch Kingdom. A magnificent idol of Lord Vishnu kept in this temple was excavated from Gosanimari Rajpat mound by Archaeological Survey of India and bears glorious art work from the Pala-Sena period of Bengal in 10th and 11th century AD.

Rasikbil Bird Sanctuary

Rasikbil Bird Sanctuary is located in the Tufangunj Sub-division of district Koch Bihar, at a distance of 40 Kilometers from the district Head Quarter. There is a beautiful lake surrounded by light forests. The lake each year drives a wide variety of birds which build nests around and is a pleasing scene for the nature lovers. A Deer-Park, Crocodile Rehabilitation Centre, Aquarium and Rescue Centres for Leopard and Python have also been built in the vicinity. Abundance of Birds observed in Rasikbil includes different species of Cormorants, Storks, Ibis, Owl, Parrot, Mayna, Wood-peckers, Kingfisher, Oriols, Parakeets and many more local birds of Bengal as well as migratory birds in winter. The word *Bil* means lake in colloquial Bengali and the lake is full of numerous sweet water fishes, creating a delightful view. There is one Government accommodation run by West Bengal Forest Development Corporation in Rasikbil. Tourists from even faraway places come to Rasikbil to find serenity and peace in the lap of nature. Being not very far from Koch Bihar town in the district and Alipurduar Town in neighbouring district Jalpaiguri, a day journey is also comfortable.

Places of Archaeological Importance in Koch Bihar district :

The Gosanimari Rajpat mound which bears the remains of an advanced civilization starting 910 AD (+/-) 80 years, being built and re-built at least two more times is the remnant of archaeological importance in district Koch Bihar. The citadel and adjacent relics bear the traces of the regimes of Koch Dynasty from time to time, architectural style of Pala-Sena period of Bengal in 10th and 11th century, construction by Khen Dynasty in 14th to 15th century, numerous terracotta and stone carvings of Kamta-Koch Kingdom, resemblance with Ambari Pottery style of Assam of 7th to 12th century, aggression of Islamic ruler Ghiasuddin Azam Shah in 16th century and lastly the British East India Company in 19th century. The site has been severally mentioned in the depiction of Koch Bihar by Ralph Fitch, Blave, Buchanon Hamilton and foremost Bengali historian *Shri* Rakhaldas Bandyopadhyay.

Status of Tourism and Arrangement of Accommodation in Koch Bihar :

Having some important places of tourist interest in the district and being adjacent to the hills and valleys of Tarai and Doors, tourism is an important source of revenue generation in district Koch Bihar. The following Table depicts the status of Tourism in district Koch Bihar for last 5 years.

Status in Tourism in District Koch Bihar

Year	No. of Trips conducted	No. of Tourists Carried	No. of Tourists Staying in Tourist Lodges	No. of Tourist Lodges (Govt.)	Total Earning ('000 Rs.)
2006-07	---	---	1443	4	269
2007-08	---	---	1656	5	339
2008-09	46	2766	1730	5	690
2009-10	48	2790	2360	5	703
2010-11	52	2875	2615	5	866

(Source : District Statistical Hand Book, Koch Bihar, 2010-11)

The arrangement for accommodation in the District Circuit House along with the newly extended facilities is the most sought after accommodation in the district. Zilla Parishad maintains one 'Atithi Niwas'. There is one PWD Bungalow also. In addition to the above, there are many private hotels and Tourist Lodges in the district, most of which are located in the district Head-Quarter Koch Bihar. There are Tourist Lodges maintained by West Bengal Forest Development Corporation in Rasikbil and Gosanimari.

Major Characteristics of the District, Contribution of the District in the form of Historical Figures Associated with the District

The people of Koch Bihar are generally peace-loving. The district being pre-eminently agricultural, the relevant traits of a peasant can be found present in them. Koch Bihar was a princely State until the Government of India took it over by the Merger Agreement on 12th September 1949. The Kings of Koch Bihar in their times customarily patronized learning and letters. However the centres of learning in the beginning were confined to the Royal Court and its surroundings and they were Sanskrit-centric. The members of the royal family were also taught Persian for State purposes. Imparting of modern and western education to the members of the Royal family as well as to the common people of the state begun during the regime of *Maharaja* Narendranarayan (1847-1863). In 1857 a vernacular school was started in Koch Bihar and for imparting English education Jenkins School, which was established in honour of Col. Jenkins and at the request of Colonnel himself, started in 1861.

The modern Koch Bihar district can boast of the great Novelist Amiya Bhusan Mazumder who hailed from this district. He gave a new dimension to the regional novels and is considered as a master in this field. 'Mahiskurar Upakatha' is his pioneering work.

Village and Town Directory

Scope of Village Directory and Town Directory

The District Census Handbook is brought out in two parts – Part A and Part B separately. Part-A covers Village and Town Directory data and Part-B covers Village and Town wise Primary Census Abstract (PCA) data of 2011 Census along with Housing amenities data. The scope of Village Directory and Town Directory is discussed below.

Scope of Village Directory :

For the conduct of Census, the villages in the district have been arranged C.D. Block wise and within the C.D. Block, they are shown Location Code wise. For the purpose of identification, each village is assigned a Location Code number. In 2011 Census, all the villages have been given unique 6 digit Code numbers which are continuous within India and will remain constant across the Census. This will make it easier for comparative study. Location Code Range of 000001-799999 has been kept for villages.

'Village' is defined as a statutorily recognized unit having a definite boundary and separate land records. In case a complete village is treated as an Outgrowth of an urban agglomeration or a Census Town, data on amenities and land use for that village have not been given in the Village Directory but shown along with the urban component.

The un-inhabited villages (villages with no population) have been indicated as such after furnishing details of the location code number of the village, name and area of the village.

Village directory contains non-Census data pertaining to each village of the district. A C.D. Block level Map and alphabetical list of villages under each C.D. Block is included in the Part-A volume. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education and medical facilities, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the correlation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad ranges are given as - Code 'a' for less than 5 km distance, 'b' for 5 to 10 km distance and 'c' for more than 10 km distance.

Some additional information has been added, which are : (1) Pre. Primary School (2) Management Institute (3) Polytechnic (4) Special School for Disabled (5) Veterinary Hospital (6) Mobile Health Clinic (7) Traditional Practitioners and Faith Healers (8) Medicine Shop (9) Type of drainage connectivity for waste water outlet (10) Total Sanitation Campaign (TSC) (11) Rural Sanitary Mart/Rural Hardware outlet (12) Rural Production Centers (13) Solid and Liquid Waste Management (14) Village PIN Code (15) Public Call Office/Mobile (16) Mobile Phone Coverage (17) Internet Cafes/Common Service Center (18) Private Courier Facility (19) Auto/Modified Autos (20) Taxis (21) Vans (22) Tractors used for Transport (23) Cycle Pulled Rickshaws (Manual Driven) (24) Cycle Pulled Rickshaws (Machine Driven) (25) Carts Driven by Animals (26) National Highway (27) State Highway (28) Major District Roads (29) Other District Roads (30) Water Bound Macadam (31) ATM facility (32) Self-help Group (33) Public Distribution System (34) Mandis/Regular Market (35) Weekly *Haat* (36) Agricultural Marketing Society (37) Nutrition Centre (38) Accredited Social Health Activist (ASHA) (39) Community Centre with/without TV (40) Public Library (41) Public Reading Room (42) Polling Station (43) Birth and Death Registration office (44) Agricultural Product and (45) Handicrafts Products.

In addition to the above details, following appendices to Village Directory have also been included.

Appendix-I	Summary showing total number of villages having Educational, Medical and other amenities in villages – C.D. Block level.
Appendix-I A	Villages by number of Primary Schools.
Appendix-I B	Villages by Primary, Middle and Secondary Schools.
Appendix-I C	Villages with different sources of drinking water facilities available.
Appendix-II	Villages with 5,000 and above population which do not have one or more amenities available.
Appendix-III	Land utilization data in respect of Census towns.
Appendix-IV	C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of Villages not having Scheduled Caste population.
Appendix-VI	Summary showing number of Villages not having Scheduled Tribe population.
Appendix-VII A	List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
Appendix-VII B	List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Scope of Town Directory :

The Town Directory contains Non-Census data for each of the towns in the district and is presented through a set of seven statements covering different aspects of urban life. It presents important and useful information like civic and other amenities available in all the towns of the district. The presentation of the statements used in the current 2011 Census similar to the preceding 2001 Census.

The Non-Census data contained in the Town Directory is largely provided by the Municipal Authorities. In case of Non-Municipal towns (Census Towns), the information have been provided by the respective C.D. Block Authorities.

The details of town directory statements are given below in brief.

(I)	Statement I	– Status and Growth History
(II)	Statement II	– Physical aspects and location of towns, 2009
(III)	Statement III	– Civic and other amenities, 2009
(IV)	Statement IV	– Medical Facilities, 2009
(V)	Statement V	– Educational, Recreational and Cultural facilities, 2009
(VI)	Statement VI	– Industry and banking, 2009
(VII)	Statement VII	– Civic and other amenities in slums, 2009
(Appendix)	Appendix	– Towns showing their outgrowth with population

In all the statements the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. One Statement-III Municipal Finance deleted and Statement-V Medical, Educational, Recreation and Cultural Facilities divide in above two Statement-IV and Statement-V.

Brief Note on Village and Town Directory including Abbreviations used in Town Directory

Village Directory 2011 Census :

The Village Directory is being compiled for both inhabited and un-inhabited villages. In the village directory both private and government facilities/institutions have been given. In case of un-inhabited/depopulated villages, the location code number, name and area of the village is being given universally in Village Directory and Village PCA. The columns relating to the amenities and land use pattern, etc. being left blank and it will be noted against the name of the village that it is un-inhabited/depopulated. The Appendices to Village Directory and Inset Tables based on village Directory data are also prepared for inhabited villages.

In the Village Directory format for 2011 Census there are 121 columns and the details thereon are as follows :

Columns 1 : Serial Number : Self explanatory. All the villages within the CD block are presented serially in the ascending order of their location code number.

Columns 2 : Name of village : Self explanatory. The name of the villages is shown against this column. This also includes the forest and uninhabited villages.

Columns 3 : Location Code Number of village. The location code number of the villages is shown against this column.

Columns 4 : Area of the Village : The area of the villages has been given in hectares.

Column 5 : Total Population : The total population of the village as per 2011 Census has been given against this column.

Column6 : Number of Households : The number of households as per 2011 Census have been given in this column.

Amenities :

The availability of different infrastructural amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, recreation and cultural facilities, communication, power, etc. in each village have been given in the Village Directory. Wherever the amenities are not available in the village, the distance range code viz. 'a' for <5 Kms, 'b' for 5-10 Kms and 'c' for 10+ Kms of the nearest where facility is available is given. Column wise details are given below :

Columns No. 7 to 20 – Educational Facilities : All the different educational facilities available in the village have been given under these columns. Nursery/LKG//UKG classes are included in Pre-Primary Schools, Classes up to class V included in Primary School; Classes from VI to VIII are included in the Middle school. Classes from IX and X included in Secondary School. Classes from XI and XII are included in Senior Secondary School. In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively. The information on the entire educational institutes is given under these columns.

Columns No. 21 to 38 – Medical Facilities : All the different medical facilities available in the village have been given under these columns.

Columns No. 39 to 46 – Drinking Water : The information on availability of various types of the drinking water facility within the village has been given under these columns.

Columns No. 47 to 50 – Availability of Toilet and others : The information on availability of toilet and Bio-Gas etc. available in the village has been given under these columns.

Columns No. 51 to 67 Communication – Post & Telegraph and Transport : The information on communication and Post Office, Sub-Post Office, & Telegraph Office,

Village PIN Code number, Phone-Landlines, Mobile Phone, Private Courier Facility, Internet Café, etc. available in the village has been given under these columns. The information on all various transport facilities whether public/private transport like Bus, Railway Station or Navigable waterways, Taxi, Van, Tractors etc. available in the village has also been given under these columns.

Columns No.68 to 79 – Village connected to High ways, Village Roads, Banks and Credit Societies : The information on all roads connected to village has been given under these columns. These include National Highway, State Highway, District Roads and other district roads connected to the village, Pucca roads, Kutchcha Roads, Water Bounded Macadam Roads, Navigable Water Ways and Foot Paths has been given under these columns. Further, the information on availability of banks, ATM and Agricultural Credit societies in the village has been given under these columns.

Column No. 80 to 96 – Miscellaneous Facilities : The information on various miscellaneous facilities available in the village has been given under these columns. These includes Self -Help Group, Public Distribution Shop (PDS), Mandi /Regular Market, Weekly Haat, Agricultural Marketing Society, Nutrition Centre(ICDS), Anganwadi Centre, ASHA, Community Centre, Sports Fields, Sports Club/Recreation Centre, Cinema/Video Halls, Public Library, Public Reading Room, News Paper Supply, Assembly Polling Station, Birth and Death Registration Office.

These include Electricity for Domestic Use, Electricity for Agriculture Use Electricity for Commercial Use, and Electricity for all purpose Domestic Uses.

Column No. 101 and 102 – Nearest Town : The name of the nearest town along with the distance range code has been in these columns.

Land use and Irrigation :

The land use patterns in the Village Directory conform to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the following 9 categories.

(i) Column No. 103 – Forests : This includes all lands classed as forest under any legal enactment dealing with forests or administered as forests, whether state-owned or private, and whether wooded or maintained as potential forest land. The area of crops raised in the forest and grazing lands or areas open for grazing within the forests remain included under the forest area.

(ii) Column No. 104 – Area under non-agricultural use : This includes all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals and other lands put to uses other than agriculture.

(iii) Columns No. 105 – Barren and un-culturable land : This includes all barren and unculturable land like mountains, deserts, etc. land which cannot be brought under cultivation except at an exorbitant cost should be classed as unculturable whether such land is in isolated blocks or within cultivated holdings.

(iv) Column No. 106 – Permanent Pastures and other Grazing Lands : This includes all grazing lands whether they are permanent pastures and meadows or not. Village common grazing land is included under this head.

(v) Column No. 107 – Land under Miscellaneous Tree Crops, etc. : This includes all cultivable land which is not included in 'Net area sown' but is put to some agricultural uses. Lands under Causing trees, thatching grasses, bamboo bushes and other groves for fuel, etc. which are not included under 'Orchards' are classed under this category.

(vi) Column No. 108 – Culturable Waste Land : This includes lands available for cultivation, whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of the five years.

(vii) Column No. 109 – Fallow Lands other than Current Fallows : This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.

(viii) Column No. 110 – Current Fallows : This represents cropped area, which is kept fallow during the current year. For example, if any seeding area is not cropped against the same year it may be treated as current fallow.

(ix) Column No. 111 – Net Area Sown : This represents the total area sown with crops and orchards. Area sown more than once; in the same year is counted only once.

Column No. 112 – Total Irrigated Land Area : It includes all land which is cultivable and irrigated by any source of irrigation. The total irrigated area of the village has been given under this column.

Column No. 113 – Total Un-Irrigated land Area : Un-Irrigated area includes all land which is cultivable but not irrigated by any source of irrigation. The total un-irrigated land area of the village has been given under this column.

Column No. 114 to 118 Area Irrigated by source : The area irrigated by various source of irrigation in the village have been given under these columns. The different source of irrigation facilities available in the village are as follows :

(i) Canals (C) – Govt. or Pvt., (ii) Wells/Tube-wells (W/TW), (iii) Tanks/Lake (T/L), (iv) Waterfall (WF), and (v) Others (O).

Columns No.119 to 121 – Three most important commodities manufactured : The names of three most important commodities manufactured in the village are indicated in this column.

C.D. Block level totals of the Village Directory :

At the end of entries for the Village Directory of each C.D. Block, the totals of different columns are being given wherever possible. However, in case of some of the columns, it may not be possible to work out the C.D. Block level totals, in such cases the particular of relevant columns are being left blank against C.D. Block level.

Appendices to Village Directory :

The Village Directory also includes the following appendices :

Appendix I	:	Summary showing total number of villages having Educational, Medical and other amenities in villages – C.D. Block level.
Appendix I A	:	Villages by number of Primary Schools.
Appendix I B	:	Villages by Primary, Middle and Secondary Schools.
Appendix I C	:	Villages with different sources of drinking water facilities available.
Appendix II	:	Villages with 5,000 and above population which do not have one or more amenities available.
Appendix III	:	Land utilization data in respect of Census towns.
Appendix IV	:	C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix V : Summary showing number of Villages not having Scheduled Caste population.

Appendix VI : Summary showing number of Villages not having Scheduled Tribe population.

Appendix VII A : List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B : List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Note explaining the abbreviations used in Town Directory 2011 Census :

Statement I : Status and Growth History :

Column 1 – Serial Number : Self explanatory

Column 2 – Class, Name and Civic status of Town : The Class is presented according to population of the towns in 2011 Census as follows:

Population	Class	Population	Class
100,000 and above	I	10,000 – 19,999	IV
50,000 – 99,999	II	5,000 – 9,999	V
20,000 – 49,999	III	Below - 5,000	VI

The following abbreviations are used to denote the Civic Status of the town.

Civic Status	Codes	Civic Status	Codes
i – Municipal Corporation	M. Corp.	xii – Notified Town Area	NTA
ii – Municipal Committee	MC	xiii – Industrial Notified Area	INA
iii – Municipal Council	M Cl	xiv – Industrial Township	ITS
iv – City Municipal Council	CMC	xv – Township	TS
v – Town Municipal Council	TMC	xvi – Town Panchayat	TP
vi – Municipal Board	MB	xvii – Nagar Panchayat	NP
vii – Municipality	M	xviii – Town Committee/ Town Area Committee	TC
viii – Cantonment Board/Cantonment	CB	xix – Small Town Committee	ST
ix – Notified Area	NA	xx – Estate Office	EO
x – Notified Town	NT	xxi – Gram Panchayat	GP
xi – Notified Area Committee /Notified Area Council	NAC	xxii – Census Town	CT

Column 3 to 25 : These columns are self-explanatory.

Statement II : Physical Aspects and Location of town, 2009

Column 1 to 2 – Serial number and Name of town : Self explanatory

Columns 3 to 5 – Physical Aspects : In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Columns 6 to 12 : Name and road distance of the town (in kms.) from the State headquarters, District headquarters, Sub-divisional/Taluk/Tahsil/Police station/ Development Block/Island HQ., Nearest city with population of one lakh and more, Nearest city with population of five lakh and more, Railway station and Bus route is recorded in these columns respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Statement III – Civic and other Amenities, 2009 :

Column 1 to 2 – Serial number and Name of town : Self explanatory

Column 3 – Road length (in km.) : The information about the road length (in km.) within the limit of the town is recorded in this column.

Columns 4 to 7 – System of drainage : The system of drainage available in the town is indicated in these columns by the following codes :

System of drainage	Codes
Open drains	OD
Closed drains	CD
Both drains	BD

Columns 8 to 11 – Number of latrines : The number of various types of latrines available in the town is indicated in these columns.

Columns No. 12 & 13 – Protected water supply : The information on source of water supply and system of water storage with capacity available in the town are given in these columns in the following codes :

Column 12 (Source of water supply) :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 13 (System of water storage) :

(i)	Over Head Tank	OHT
(ii)	Service Reservoir	SR
(iii)	River Infiltration Gallery	RIG
(iv)	Bore Well Pumping System	BWP
(v)	Pressure Tank	PT

The information on 2 major source of water supply is given in column 12 and the system of water storage with capacity against each in kilo-litres (in bracket) is presented in column 13.

Columns 14 – Fire Fighting Service : In case the fire fighting service is available in the referent town, `yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Columns 15 to 19 – Electrification (Number of connections) : Different types of electric connections have been shown in these columns, i.e., Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement IV : Medical Facilities, 2009 :

Columns 1 to 2 – Serial number and Name of town : Self explanatory

Columns 3 to 13 : The number of various medical institutions such as Hospitals, Dispensaries, Health Center, Family Welfare Center, Maternity and Child Welfare Center, Maternity Homes, T.B. Hospital/clinic, Nursing Homes, Charitable Hospital/Nursing Home, Mobile Health Clinic and Others as available in the town, are indicated in these columns (along with number of beds in brackets).

If a medical facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Column 14 – Veterinary Hospital : The Number of Veterinary Hospitals available in the town is given in this column.

Column 15 – Medicine Shop : The number of Medicine shops available in the town is given in this column.

Statement V : Educational, Recreational and Cultural Facilities, 2009 :

Columns 1 to 2 – Serial number and Name of town : Self explanatory

Columns 3 to 15 – Educational Facilities : The information on number of Primary school, Middle school, Secondary school, Senior Secondary school, Arts/Science/Commerce colleges (of degree level and above), Medical colleges, Engineering colleges, Management Institute/Colleges, Polytechnics, Recognized Shorthand, Typewriting and vocational training Institutions, Non-formal Education Center (Sarva Shiksha Abhiyan Center), Special School for disabled and Others available in the town, are indicated in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Columns 16 to 23 – Number of Social, Recreational and Culture Facilities : The information on No. of Home Orphanage, Working women's hostels (with No. of seats in bracket), No. of Old Age Home, Stadium, Cinema Theatre, Auditorium/Community halls, Public libraries and Reading rooms available in the town are given under these column.

Statement VI : Industry and Banking 2009 :

Columns 1 to 2 – Serial number and Name of town : Self explanatory

Columns 3 to 5 – Names of three most important commodities manufactured : The names of three most important commodities manufactured in the town are given under these columns.

Columns 6 to 8 – Number of banks : The number of banks available in the referent town both Commercial and Co-operative banks are recorded against these columns.

Columns 9 & 10 – Number of Agricultural and Non Agricultural Credit Societies : The number of Agricultural and Non Agricultural Credit Societies available in the referent town are given in these columns.

Statement VII : Civic and other Amenities in Slums, 2009 :

This statement VII provides information on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.
