## MOTIF

Murshidabad, the first capital of British India, had been a land of Bengal Nawabs. Once upon a time this had been a land of palaces, most of which now remain as relics. Among those that still prosper, HAZARDUARY stands out.

Situated at the east bank of river Bhagirathi at Lalbagh, this palace was built during the reign of Nawab Nazim Humayun Shah at a cost of Rs. 16.50 lakhs. Designed by Colonel Duncan McLeod of the Bengal Corps of Engineers, it took 17 years for completion (completed in 1837), and was inaugurated during the administration of the then Governor General Lord Auckland.

Reminiscent of Italian style, as seen in its huge flight of stairs and colossal pillars, this palace has about thousand real and false doors, and hence the name HAZARDUARY. The palace was used for holding DURBAR and other official work of the Nawabs as also for the residence of high ranking British officials. It now houses a museum displaying the stupendous and rare collection of books, manuscripts, statues, arms, paintings and furniture of the Nawabs of Bengal.

## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup>.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Deepak Ghosh, IAS., Director of Census Operation, West Bengal. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)

## PREFACE

The District Census Hand Book or DCHB is the most popular and widely used publication which is compiled and prepared by the Census Organization. The first ever DCHB was published in the year 1951. Thereafter Census Directorate is coming up with the publication of DCHB in every decadal Census and the present volume of DCHB of 2011 is seventh in the series.

Over the time, the contents of DCHB have been changing keeping in track with the requirement of the data user on different amenities. Since DCHB is a compilation of Census and non-Census data, the presentation is being done in two parts, viz. the Part-A and Part-B separately for each district. Part-A contains Village & Town Directory data with some important tables depicting availability of basic civic amenities such as drinking water facilities, educational facilities, post & telegraph facilities, banking facilities etc. at the C.D. Block/Village and Town level. Part-B on the other hand contains District Primary Census Abstract of Total Population including Scheduled Castes and Scheduled Tribes at the C.D. Block/Village level and for urban units like for Statutory Towns and Census Towns, it is ward level. Part-B contains data for sex wise distribution of population, age group of 0-6 years, literate and illiterate, Scheduled Castes and Scheduled Tribes, worker and non-worker data, economic category i.e. cultivator, agricultural labour, household industry worker and other worker.

Apart from the above, DCHB also furnishes a variety of essential information pertaining to the district like brief history, the information about administrative set-up, location, climate, economic resources, land use, transport, industry, trade and commerce, place of historical, archaeological and tourists importance etc. It also provides brief analysis of Census data, presentation of the data through various tables, graphs and maps has made the publication much more attractive and valuable.

Most sincere and deepest gratitude is expressed to Dr. C. Chandramouli, IAS, Registrar General and Census Commissioner, India for his constant inspiration, support and valuable suggestions. The support and assistance of Dr. R.C. Sethi, former Additional Registrar General and Shri Deepak Rastogi, present Additional Registrar General, worth special mentioning. Our earnest gratitude to them. We are also grateful to Dr. A.P. Singh, former Deputy Registrar General (Map) for providing the technical guidance in the preparation of maps and to Dr. Pratibha Kumari, Assistant Registrar General (SS) for her overall supervision. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Additional Director

(EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). Heartfelt thanks to all the Officers of the Office of the Registrar General, India who contributed their share in befitting manner.

The sincere contributions made by the District Magistrates of all districts, Municipal Commissioners of Kolkata and Haora Municipal Corporations, District Census Officers, Additional District Census Officers (Officer In-charge, Census) and innumerable Village, C.D. Block and Town level officials of all the districts of West Bengal for arranging collection of village and town directory data by the local officials from the villages/towns under their respective jurisdiction are hereby acknowledged with thankfulness.

At this Directorate level, sincere thanks are due to all those who put utmost sincerity and zeal towards the successful completion of this publication within the stipulated time. As it is not feasible to express recognitions individually, a separate page of acknowledgement is included in this publication.

## Acknowledgements

- A. The Directorate of Census Operations, West Bengal respectfully acknowledges the devoted, sincere hard work rendered by about two lakhs Census Enumerators, Supervisors and Officials at the District, Block and Municipal levels without whose heroic efforts, the Census 2011 could never be undertaken.
- B. The Census Directorate, West Bengal also gratefully acknowledges the sincere and dedicated work of the following officers/officials of this Directorate associated with the preparation of this District Census Hand Book, 2011 whose hard-work, dedication and diligence has made the publication of this volume possible.

## HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## Brief history of the district

The history of Murshidabad district can be traced back to ancient times. The geographical area of Murshidabad district can be broadly divided into two parts: the eastern part and the western part. The eastern part of the district which lies to the east of the river Bhagirathi is known as Bagri derived from perhaps Bakradwip and the western part of the district which lies to the west of Bhagirathi is known as Radh. During the 5th century AD some portion of the modern Murshidabad district i.e. Northern Radh and Bagri belonged to the Territory of Gupta Empire. In the 7th century AD King Sasanka ruled over the whole of Radh including some portions of *Vanga* like Bagri. The capital city of King Sasanka's empire Karnasubarna is now connected through Karnasubarna (formerly Chirut) railway station which is the part of Kandi Sub-Division of the district and located at the Katwa-Azimganj Railway line under the Eastern Railway. Yuan Chwang (Hiuen Tsang), the legendary Chinese pilgrim had given a detailed account about this old city alongwith that of the entire kingdom. After the death of Sasanka a state of anarchy (*Matsyanaya*) prevailed in Bengal which lasted for almost a hundred years. Elevation of Gopal as the King of subjects ended the reign of anarchy prevailing in Bengal thereby laying the foundation stone of the Pal dynasty. Dharmapal succeeded his father Gopal in around 770 AD. According to the Khalimpur copperplate-inscription, one of the mandals, Vyaghratati mandal, was included in *Pundravardhana-bhukti*. Vyagharatati-mandal has been identified with the Bagri portion of Murshidabad, Nadia and North Twenty Four Parganas by Alexander Cunningham. The decline of the Pal dynasty begun during the reign of Madanpal who ascended the throne in 1144 A.D. The Karnat ruler of Mithila along with his ally Vijaysen were instrumental in ending the rule of the Pal dynasty. The father of Vijaysen was a feudatory chief or a *vassal* of the Pals in northern Radh (Birbhum district of the present day). Madanpal was defeated on the banks of river Kalindi in Maldah by the joint army of the Karnats of Mithila and Karnat-Kshatriya - Sens of Bengal. From the several historical evidences it can be found that Vijaysen took hold of the Pal territories in whole of Radh (western Murshidabad) and Bagri (eastern Murshidabad) and had subsequently extended his territory to the whole of the central and southern Bengal. Vijaysen ruled over the entire district of the present day Murshidabad till the invasion of Bakhtiyar Khilji.

Invasion of Bakhtiyar Khilji laid the foundation stone of Sultanate rule in Bengal. Bakhtiyar Khilji on his way from Bihar-Sharif to Nadiya went through the

Radh portion of Murshidabad, though he left Nadia to conquer Goud-Lakhnauti and consolidate his conquest in *Barendi* (North Bengal) and North Bihar. The Radh portion of modern Murshidabad district was brought under the domination of BakhtiyarKhalji in 1206 AD under the command of Muhammad Sheran and Ahmad Sheran, but it is not clear from the available records whether the whole of Northern Radh was under the jurisdiction of the Sultanate at that juncture. The whole of Northern Radh was under control of the next Sultan GhiyasuddinIwazKhalji (circa AD 1213-27) who wrested the last citadel of Hindu rule in Northern Radh. Bagri portion of the modern Murshidabad district was brought under Delhi Sultanate after Lakhnauti in 1259 AD was captured by an official of the Delhi Sultan. Bengal witnessed several types of political upheavals during the next three hundred years. The rulers were replaced in a very quick succession. Sometimes Bengal was centrally controlled by the Delhi Sultanate, sometimes the Governors appointed on behalf of the Sultanate declared themselves independent and waged wars with the Sultanate. Sometimes the Governors of different provinces were found to be at loggerheads with each other. Often a de-facto independent Sultan took possession of different Governorships under one command. After the culmination of the Sultanate rule there was a brief era of rule by the Shahi dynasties accompanied by a brief Hindu interregnum (Raja Ganesh). Two most famous dynasties of this period are the dynasties of IlyasShahi and Hussain Shahi. Thereafter Bengal witnessed a brief reign of Sher Shah Suri. Mughal rule in Bengal began after Emperor Akbar's General Munim Khan's move from Bihar towards Bengal and the capture of Bengal's capital Tanda (near Goud) without a fight in 1574. However, under Akbar the Mughal rule in Bengal was more like an armed occupation that lacked a settled administration. It was only during the reign of Jehangir that the Mughal administration assumed a concrete shape and covered almost the entire Bengal.

The political history of *Makhsudabad* city alongwith that of the whole of the modern district of Murshidabad witnessed a phenomenal change in 1700 AD with the appointment of Kartalib Khan, alias Jaffar Khan alias MurshidKuli Khan, as the *Faujdar* of *Makhsudabad* and the *Diwan* of Subah Bangla by Emperor Aurangzeb. The name of Murshidabad, where the provincial revenue headquarters was shifted from Dhaka in 1704 by MurshidKuli Khan, the *Diwan* of Bengal was derived at that juncture. The present name of Murshidabad had been derived from the nomenclature coined by the erstwhile *Diwan* as *Mukhsusabad* or its similar variant *Makhsudabad*, meaning the selected city.

After death of MurshidKuli Khan his son-in-law Shuja-ud-daulla (1725-39) succeeded him as the *Subedar* of Bengal and Orissa. There were more changes in administrative set-up in his tenure. Shuja-ud-daullawas killed during the battle with Alibardi Khan atGiria. After Shuja-ud-daulla, Alibardi became the *Subedar* and *Nawab* of Bengal, Bihar and Orrisa and his tenure lasted between 1739 and 1756.During his reign an era of good administration had prevailed. He had to encounter the invasion of the Bargi or Marhatta. Although there were initial setbacks,he ultimately succeeded to hold his ground and eventually forced the Marhatha to retreat from Bengal due to his able administration. After Alivardi died in 1756, his grandson Siraj-ud-daulla succeeded him as*Nawab* of Bengal and Bihar. Siraj-ud-daulla became the victim ofthe joint conspiracy between Mirjafar and Mr. Watts of the British East India Company. With the assistance fromMirjafar, East India Company won the battle of Plassey on 23rd June, 1757. Siraj was captured near Rajmahal and was murdered by Miran, the son of Mirjafar on 2nd July, 1757. The battle of Plassey (Palashi) in 1757 ushered in phennomenal changes in the administrative set up of Bengal including changes in jurisdiction of several districts. After the battle of Plassey in 1757, Mirjafar became the Nawab of Bengal in the form of a puppet in the hands of the East India Company. In 1761, Mirkasim bribed his way to the 'Masnad' and then shifted his capital from Murshidabad to Monghyr. Mir Turab Ali Khan was appointed as the NaibNizam (Deputy Governor) of Murshidabad while Mirkasim took away all the elephants, horses and treasures including gold and silver decorations of the Imambara to Monghyr. Mirkasim's revolt against the Company and his subsequent defeat in the battle of Buxar in 1764 resulted in the anointment of a series of puppet *Nawabs* to the "*Masnad*"

With the grant of the *Diwani* in 1765, the revenue management of the whole of Bengal was handed over to the East India Company. In 1765, the Council of the Company in Calcutta became the supreme revenue management authority and the centre of power in Bengal shifted from Murshidabad to Calcutta. This event led to the relegation of thestatus of erstwhile capital city of Bengal since the reign of the Mughal *Subah*, Murshidabad into thatof a district town. The famine of 1770 coupled with the transfer of Diwani office to Calcutta in 1772 marked the beginning of an era of rapid decline of Murshidabad.

In 1770, the controlling council of Revenue was set up in Murshidabad, which was subsequently superseded by the Board of Revenue in 1772 resulting in the shifting of the centre of revenue administration from

Murshidabad to Calcutta. In 1781, all provincial councils were abolished and Presidents of provincial councils were redesignated as Collectors, who were vested with powers of Civil Judge and Executive Magistrate.

The modern district of Murshidabad came into existence in 1787 following certain jurisdictional interchanges with the Birbhum district though the units in the district were finalised in 1879. Since 1879, the present set up of the district remained same alongwith the boundaries.

As per "3 June Plan" or "Mountbatten Plan", after the partition of India in August, 1947, by mistake Murshidabad was supposed to come under the jurisdiction of East Pakistan. However after the declaration of Radcliff award the district became a part of West Bengal. It is remarkable to note that for 3 days Murshidabad unofficially remained a part of East Pakistan although it was officially a part of West Bengal.

## Administrative set up

**(i) Region of the state where district is located:**

Murshidabad is situated on the eastern peripheral plains of the state of West Bengal and it is the northernmost district of Presidency division. It formed the eastern international boundary of state bordering Bangladesh (erstwhile East Pakistan) from 1947 when India became independent. Padma River flows through the entire eastern boundary, separating the district from the districts of Malda and Rajshahi (Bangladesh). Burdwan and Nadia are in the southern side and Birbhum and the Pakur (Jharkhand) are on the western side of the District.

Murshidabad is in the middle of West Bengal lying between 23°43'N and 24°52'N latitude and 87°49'E and 88°44'E longitude. It has a total area of 5316.11 sq. km.

**(ii) Total number of CD Blocks or the next Administrative units after district and changes therein including jurisdictional changes during 2001-2011 :**

The district has 5 Sub-divisions, viz. BehramporeSadar, Jangipur, Lalbag, Kandi & Damkol. There are 26 Community Development (C.D.) Blocks, 7 Municipalities and in the district. BehramporeSadar Sub-division has got 5 C.D. Blocks namely, Beldanga-I, Beldanga -II, Behrampore, Hariharpara and Naoda. Jangipur Sub-division has got 7 C.D. Blocks namely, Farakka, Samderganj, Suti-I, Suti- II, Raghunathganj- I, Raghunathganj- II & Sagardighi. Lalbag sub-division has got 5 C.D. Blocks namely Lalgola, Bhagawangola- I, Bhagawangola- II, Murshidabad-Jiaganj & Nabagram. Kandi Sub-division has got 5 C.D. Blocks namely Kandi, Khargram, Barwan, Bharatpur- I & Bharatpur- II. Domkol Sub-division has got 4 C.D. Blocks namely Domkol, Jalangi, Raninagar- I, Raninagar- II.

There are 27 Police Stations (P.S.) in the district. 7 P.S. are situated in BehramporeSadar Sub-division viz. Behrampore, Daulatabad, Hariharpara, Naoda, Beldanga, Rejinagar & Shaktipur. 5 P.S. are situated in Jangipur Sub-division viz. Raghunathganj, Farakka, Sagardighi, Suti & Samserganj. 6 P.S. are situated in the Lalbag Sub-division viz. Murshidabad, Nabagram, Jiaganj, Bhagawangola, Ranitala & Lalgola. 5 P.S. are situated in Kandi Sub-division viz. Kandi, Khargram, Salar, Bharatpur & Burwan. 4 P.S. are situated in Domkol Sub-division viz. Domkol, Jalangi, Islampur & Raninagar.

There has been no jurisdictional change in the district during 2001-2011.

**(iii) Total number of Towns/Villages etc.:**

As per Census of India, there are 72 urban units in Murshidabad district. There are 7 municipalities in the district viz. Dhuliyani, Jangipur, Jiaganj, Azimganj, Murshidabad, Kandi, Beldanga & Behrampore. The remaining are classified as Census or Non-municipal towns numbering 65 and namely Farakka Barrage Township, Srimantapur (Part), Beniagram, Arjunpur, Shibnagar, Mamrejpur, Paranpara, Mahadebnagar, Anupnagar, Jafrabad, Kankuria, Uttar Mohammadpur, Chachanda, Dhasanpara, Serpur, Kohedpur, Bhasaipaikar, Joykrishnapur, Basudebpur, Madna, Ramakantapur, Naxabahadurpur, Fatellapur, Jagtaj, Debipur, Aurangabad, Mahendrapur, Hafania, Dafahat, Paschim Punrapara, Ichlampur, Chakmehgan, Kakramari, Khanpur, Khidirpur, Bhabki, Ahasala, Srikantabati, Charka, Dafarpur, Ramnagar, Mirzapur, Giria, Mithipur, Jatkomal, Osmanpur, Sahajadpur, Khodarampur, Danalia, Teghari, Krishnasali, Burojamla, Islampur, Hashania Chak, Gooljan, Kasem Bajar, Barjetia, Shibdanga Badarpur, Gopjan, Gorabajar, Ajodhyanagar (Part), Chaltia, Haridasmati, Bana (Part) & Salar.

A total of 2166 villages are distributed in 26 C.D. Blocks of the district.

**(iv) If the district is newly created, the area from which it has been carved out :**

It is not a newly created district.

**(v) Urban Local Bodies:**

India has seen the formation of urban local bodies since the time of Indus Valley Civilization. The first Municipal Corporation was set up at erstwhile Madras (now Chennai) under a charter granted by James-II during the British rule in 1687. There are different types of urban local bodies, namely, Municipal Corporations, Municipal Councils, Municipalities, Notified Area Committees, Cantonment Boards etc. Except the Cantonment Boards all other types of municipal bodies are governed by the state municipal laws. Cantonment Boards are controlled by the Central Act called Cantonment Acts, 1924. A municipality is constituted with elected members of the inhabitants of a city or town and municipal corporations, and is created by the enactment of State Legislatures or of Parliament in case of Union Territories. The area which does not fulfil all the conditions laid down as necessary for the constitution of a municipality or it may also be created for newly developing towns or areas are known as Notified Area Committee. Except Notified Area, the councils of all these corporate bodies comprise of elected members of the public through adult franchise (citizen of 18 years and above) based on secret ballot. The notified area is governed by the state governments through a body nominated by it. Apart from overall planning, creation and maintenance of Civil Administration, the primary object of every urban local body is to provide certain civic amenities to the people.

As already stated there are 7 municipalities. Among them 6 municipalities are the oldest, established on 1<sup>st</sup> April 1869. Then Dhuliyar Municipality was established in 1909.

**Civil Administration:**

The civil Administration of the district is consisted of District Magistrate as the Principal Executive of the district along with 5 Sub-Divisional Officers being Sub-divisional heads of BehramporeSadar, Jangipur, Lalbag, Kandi&Domkol Sub Divisions. The C.D. Blocks are headed by the Block Development Officers under the control of the S.D.O.s. Under the Police Administration, Superintendent of Police is the head of the district under which 5 Sub-Divisional Police Officers with Inspector In-Charges or Officer-In-Charges for 27 Police Stations of the district are in function. From the Judicial point of view, District Judge is the head of the District Judiciary and Sub-Divisional Judicial Magistrates are the head at the Sub-Divisional levels.

## District Highlights - 2011 Census

- Murshidabad District comprises of 26 C.D. Blocks and 7 Statutory Towns.
- There are total 2166 Villages and 65 Census Towns in the District.
- Murshidabad District occupies 4<sup>th</sup> position in terms of Total Population and it ranks 2<sup>nd</sup> in terms of Child (0-6 year's) Population among all districts in the State.
- Murshidabad District occupies 11<sup>th</sup> position in terms of Scheduled Castes Population in the State.
- Murshidabad District occupies 15<sup>th</sup> position in terms of Scheduled Tribes Population in the State.
- The percentage of urban share of Population of Murshidabad District has expanded from 12.5% (2001 Census) to 19.7% (2011 Census) of Total Population of respective Census.
- This District has the 3<sup>rd</sup> highest decadal Population growth rate in the State with a figure of 21.1% and much higher than the State average (13.8%).
- The density of Population (Population per square km) of the District is 1,334 per square km which makes its rank 5<sup>th</sup> in the State.
- The Sex Ratio of the District is 958 (No. of females per 1000 males) which is higher than the State's Sex Ratio (950) and it ranks 4<sup>th</sup> in the State and slides down to 7<sup>th</sup> position along with District Birbhum when only Rural Sex Ratio (955) is considered. In case of Scheduled Castes Population the Sex Ratio is 951 and its rank is 7<sup>th</sup> in the State. For Scheduled Tribes Population the Sex Ratio is 972 and it ranks 12<sup>th</sup> along with North 24 Parganas District.
- In case of proportion of Child Population (0-6 years), Murshidabad District ranks 3<sup>rd</sup> in the State (14.3%).
- Murshidabad District has experienced a decline in Child Sex Ratio (CSR) from 972 in 2001 Census to 968 in 2011 Census vis-a-vis the State decline from 960 in 2001 Census to 956 in 2011 Census has been noticed.
- Literacy rate of the District is 66.6% (much lower than the State average of 76.3%) thereby making its rank 16<sup>th</sup> in the State.
- The Work Participation Rate has improved from 34.2 (in 2001 Census) to 36.5 (in 2011 Census) and in this case it ranks 15<sup>th</sup> in the State.
- Murshidabad District is following a decreasing trend in proportion of Main Workers to Total Working Population from 83.4 in 2001 Census to 78.1 in 2011 Census similar to trend in the State where the percentage 78.1 in 2001 Census dips into 73.9 in 2011 Census.
- There are 104 (One hundred and four) Villages in the district having Population 10,000 and above.
- Paschim Kasipur (Bhagawangola –I C.D. Block) is the least populated Villages in the District with Population 7.
- Katlamari (Raninagar-II C.D. Block) is the most populated (Population 33,290) Village in the District.
- Sagardighi C.D. Block has the highest number of Villages (197) and Samserganj C.D. Block has the lowest number of Villages (33) in the District.
- Murshidabad District stands 7<sup>th</sup> in terms of area (5324.00 sq. km) among the districts in the State.
- It is noteworthy that in Murshidabad District 18% of Total Worker engaged in Household Industry. The ratio of Household Industry Worker to Total Worker is the highest among all the Districts in the State. Cultivators and Agricultural Labourers are 14.7% and 32.5% of the Total Workers respectively.
- There are 281 uninhabited Villages in the District.

## **Section - I**

# **Primary Census Abstract (PCA)**

## Brief Note on Primary Census Abstract

### Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

### 2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28<sup>th</sup> February, 2011 along with a revisional round from 1<sup>st</sup> March, 2011 to 5<sup>th</sup> March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11<sup>th</sup> September, 2010 to 30<sup>th</sup> September, 2010 along with a revisional round from 1<sup>st</sup> October, 2010 to 5<sup>th</sup> October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
